

DEAD BODIES IN THE FIELDS.

Abdul and His Harem Aime at His
Prison House.

Madir Pasha Hanged This Morning
on Galata Bridge.

Report That Mrs. Lamber to Has
Been Murdered.

Adana, April 28.—The conditions in the country surrounding Adana as a result of the recent fanatical attacks by Moslems upon the Christian population, are terrible. Dead bodies are lying out on the fields. Numberless Armenian farmhouses have been burned. Conditions are most unsanitary, and dysentery is beginning to make its appearance.

BODIES IN THE RIVER.
Merzina, Asiatic Turkey, April 27.—The river that empties into the sea here is carrying down a good many bodies of men, women and children. Several corpses are drifting in close proximity to the Italian warship in the harbor. They undoubtedly were thrown into the river in the country above the city. The men from the British warship in the harbor are doing splendid service.

PEOPLE FAMISHING.
Teheran, April 29.—The international relief committee of Tabriz has issued an urgent appeal for subscriptions on behalf of the famishing population of the city. The people of Tabriz during the siege of ten months have suffered indescribably.

HOW INDIA FEELS.
Calcutta, April 29.—The recent events in Turkey have caused a stir among the Moslems in India, whose organs to-day say that the deposition of Abdul Hamid was brought about by the resentment of an overwhelming majority of the Turks outside of Turkey. On the other hand, a number of telegrams of congratulation have been sent to the new Sultan.

ABDUL AT SALONIKI.
Saloniki, April 29.—The deposed Sultan of Turkey, Abdul Hamid, arrived here late last night from Constantinople. He was accompanied by two of his sons and a suite of seventeen persons, including women of his harem. The party was escorted quietly to the villa in the suburbs set aside for their use.

BAD MAN HANGED.
Constantinople, April 29.—Nadir Pasha, the second-in-command of the palace under the regime of Abdul Hamid, was hanged at dawn to-day on the Galata bridge, the great thoroughfare that connects Constantinople with the quarters of Galata and Pera. The body was allowed to swing until 8 o'clock in the morning, and thousands of people stopped to look at the great Nubian, whose name was a terror under Abdul Hamid. The dead man's face showed an undershot jaw and thick, heavy lips. In life he had been fully six feet four inches tall. Nadir was executed after a trial by court martial on the charge that he instigated the mutiny of the troops on April 13. He was reputed to be intensely ambitious, subtle minded and insensitive to the sufferings of others. He was one of the men who formed Abdul Hamid's private cabinet under the old regime. The other members of this cabinet were Ismet Pasha and Fehim Pasha. The former, the Sultan's secretary, is now in hiding in London, and the latter, who was head of the Sultan's spy system, was assassinated in Russia. Nadir Pasha came to the imperial throne.

TURNED OUT.
Father, Mother and Five Children
in the Cold.

Unable to pay their rent, without a scrap of food in the house, almost starving, and with but few clothes to keep out the cold, a family by the name of Vancouver, consisting of a mother, father and five small children, were turned out of their house at Crown Point last night and made to shift as best they could. The night was cold, and the destitute family walked from shed to shed looking for a place of shelter. The little ones in their thin wraps became blue with the cold. After spending half the night in the open air, refused admittance at several houses, the almost exhausted family applied at the Driving Park Hotel, and not in vain. The proprietor, George A. Truman, took compassion on their misery, and after sitting them in front of a roaring fire, got some food for them. He placed a couple of rooms at their disposal, and this morning took up a collection for them. Nearly \$14 was realized. He also secured a job for the father, who began work this morning. Mr. Truman telephoned Reeve Gage, and the county will likely look after the family until the father can do so.

RAN INTO SWITCH.
Rutland Express Smashed Locomotive and Box Car.

(Special Despatch to the Times.)
Montreal, Que., April 29.—A serious wreck occurred at 6.45 this morning on the Quebec, Montreal & Southern Railway, at Wherville Junction, 31 miles south of Montreal. The Rutland Express from New York to Montreal, fifteen minutes late, coming along at high speed, ran into an open short switch, smashing into the round house and three locomotives and a box car. The train was completely wrecked and the box car splintered into kindling wood. The man of the wrecked locomotive, badly broken, and another train badly scalded, and a third train badly scalded.

The Clebo Pater.
Clebo pipes have a cooling effect on the stem, and a clear bore into the bowl. They are made of briar and sell for \$1.00 a pipe store, 107 King street.

INQUEST NOT LIKELY TO PROCEED TO-NIGHT

LONDON BLIZZARD

(Special Despatch to the Times.)
London, Ont., April 29.—The worst blizzard of the season is raging. The snow is over a foot deep and is still falling heavily. The railroads and street car lines are completely tied up, as all the snow plows were put away weeks ago. Farmers who were busy seeding have to stop, and it is feared will lose much that was sown.

