SUFFERED TORTURE FOR FOUR YEARS

Then Dodd's Kidney Pills Cured Wm. Doeg's Rheumatism.

He Was So Bad That He Could Not Lie Down, But Had To Sit Night And Day in a Chair.

Sundridge, Ont., Aug. 21.—(Special)—Mr. William Doeg, of this place, now a hale hearty man, tells of his almost miraculous cure of Rheumatism by using Dodd's Kidney Pills.

"For four years I suffered excruciating torture," says Mr. Doeg. "I was scarcely an hour free from pain. I could not lie down to take rest, but had to sit night and day in a chair."

"I was treated for Rheumatism by several doctors, and also tried several medicines without receiving any benefit. Almost in despair I feared I never again would be from pain. Then I read of some remarkable cures by Dodd's Kidney Pills. I procured a box and soon found they were doing me good and before I had finished the second box I was entirely free from pain and a new man."

Dodd's Kidney Pills always cure Rheumatism by putting the Kidneys in shape to take the cause—Uric Acid—out of the blood.

Death by Lottery.

Among other complications of Chinese law and its execution is a unique and rather racy method of dealing with prisoners by lottery. Once a year the vermillion pencil of imperial authority is waved over a chart on which the names of convicted criminals are written, and those which it includes in the hapazard sweep are executed forthwith. The rest are either reprieved altogether or their executions are postponed for another year.

Something Wrong.

"Dear Pop," wrote the boy from the art school "don't send me any more money. I have saved half that which you sent me last month." "Come now," wired the old man: "you'll never make an artist."

Polo Is Ancient.

Polo was played from the backs of horses in Persia during the tenth and eleventh centuries. At that time the Persians in a great contest, Iran versus Turan, found their match in the Turks, greatly to the disgust of King Afrasiab. The Byzantine poet Nizami sung of polo in the twelfth century. Then polo spread from Persia into central Asia, India and Tibet in the sixteenth century, when the great Emperor Akbar patronized it. In Japan the game is at least 1,000 years old and is still popular under the name of da-kin, or "ball match."

REDUCED A HARD SWELLING.

Mr. Gus E. Geroux, writing from Pembroke, tells how he was injured in a lumber camp. "A heavy log rolled against my leg and I was laid up with stiffness and a hard swelling. When I applied Nelson's Nerve-Liniment I got relief. A few rubbings with this good liniment cured me." In the bush Nerve-Liniment is indispensable: it cures neuralgia, colds, rheumatism and internal disorders too. No person can afford to be without Nerve-Liniment. Useful for all internal and external pains. Large bottles 25c at all dealers.

Turn About.

An Irish doctor was asked to attend a patient on Tory Island, off the Irish mainland. The doctor said that he was willing to go, but that the fee would be \$2 (\$10), payable in advance. The Tory islander paid the money and ferried the doctor over from the mainland himself. The physician finished his duties and wished to start back. The only way to get back was to be rowed back by the same man who had carried him over. The doctor asked what the charge was. "Two pounds," said the Tory island man, "payable in advance." It was paid.

HOW PNEUMONIA STARTS.

You catch a little cold to-day, by to-morrow it has reached the throat, next day the lungs are affected and you wish you had used Catarrhoxone, which kills colds in five minutes. In the first place Catarrhoxone soothes the irritated membranes and relieves congestion, then it cuts out the phlegm and destroys the germs. It enables the blood to retain a natural supply of oxygen, lung-food, and vitality. In any cough, bronchitis, or lung affection it's guaranteed to positively cure. Decline any substitute for "Catarrhoxone."

Don't go to the doctor when you need a thinking cap.

HARDLY HOPE FOR PEACE

Prevailing View Is That Peace Conference Fails.

Conference to Meet Again Tuesday, But It Is Thought It Will Only Be For the Envoys to Say Farewell—High Japanese and M. Witte Both Coincide—Only Hope Is From St. Petersburg or Tokio.

