

Lump Jaw

The first remedy to cure Lump Jaw was

Fleming's Lump Jaw Cure

and it remains today the standard treatment, with years of success back of it. Known to be a cure and guaranteed to cure. Don't experiment with substitutes or imitations. Use it, no matter how old or bad the case or what else you may have tried—your money back if Fleming's Lump Jaw Cure ever fails. Our fair plan of selling, together with exhaustive information on Lump Jaw and its treatment, is given in Fleming's Vest-Pocket Veterinary Adviser.

Most complete veterinary book ever printed to be given away. Durable bound, indexed and illustrated. Write us for a free copy.

THE PARTING.

A gentleman owning a cotton estate had a characteristic old "mammy" who never could be found without her pipe. One day her employer asked her if she expected to go to heaven.

"Deed I does—deed I does," she answered.

"But, mammy, you know you smoke a great deal, and the angels surely will not like that."

"No? Still they will smell tobacco on your breath."

"Deed dey won't, sah. I reckon I done leave m' bref here."

GOSSIP. CLYDESDALES AND PERCHERONS AT AUCTION.

The annual auction sale of Clydesdales established four years ago at the Union Stock-yards, Toronto, has become greater and better every year, and this year promises to eclipse any sale so far. The entries are coming in fast, and the quality and breeding is of the best.

THE HEAVY-HORSE QUESTION.

The auctions of Clydesdales and Percherons to take place on February 27th and 28th, 1912, at the Union Stock-yards, Toronto, are attracting a lot of attention among the farmers and breeders of these classes. The management of the Stock-yards report more and better entries than ever. Attention is called to the advertisement in another column.

MAPLE BANK SHORTHORNS AND CLYDES.

About one mile north and overlooking the pretty and prosperous town of Strathroy, lies Maple Bank Stock Farm, the property of A. B. & T. W. Douglas, breeders of Shorthorn cattle and Clydesdale horses, where we find about sixty head of Shorthorns comfortably stabled. The present head of the herd is His Grace (imp.) =69740=, a massive, thick, roan bull, of good quality, showing true Shorthorn character, now in his fifth year. He was bred by David Anderson, Aberdeenshire, Scotland, got by Sittytown Royal, a Duthie-bred bull, and the highest-priced bull of that year at the Marr-Duthie sale. He has been used in the herd for the last three years with good success, as the large number of good things in the herd at present indicate.

A few of the older cows are sired by Diamond Jubilee (imp.) =28861=, bred by Marr, of Cairnbrogie, Scotland, and used with good success in this herd for a few years. There are a few by Double Gold =37852=, bred by H. Cargill & Son, by their well-known Golden Drop Victor (imp.) =32065=, dam Golden Strawberry (imp.), while the younger cows and part of the heifers are sired by Diamond =44695=, a Miss Ramsden-bred bull, and a first-prize winner at Toronto. Special mention might be made of the produce of that grand old cow, Gracefull 8th (imp.) =43576=, several of whose daughters and granddaughters have prominent places in the herd. One of the best of the half-score of young bulls is Meadow Champion, a roan, 16 months old, a big, sappy fellow, with lots of natural flesh of the right quality. He has done well since the Western Fair, where he was placed next to the money-winners, and ahead of some Toronto winners in the strongest class ever exhibited in London. Of similar type, and almost his equal, is Autumn King, another roan of the same age, and a grandson of Gracefull 8th (imp.). Three others, and all good ones, are also grandsons of this same cow. Another very promising, mossy-coated roan, claims Welcome Honor (imp.) as second dam.

The Clydesdales, although not large in numbers, are of the right sort. There are two good brood mares, Ursula (imp.), a six-year-old, not large, but of the right quality, has raised three good foals, and looks safe in foal again. Her mate, Audrey, four years old, from imported sire and dam, somewhat larger, but of the same sort, also raised a foal last year, and is in foal again, and we might mention that these mares do a large amount of the work on the farm. Prince Marshall 10948, the stallion, rising four years old, is in fine shape, is dapple brown, a very thick, wide horse, of fair size and good quality, and a capital mover. He has Prince Otto (imp.) 6910 for sire, and Miss Calder (imp.) 11612 for dam. Royal Ascot 10288, rising three years old, is a bay, with nice markings, a big, flashy colt, in modern condition. He looks like making a ton horse, and has legs and feet good enough to carry it. His sire is Royal Viscount (imp.) 3593, and his dam Ursula (imp.) 11611. See their advertisement, and write them for what you want. Anything on the farm is for sale, and will be priced right.

Operate Your Dairy For Top Prices

OPERATE your dairy for top prices—and at the same time operate it as economically as possible. Top prices and low expenses mean greatest profits. One way to economize is to buy a separator that is built to give the greatest value for the money you invest in it; that is, one that will skim the closest and last the longest. That is why we want you to examine an I H C Cream Harvester before you buy any separator. An examination will convince you that

I H C Cream Harvesters Bluebell and Dairymaid

are superior in design, material, and workmanship. Investigate for yourself. You will find that I H C Cream Harvesters are the only separators with milk and dust-proof gears that are easily accessible; that they are equipped with a patented dirt-arrester which removes the finest particles of dirt from the milk before it is separated; that the frame of an I H C is entirely protected from wear by phosphor bronze bushings; that the I H C has large shafts, bushings, and bearings. They have many other features that mean less work for you and longer life for the separator. I H C Cream Harvesters are made in two styles—Dairymaid, chain drive, and Bluebell, gear drive—each in four sizes. Let the I H C local dealer tell you all the facts, or, if you prefer, write nearest branch house for catalogues and any special information you desire.

I H C SERVICE BUREAU

The purpose of this Bureau is to furnish farmers with information on better farming. If you have any worthy question concerning soils, crops, pests, fertilizers, stock, etc., write to the I H C Service Bureau and learn what our experts and others have found out concerning these subjects.
