

THE NEW QUICK WAY TO CURE RUPTURE

Is Without Operation, No Pain, No Danger, No Loss of time From Daily Work.

This Remarkable Simple NEW WAY TO CURE RUPTURE has opened up a new era in the treating of this terrible dangerous, dreaded, hitherto considered incurable malady, Rupture. You ruptured people who have borne the painful agonies of Rupture surely will be glad to see this notice, for it means a NEW lease of life for you—one free from pain and suffering. Won't it be grand to be cured? You can be sure—hundreds of Canadians have been. Cut out this notice. Mark on the diagram position of Rupture. Answer questions and send all to me at once. I will send you Free A FREE TEST to show you how quickly you can be cured right in your own home. I'll also send you a valuable Book of Information for the Ruptured. You must write for these at once. Remember they are FREE. No ruptured person who has had these would part with them for money. You wouldn't either. Write at once.

DR. W. S. RICE, 2 1/2 East Queen St., Block 279 Toronto, Ont.

When Writing Please Mention this Paper

COSSIP.

Young Doctor—I wonder why old Mr. Bionex never came back to me. He complained of shortness of breath. Old Doctor—What did you say to him? Young Doctor—I simply said to him: "I'll soon stop that."

A travelling salesman in the employ of a large bicycle manufacturer in Philadelphia was obliged to go on a business trip into the west about the time an interesting domestic event was expected. The salesman desired his sister to wire him results, according to a formula something like this: "If a boy, 'Man's safety arrived'; if a girl, 'Lady's safety arrived.'" To the astonishment and chagrin of the father-elect he had been gone but a few days when he received a telegram containing but one word: "tandem."

A Peeblesshire worthy was about to get married. The bride-elect resided at a village some distance from where William lived, and the marriage was to take place at her home. The eventful day having arrived, the prospective bridegroom started for the station. On the way, however, he was hailed by the village grocer, who entertained him so heartily, that, as a result, William missed his train. The grocer suggested sending a telegram, and at William's dictation wired as follows: "Dinna marry till I come.—William."

The wise doctor takes his patient's pedigree first. It saves embarrassments, such as, for instance, that of the physician who said: "Ah, I see," after examining his tongue and feeling his pulse, "Sallow complexion—imperfect circulation—sedentary occupation—want of outdoor exercise. You ought to be in the open air as much as possible. By the way, what might be the nature of your occupation?" He was a trifle staggered to learn that his patient was a gardener. Another doctor was waited upon by a man who confessed to playing in a local brass band. Shortness of breath was the trouble in his case. "Ah, that accounts for it," said the medical man. "That brass band is the very worst thing for you. You'll have to give it up at once. What instrument do you play?" "The big drum," came the unexpected answer.

During the period from May 5th to May 10th, 1906, records for 74 Holstein-Friesian cows have been accepted by the American Association. All made seven-day, seven made fourteen-day, one made a twenty-one-day and nine made thirty-day records. This herd of 74 animals, of which much more than one-half were two and three-year-old heifers, produced in seven consecutive days 28,914.4 lbs. milk, containing 990.187 lbs. butter-fat; thus showing an average of 3.42 per cent. fat. The average yield for each animal was 390.7 lbs. milk, containing 13.381 lbs. butter-fat; equivalent to 27 quarts of milk per day, and over 15.6 lbs. of best butter per week.

Interest in this issue of the Official Reports will largely center on the great butter-fat record made by Aaggie Topsy De Kol, and the enormous amount of milk given by De Kol Creamelle. Aaggie Topsy De Kol produced 23,659 lbs. of butter-fat from 569.7 lbs. milk. This amount of butter-fat would make very nearly 28 lbs. of the finest creamery butter for the week, or almost four pounds of butter per day.

The class of heifers with first calf shows four specially-fine records: Diana Artis De Kol, 14,184 lbs. fat from 424.9 lbs. milk; Pontiac Yankee, 13,593 lbs. fat from 392.4 lbs. milk; Zora Tet, 12,628 lbs. fat from 382.8 lbs. milk; and Tidy Pauline De Kol 2nd, 12,341 lbs. fat from 387.4 lbs. milk.

In the list, we find the following, owned by Canadian breeders:

Rosbind Hacker 67774, age 4 years 5 months 8 days; days from calving, 16; Milk, 131.7 lbs.; per cent. fat, 3.35; fat, 14,566 lbs. Owner, Geo. Rice, Tillsonburg, Ont.

Diotime 2nd's Pauline 63904, age 3 years 4 months 12 days; days from calving, 29; Milk, 397.1 lbs.; per cent. fat, 2.93; fat, 11,616 lbs. Owner, H. Rollert, Cassel, Ont.

Tidy Pauline De Kol 2nd 83916, age 2 years 3 months 7 days; days from calving, 30; Milk, 387.4 lbs.; per cent. fat, 3.19; fat, 12,341 lbs. Owner, H. Rollert.

Burdock BLOOD BITTERS.
