## Beaver Portland Cement

THE RATHBUN COMPANY, 310-312 Front St. W., Toronto, Ont.  
Sales Agents for THE CANADIAN PORTLAND CEMENT COMPANY, Limited:

EXETER, HURON COUNTY, Nov. 27, 1901.

DEAR SIR,—I am pleased to let you know that the cement-concrete silo built for me last fall by Mr. A. E. Hodgert has proved all that he promised. It is eleven feet in diameter and thirty feet high. It cost me one hundred dollars (\$100.00), with a little time on our part thrown in. It was built with your BEAVER BRAND PORTLAND CEMENT, of which I cannot speak too highly. My opinion is that the round concrete silo, built with a high-grade PORTLAND CEMENT, is the only satisfactory one to build. Yours truly,

ADOLPHUS HOOPER.

## PAYS BETTER THAN A SAVINGS BANK.

Owing to its many money saving and money earning qualities, there is no better investment that a Dairyman can make than a U. S. Cream Separator. 8 or 9 cows and a U. S. Separator are equal to 10 or 11 cows without one, to say nothing about the cost of feeding and labor saved. Dairyman who are getting along without a separator, thereby hoping to save the expense of buying one, are making a grave mistake, as they are sure to find out sooner or later. Many have wished they had bought sooner, so will many others when they know the superior qualities of the U. S.

If any Dairyman was sure he would save enough the first year to pay for his separator, wouldn't he buy? Well that is just what hundreds and thousands of purchasers of the U. S. Separator have done, and some have made enough in six months.

If you keep cows, write the VERMONT FARM MACHINE CO., BELLINGS FALLS, VT., for their Booklet "How to Make Money," which tell of a few of the many profitable experiences of users of

### GOSSIP.

The preliminary classification for the third International Live Stock Exposition, to be held at Chicago, Nov. 29th to Dec. 6th, is now ready for mailing upon application to W. E. Skinner, Union Stock Yard, Chicago. There have only been two important changes in the rules—the most important, the computation of age dates. This rule

this year reads: "For junior cattle in the breeding division the ages will be computed from January 1st, and seniors from September 1st. For cattle in the fat division, September 1st; and for the fat division, September 1st." Throughout the entire breeding division of the show some of the classes have been taken out and the number of premiums reduced, and the money derived from that source added to the fat
