LONDON & LANCASHIRE FIRE INSURANCE COMPANY
Security, \$33,261,200

Are You a Good Insurance Risk?

THIS most important question stares every one of us in the face, whether our lives are insured or only half-insured, and especially if not insured at all. In these enlightened days every responsible person, all heads of families, intend to carry adequate life insurance protection, but keep putting it off from year to year. "Safety First" suggests—*do it now.*

The oldest, and one of the four largest Life Insurance Companies in America rejected 11,072 men and women for insurance last year, because they were no longer insurable. This means that one out of every seven applications to this giant Company was not an acceptable risk. You may be insurable *now* and uninsurable six months or a year hence.

Better find out before it is too late if you are still healthy and sound; if so, get under the shelter of a Continental Life Thrift Policy. Get insurance while you can, for thousands want it to-day but are unable to get it. Don't delay, but

See your nearest Agent of the Company, or write to either of the undersigned at Head Office for full particulars, stating your age at nearest birthday.
