EDITORIAL NOTES.

Several valuable cows that were entered in competition for the dairy tests at the Industrial fair, died on the day of trial. It is the practice to milk all the cows clean the night previous to the testing day in the presence of an inspector and it is believed that after the milking an attempt had been made to inject milk into the udders. If fresh milk had been used no harm might have resulted, but it is thought that in some way deteriorated milk had been used and septic poisoning ensued. It is that was the cause of death the owners will not get much sympathy.

The large steel vessel Douglas Houghton met with a serious accident off Sailors Encampment 15 miles below the "Soo" on the 5th inst. A hole was stove in her side and she lay across the channel blocking the traffic for all large vessels. The channel there is 750 ft. in width and the Douglas Houghton is 476 feet long so none but vessels of light draft could pass her. It is estimated by shipmen that the delay to shipping will cause a loss of about a quarter of a million dollars per day, and the channel will be blocked at least seven days. The greater part of the Lake Superior shipping is waiting for the blockade to be raised. This will delay the shipping of Northwest grain this fall and much of it will have to lay over or come by car.

The Dreyfus trial came to an end last Saturday and the Judges brought in a verdict of guilty, five being in favor of the verdict and two against. He was found guilty of having in 1894 provoked machinations or cultivated relationships with a foreign power, or one of its agents, to induce it to commit hostilities or to undertake a war against France, or to furnish it with means thereto, by delivering to it the notes and documents included in the bordereau. The trial lasted four weeks and was a very trying time for the prisoner. Much of the evidence given against the prisoner in 1894 is now discredited, part of it having been proved to be forged. The Anti-Dreyfusards took the position that they knew Dreyfus was guilty of treachery, but legal evidence was wanting and the bordereau was concocted in order to prove the charge. An attempt was made to prove that Dreyfus had made a confession of his guilt to Captain Lebrun-Renan but it was not confirmed. The prisoner protested his innocence, but the sentence of the court is ten years imprisonment. It is probable that the five years the prisoner passed on Devil's Island will be credited as part of the sentence.

The Manitoba wheat crop is now safe and farmers there are happy. Wheat is being shipped freely and nearly all is grading No. 1. hard. The price is low and many farmers are inclined to hold for higher prices. The wheat is threshing well and will be fully up to the estimate. The grain crop in the township of Carrick is about all harvested and the spring crop is the most abundant we have had for many years. Peas are threshing out well, and we hear of 25 to 45 bushels per acre, and sample good. Barley is an excellent crop and threshes well, sample plump and bright. Oats are heavy and it is expected will thresh from 40 to 60 bushels per acre. The root crop, since the late rains, looks well and promises an abundant crop. Although the fall wheat is light, the spring crops will bring up the farmer receipts for grain to a good average and the high prices for cattle and their products are very encouraging. Farmers should be in good trim for heartily observing our annual thanksgiving day this year. The twentieth century million dollar schemes of the Methodist and Presbyterian churches will afford many of our farmers a reasonable opportunity to express their gratitude to Him who gives the fruitful seasons, filling our hearts with food and gladness.

THE MODERN LAUNDRY.

GREAT ADVANTAGE AND CONVENIENCE OF THE INSTITUTION.

Prompt, Clean and Stylish Work Which Gentlemen Appreciate.

The demand for prompt work, thoroughly done and stylish in effect, created the modern steam laundry. It is absolutely impossible to launder shirts, collars and cuffs at home in a manner to satisfy the tastes of well-dressed gentlemen. The adapting of machinery and the economy of labor has caused this to be effected. Our well-dressed young men can now have their laundry work done to suit them, and done promptly on time, at less expense all around than if done at home, not to speak of the worry and irritation which are saved.

The Parisian Steam Laundry of Ontario, Limited, Toronto, Hamilton, and London, offers this very necessary finishing, to all who would appear well dressed. By leaving their orders at the agency in this town, our young men can be certain of having them executed in quick time and in the very best manner. The far-famed "Parisian" is an old-established laundry, and it has the most complete machinery in America. It is conducted by people who have made the business a life-study, and who seize upon every new improvement and turn it to the benefit of their customers. This the abundant capital of the concern always enables it to do. Shirts, collars, and cuffs from the Parisian Laundry retain their shape and cleanliness twice as long as when laundered in inferior places.

The "Parisian" guarantees the best work to be had anywhere in the world, and at prices which defy competition. There is no reason why this should not be so, when we consider the extensive facilities and long experience it has enlisted in the business. We do not deem it necessary to advise the young men and older men of our town who wish always to appear well-dressed to "get the best" in laundry work when the best costs no more than what is far inferior. So that it will not be required to urge them to send their work to the Parisian Laundry. The foregoing facts are enough to convince all interested that it is their best policy to do so.

WEAK AND... PUNY CHILDREN

Become Strong and Healthy by using Dr. A. W. Chase's Nerve Food.

Children are frequently left weak and sickly as an after result of measles, scarlet fever, etc., and in this state are easy prey to nervous disorders, rickets, spinal disease, or consumption, diseases which do not affect robust, healthy children.

The blood is weak and watery and the nerves improperly nourished. Feed the blood and nerves with Dr. A. W. Chase's Nerve Food, and the pale, pinched faces will soon become rosy and plump, and tiredness and weakness will give way to strength and animation.

Mr. E. W. Day, 62 Close Avenue, Toronto, writes: "My eldest daughter, aged eight, became very much run down. Her fretful, nervous, sleepless condition greatly alarmed her parents. She was taken from school, and in spite of the best nursing, the thin, weakened, bloodless face grew painfully worse. Fortunately we used Dr. Chase's Nerve Food. An improvement became apparent in a few days, it continued, and in a few weeks she returned to school built up anew, and greatly to our joy fully restored to health."

RAILROAD... KIDNEY

A Disease Peculiar to Railroad Men, which is readily Cured by

Dr. Chase's Kidney-Liver Pills.

Did it ever occur to you that most railroad men die of kidney disease?

Such is the fact, however, and the disease is known among railroaders as "railroad kidney."

The first and most marked symptom is a weak, lame and aching back. You may think at first that you are only tired; but as this trouble increases day by day, kidney disease, with all its terrors, is fast claiming you as a victim.

Mr. Geo. Cummings, for over 20 years engineer on the Grand Trunk running between Toronto and Allandale, says: "The constant duty with my work gave me excessive pains in my back, racking my kidneys. I tried several remedies until I was recommended by my fireman, Mr. Dave Conley, to try Dr. Chase's Kidney-Liver Pills. Two boxes have completely cured me and I feel to-day a better man than ever. I recommend them to all my friends."
