the other day, in which he made some queer assertions regarding the Le Roi transactions.

"Well, all this goes to show that the B. A. C. future depends much upon the Le Roi. Governor Mackintosh sees this and he believed the corporation had the opportunity of its life when it was offered the shares at \$8.12½ last week. But the London crowd became dissatisfied for some reason not made plain at this end, and the word came back that the option would not be taken up and that all deals would be declared off until Whitaker Wright arrives in Spokane about No-vember 10. That kind of monkeying was calculated to make us happy, and so when other London people wanted an option on the stock it was freely given at \$8.50 per share."

"Who has the option ?" "I'll not tell you that. Suffice it to say that it is no friend of the Wright interests. As I under-18 no friend of the wright interests. As funder-stand the scheme the purchasers will take the stock for the purpose of bearing the London market. The B. A. C. stock depends upon the Le Roi. Let Le Roi go off a few points and B. A. Mayor Wallace in proposing the health of Mr. Mr. Stikeman in replying expressed his grati-tude and his astonishment at the magnificent

reception tendered him in the city of Rossland; it was a reception he little expected. After re-ferring to his visit to this city some two years ago, he stated that what struck him most was the marvelous development which had taken place in that time. Rossland struck him as a peculiarly delightful place to live in, and he was sure that all men interested in the place, must be proud of the city of Rossland and the district of which it was the center. In his judgment Rossland was the center of the most important mining district in Canada, and he felt sure that the city and the district had a great and permanent future before it.
