

**Rice** as an article of food is not used frequently enough. It is one of the most easily digested foods known, as well as one of the most economical.

The trouble is partly in the quality of Rice usually sold. The very cheap Rice certainly has not much flavor, but the better grades are most delicious.

## STRIKES THE SOURCE.

A Pile Cure That Goes to the Root of the Disease.

There are lots of lotions, oils and salves that will, through their influence, relieve temporarily the pain incident to piles. But is that all the sufferer requires? Isn't it a horrible thought to realize that the cure is only temporary and the disease goes on under the surface without a moment's interruption? Wouldn't it be wiser to select a remedy that seeks the source and regulates these deep seated disorders which induces the disease? Pyramid Pile Cure not only relieves the pain at once, but effects a permanent cure of the worst form of piles. You don't have to go through a tedious course of dieting while using it either. It strikes through those delicate membranes and tissues and sets the blood in healthy circulation, reducing at once the painful inflammation and congested tumors.

This remedy is not a haphazard combination of drugs, but is a remedy invented by specialists in the treatment of piles and blood disorders successfully for years. Manufactured by the Pyramid Drug Co. at Marshall, Mich. Almost any first-class druggist has it on sale.

Don't treat this disease with every lotion and salve that comes along. Remember the parts affected are among the most delicate in the human body. This remedy is absolutely safe and no one need fear to apply it freely on the most inflamed parts. The speed with which it allays the pain is an agreeable surprise to the sufferer.

**Dunlop Tires**

FOR 1901

When you buy a bicycle don't

neglect the most important detail in

the specifications—Dunlop Tires.

Short-sighted manufacturers

may try to "ring in" cheap tires as

substitutes for "Dunlop's"—the tire

that every buyer asks for.

The Dunlop Tire has the thickened tread—more

rubber on the wear surface—more resiliency—more value

for the same money.

Dunlop Tires are simple—and ingenious application

of the natural law of expansion forms the basis of their

construction.

Endless wires that do not stretch ensure rigidity of

adherence to the rim. Without these wire protectors a few

months' wear would render the outer cover liable to a

"blow off."

Bicycle dealers know the value of the Dunlop Tire.

Twelve month guarantee.

Church Notes.

International Bible Lesson for Tomorrow—Jesus and Peter—John 21, 15-22.

By the same sea shore where He

called them to follow Him (three

years before, He now calls them

again. They followed Him then, ex-

pecting an earthly kingdom; now

they are to follow in affliction and

service to a heavenly one. A mirac-

ulous draught of fish precedes both

calls, but they are to be fishers of

men. Mark our Lord's tenderness to-

wards Peter in restoring him thus

publicly; He replaces Peter to play

the leading part at Pentecost. Our

Lord's question to Peter, "Lovest

thou Me?" is the vital question of ev-

ery life. Love to Christ is Christi-

anity. On our answer, not in lip, but

in heart and life depends the answer

of a good conscience toward God by

the resurrection of Jesus Christ from

the dead. Do I love Him?

Rev. Mr. Brown, of Blenheim, will

preach in the William St. Baptist

Church on both occasions tomorrow.

Dr. Battistich will preach in St. An-
