

It's awfully nice to dress in a warm room on a cold winter morning. It is the luxury that comes of having a King Boiler and King Radiators to furnish your hot-water heating. You can have your bed-room windows open all night with the air below zero, then step into the next room in the morning to dress and you will find it as warm as toast. "Steady and strong"—that is the style of heating the King Boiler and King Radiators do. The "fire-travel" is so constructed as to give the full heat of the fuel to the circulating water, and no heat gets away without paying toll to the water-way. This *saves fuel and saves money*. The King Hot Water Boiler has no fear of competition in the matter of *quality, heating power, or fuel economy*. Besides, the *ease of operation* makes a King Boiler transcendently superior. You can shake the ashes from either side, *standing up*; You can use an ash pan full size of pit; You can regulate the drafts accurately on account of tight fitting doors and joints. Flues are easily cleaned, ample combustion space allows complete burning of gases instead of their going free up the chimney. Simple to erect and economical to instal. We have a King
