Exercises at the Ursuline Aca. demy of the Pines.

Very Fine Program-Bishop Mc. Evay's A dress-The Visiting Clergy.

At the Pines yesterday afternoon the ommencement exercises of the Ursuline Academy took place. The mother superior and her assistants have good reason to be proud both of their scholars and of the able manner in which they acquitted themselves manner in which they acquitted themselves in the arts of literature and music proving the soundness of the training they had received. They would have been still more gratified could they but have heard the enconiums passed on the work of their pupls by everyone who attended the exercises. The large auditorium of the convent was a revelation to all in the beauty and taste of the convent was a revelation to all in the beauty and taste of the convent was a revelation to all in the beauty and taste of the convent was a revelation to all in the beauty and taste of the convention. reveiation to all in the beauty and taste of its decoration. The large stage was occupied by five pianos, while the hall was almost buried in garlands of flowers and leaves In honor of the Empire Union Jacks were scattered amid the embellishments with regardless profusion. ments with regardless profusion Roses, palms and leaves were everywhere and the whole brilliant scene of beauty was further enhanced by the comely faces and white atenhanced by the comely faces and white attire of the young ladies of the graduating class and the other pupils of the convent.

Promptly at four o'clock the exercises began and each number entranced the audience with its brilliancy of its execution and

the skill with which it was rendered The graduating class were:
Academic course—Mae McEvoy, Nellie
Faucher, Pauline Brown, Ma Finn, Gertrude

Keily, Lucy Schorp. French course—Delphine Aubin

Instrumental music-Ruby M. V. Maren-These young ladies were all crowned with arel in token of their true diligence in school and they were also presented with lipiomas and gold medals. They received hese marks of honor at the hands of Rt. Rev. Fergus McEvay, D. D., Bishop of onden, who grac ously presented each can idate as she approached and courtesied

with her diploma-Just before the final chorus a second preentation of medals was made for applica on, progress, needlework, etc THE BISHOP'S ADDRESS.

The Bishop took this opportunity of briefly addressing the graduating class and pupils. He said that the pu-pils should be proud of their ability to present such a beautiful entertainment. They would agree with him when he said that they should feel am-ply repaid for all sacrifices made in the pursuit of education. He was glad to be present and congratulated the pupils, both those who had received medals and those who had not. Not megais and those who had not. Not only was a practical education good for the needs of the world but they had also the advantage of an education such as would enable them to tion such as would enable them to reach a higher world and obtain eternal happiness. It was one thing to preach but quite another thing to practice. The pupils had not only the precepts but also the example. They had been taught the value of modesty, chastity, patience, resignation to god's will, sacrifices, gentleness and humility. The Bishop closed with an earnest exhortation to all not to forget these lessons learned and to beautify whatever homes they might find

fy whatever homes they might find y the free use of the talents which their work had so amply demonstrated that they possessed. THE PROGRAM. Every number throughout the en-ire program was so well rendered that t would be unfair to mention one in it would be unfair to mention one in preference to another. The program can alone be given in its entirety and the one word "excellent" used in ref-erence to every number on it:

A SAMPLE OF WHAT SATISFAC-TION A GAS RANGE GIVES. P. S. Coate, Esq.

Mgr. Chatham Gas Co. Dear Sir .-

Having used a gas range for the past two years, I am in a posi-tion to state that for economy, speed either one, or the whole of the above and cleanliness, it exceeds all other means of cooking. Anyone desiring very essential features of housekeep-ing, should not hesitate in the use of one without delay.

ed of a very delightful character. The Benheim bowling club held a most interesting local tournament at the rinks last evening, when many capital contests were witnessed. Bienheim possesses one of the best clubs in this district and the work of many of the players testifies to natural skil and arduous practice.

A wealthy and highly esteemed resident of Harwich was on Monday seized with a fit of violent temporary insanand it was found 'necessary to bring him into Blenheim under custody.

John J. VonGunten, Blenheim's enterprising watchmaker, is now fully convinced of the material resurrection convinced of the material resurrection of representatives of the feline persuasion. On Monday morning his cat gave birth to a bevy of kittens. Mr. VonGunten had no intention of conducting a menagerie on a diminutive scale and therefore decided to get rid of the recent arrivals. He accordingly threw them in a bucket of water, and left them for a half-hour, after which the bodies were buried in a sawdust heap. All this occurred on sawdust heap. All this occurred on Monday, and yesterday afternoon the mother cat, who had traced her young ones to their interment, succeeded in digging out four dead bodies and one little furred bundle of feline anatomy which was unmistakably alive. The grounds and supper only 15c. kitten will now live as far as Mr. Von-Band in attendance.

Gunten is concerned. Yesterday morning a nasty accident occurred in this town. A lineman

named Laplante, whose home is in Peterboro', was up some 30 feet on a telegraph pole, adjusting the wires, when the pole, which had rotted away, broke and fell. The unfortunate man heard the crack and jumped from his perilous position. He alighted on his feet, tore all the seams in his boots and broke the bones of his feet. He suffered great pain and was taken to London yesterday afternoon. His escape from death, however, was miraculous.

Gas Rarges are being installed in all parts of the city. People realize that gas is the cheapest and most convenient fuel.