Petersburg, N. E., Aug. 19.—(Black press)—The prevailing view is that the peace conference has ended in failure and that all that now remains is for the plenipotentiaries to meet on Tuesday, to which day they adjourned yesterday afternoon, upon completing the serious consideration of the Japanese terms, sign the final protocol, go through the conventions and bid each other farewell. In other words, that the meeting Tuesday will be what diplomacy calls the "business of the day."

But there is still room for hope of a compromise. Neither President Roosevelt nor the powers will see the chance of peace shipwrecked without a final effort, especially at Tokio, to induce Japan to moderate her terms in beyond question. At Tokio and St. Petersburg the final issue will be decided.

The Japanese have been implacable throughout the conference. They have listened and explained, but have yielded not an inch. The substance of their original demands.

Wait Final Word.

And now both sides turn to home for the last word before the events of the next Tuesday. For the Japanese reached yesterday by the plenipotentiaries is recognized to be only a diplomatic fiction. If in the interim fresh instructions are received by either side compromise is yet possible. But the chances are recognized to be slim, so far as the Russian plenipotentiaries are concerned, there never was a chance of their yielding both indemnity and Sakhalin.

Cesar's Answer.

The manifesto is Emperor Nicholas answer to the Japanese demand for the payment of a war tribute. The grant of this tribute is regarded as a virtually an appeal to the Russian people for support to resist it.

At Tokio it is impossible to tell what view will be taken. Peace probably can be even now secured by the sacrifice of indemnity.

Bay Farewell.

This authoritative statement last night was given to the Associated Press by a member of the Japanese mission: "I fear that the meeting on Tuesday will be the farewell session of the plenipotentiaries. Japan has done her utmost for peace. Russia now knows Japan's irreducible minimum."

M. Witte himself last night said: "We meet Tuesday only to sign the protocol," with the accent on the word "only."

Again the Axe Falls.

Toronto, Aug. 19.—The axe has fallen again, this time upon John Loughlin, ex-M. P. P. registrar for East Nipissing, who was appointed by the Ross Government. He has been asked to resign on account of active partisanship. The position will be changed somewhat, the duties to consist, however, only those of a registrar. The registrar was also a stipendiary magistrate. Charles Lamarche, ex-M. P. P. for East Nipissing, has been mentioned for the position, but says he will not accept it if offered him.

From the Valet.

A noted author has a smart valet, an Englishman of twenty-five years, who, while knowing his place thoroughly and discreetly remaining in it, enjoys the personal friendship of his master to a degree bordering on chumminess. Lately he fell in love, and his first present to the object of his affections was a copy of the author's most popular work, on the flyleaf of which he had written this inscription: "To my dear Miss Eleanor."

"Quick lunch"

is one of the commonest of city signs. The sign does not say "a healthy lunch of good food"—the character of the food apparently is not considered. It's just a quick lunch—eat and get away. Is it any wonder that the stomach breaks down? Food is thrown at it, sloppy, indigestible and innutritious food, very often, and the stomach has to do the best it can. Normally there should be no need for medical assistance to the stomach. But the average method of life is abnormal and while this continues there will always be a demand for Dr. Pierce's Golden Medical Discovery. It is the one medicine which can be relied on to cure diseases of the stomach and other organs of digestion and nutrition. It is not a cure-all. It is a medicine designed for the stomach, and to cure through the stomach remote diseases which have their cause in the derangement of the stomach and digestive and nutritive system. It cures when all else fails.

Cork Tree in Arizona.

O. E. Sowers, the mining man, has just come in from Pinal county, and has brought with him a sample of cork bark taken from a tree on the Irons ranch. It is perhaps the only cork tree in Arizona and one of the very few cork trees in the United States, but the thrifty condition of it proves that cork can be produced here. This tree was planted by Mr. Irons about nine years ago, is about twenty-five or thirty feet tall and is about nine inches in diameter. That is as tall as the average tree ever gets, but at a great age trees sometimes reach a diameter of five feet. It is understood that the plant was brought from somewhere in South America.—Arizona Republican.
