

# GILSON SALES HAVE INCREASED 50% OVER LAST YEAR--WHY?

BECAUSE SHREWD, CONSERVATIVE BUYERS, WHOSE MOTTO HAS BEEN "SAFETY FIRST" HAVE RECOGNIZED THAT GILSON "GOES LIKE SIXTY" ENGINES AND ENSILAGE CUTTERS REPRESENT THE GREATEST VALUE

Sterling qualities in machinery, as in men, stand out in strenuous times. Only the fittest survive. The fact that Gilson sales have increased enormously, when other factories have been running on short time or completely shut down, speaks volumes. While other firms are suffering from the money stringency, we are in a position to grant EASY TERMS to reliable men. LET US BE YOUR BANKERS.

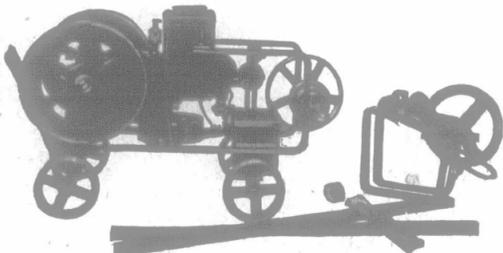

**GILSON BIG 6 HORSE-POWER**  
6-inch Bore and 10-inch Stroke  
An Engine with a wonderful record

Gilson Mfg. Co., Ltd., Linwood, Ont.  
Gentlemen,—My 6 H.-P. Engine has given me the best of satisfaction; in fact, it has far exceeded our highest expectations. We have not had the least trouble with it in any way, and it goes like clockwork. It is the easiest Engine on fuel I ever saw.  
We operate a 9 1/4-inch chopper to its fullest capacity in mixed grain. Also a blower cutting-box and circular saw, all of which it handles easily. In fact, it has power to spare. It certainly is the ideal power for the farm, and I can recommend it to any intending purchasers.  
John Heinbuch.

## THE FARMERS' POWERHOUSE ON WHEELS

Made in 2 and 3 H.-P. sizes

## Made in Canada

Special exclusive features of Gilson Engines, which put them in a class by themselves, are:

The new, improved carburetor, for certain easy starting. No cranking necessary. Simplified speed-changing device. Wonderfully efficient and reliable governor. Patented friction clutch pulley, with removable pulleys of various sizes. Over-size crankshaft and broad bearings. The frost proof hopper. Wonderful economy and large surplus of power over rating, due to the use of the long stroke principle and scientifically correct construction. The 60-speed lineshaft on the 2 and 3 H.-P. sizes.

Prices from **\$47.50** up

**THE WONDERFUL GILSON PAPEC**

GUARANTEED to cut and elevate more ensilage with the same power than any other blower cutter

Gilson Manufacturing Co., Ltd., Guelph, Ont.: Alvinston, Ont., Oct. 28, 1914.

Gentlemen.—In regard to my O-10 Gilson Papec Cutting Box, I can say it works to perfection, filling my silo 12 x 30 feet in less than 10 hours with a 6 H.-P. gasoline engine. Have tried it in all kinds of corn—wet, dry and green, field and factory corn, any of which it handled with no trouble whatever.

Was especially pleased with the way it worked, as all the wise heads thought me foolish to ever think of trying to fill my silo with a 6 H.-P. engine.

When finishing up I took the hood off the top of the pipe to see how high it would send it, and I guess some of the corn is going yet.  
Guy Risk.

## THE "GOES LIKE SIXTY" POWER SPRAYER

Just the outfit you have been looking for. A light-weight, high-pressure, direct-gear, two-cylinder power sprayer that has made good. The same high quality and standard of service as all Gilson Goods.

"MADE IN CANADA"

Is it three hours to town in a buckboard— or thirty minutes in a sturdy Ford?

More than seventeen thousand Canadian farmers drive Fords because they make the necessary trips to town during the busy season in the shortest possible time—at the smallest possible expense—and they don't eat when they aren't working.

Ford Touring Car \$590 Ford Runabout \$540 Ford Coupelet \$850 Ford Sedan \$1150 Ford Town Car \$840 (All cars sold fully equipped f. o. b. Ford, Ont.)

Buyers of these practical cars will share in profits. If we sell 80,000 new Ford cars between August 1, 1914 and August 1, 1915. Write for catalog E.
