Build Concrete Silos

Any size with the London Adjustable Silo Curbs. Wood Silos soon rot and fall down. Steel Silos have a very short life, as the acid from the corn eats the steel, and they soon rust out. There is always a large amount of waste ensilage around the edge caused by freezing. A CONCRETE SILO once built will last for ages. Costs less to build than steel silos, and there is absolutely no waste of corn. Thousands of farmers testify to the merit of concrete silos. Send for Catalogue. We manufacture a complete line of Concrete Machinery. Tell us your requirements.

For Effective Spraying

Get the best Spray Chemicals---Beat the bugs to the foliage---Be thorough. The best spray to use against Codling Moths, Potato Bugs and all leaf-eating insects is

"VANCO" Lead Arsenate

It does not settle in the spray tank as does Paris Green. It sticks well, and will often stand one or two rains, saving the time and expense of another spraying.

"VANCO" Lead Arsenate never burns the foliage, as Paris Green or improperly prepared Lead Arsenate is liable to do.

Because "VANCO" Lead Arsenate is easily seen on the foliage, spraying can be done much more thoroughly when it is used.

10c. to 13c. per lb. according to quantity. Write for our Booklet on spraying.

"VANCO" Spray Chemicals are High in Quality and Lowest in Price. Made in Canada, by practical men, and offered on their record.