THE MAN IN OVERALLS

What will we all get to talk about when the Kinrade inquest is over?

Mr. Stewart made a speech in Parliament the other night, but he did not call the Premier a thief or say things had to be nailed down to prevent him from carrying them away. That kind of talk only goes up at the Twentieth Century Club.

The Suffragettes are great sufferers, no doubt.

In the meantime keep your eye on all strange dogs and fool with none.

As soon as John Patterson's road is finished Stanley Mills & Co. may run excursions from Guelph to show the Guelphites that they can do better in Hamilton than in Toronto.

As an old stove mender, can't Mr. Studholme, M. P. P., do nothing to get his old chums back to work?

What kind of a welcome is the new City Engineer to get? Will there be a conversation in the Council Chamber or will he just take off his coat and start into work?

Well, if the nurses' medals cost too much, why not give them honor cards?

There appear to be lots of sites suitable for the Public Library building; the trouble is to fix upon the most suitable one.

You better send your dog out to the country till the scare blows over.

There's nothing cheap about those James street railway tracks the street car company is laying down.

Now keep off the boulevards. It's a shame the way some people cut the corners, even when they are not in a hurry.

And I thought the power by-law was to be voted upon in April. What about the pumps? Are they still holding out?

What's the programme for Victoria Day? Before the programme is over the Greater Hamilton Association may have some kind of a demonstration just to advertise the movement.

Perhaps Dr. Roberts wouldn't mind taking a look at those alleyways. There should be some way of deodorizing the worst of them.

From the printed reports it looks as if the Armenians did some massacring themselves. Perhaps they had to.

Do you remember when Stewart was Mayor how the City Hall used to be in a continual turmoil? Now everybody is as quiet as a mouse.

This is not winter lingering in the lap of spring. It is summer that winter is fooling with.

Our Lady of the Snows must have gone on a tour.

FIRST SNOW.

A Little California Lad's Experience in Hamilton.

While the youths of Hamilton were bemoaning the return of winter this morning because it interfered with their ball games, there was one lad who was having the time of his life. That little chap was Alvin Eager, son of Mr. and Mrs. Frank O. Eager, who is here from his Californian home, with his mother, visiting her parents, Mr. and Mrs. Clark Yunker, Erie avenue. Alvin had never seen snow before. He insisted that his mother and grandmother should go out and build a snow house and snow bank and was fairly carried away with the sight. Alvin is six years old.

SAFETY DEPOSIT BOXES

\$2 a year and upwards, for deeds, bonds, stocks, and other valuables.

Wink of C' JADA.

Divisional Court Sustains Coroner Anderson and Rules That Florence Kinrade Must Appear For Examination on New Points.

If Other Means Fail Attorney General May Himself Issue Subpoena
---Warrant Not Likely to be Issued Until Point is Settled.

(Special Despatch to the Times.)
Toronto, April 29.—While the Divisional Court has upheld the rights of Coroner Anderson to issue a warrant for Florence Kinrade, there seems yet to be a technicality that may prevent the execution of the warrant. Immediately after the judgment of the court, Yynch-Stanton, counsel for Florence Kinrade, asked Mr. Justice Latchford, one of the judges, if the warrant was now executable. His Lordship said it was not, without the backing of local magistrates. Meanwhile the warrant has not been taken out of the court.

Detective Miller has had a conference with Mr. Blackstock, the Crown Prosecutor, and it seems uncertain what the authorities will do. At one o'clock to-day Detective Miller had not served the warrant. Judges, lawyers and officials seem to be all up in the air, regarding the meaning of the judgment.

(Special Despatch to the Times.)
Toronto, April 29.—Deputy Attorney General stated this afternoon that there would not likely be a session of the Kinrade inquest to-night, the reasons being the short time intervening and the uncertainty as to the proper procedure. In case it is finally decided not to proceed to-night the warrant for Miss Kinrade's arrest will not be executed to-day.

MONDAY NIGHT.
This afternoon it was decided that the inquest should stand adjourned until Monday night.

The Kinrade murder investigation, which was temporarily halted on Friday night last when Florence Kinrade, acting on the advice of counsel, refused to appear and to give evidence, was resumed this afternoon. The course which would probably have been pursued is one which has never been resorted to before in Ontario, but which is provided for, nevertheless, in the statutes. It was the issue of what is known as a Crown office subpoena. This is a declaration which can be issued only by the Attorney-General in person, no subordinate having any requisite authority to do so; one which states that in the Attorney-General's opinion the ends of justice will be served by the appearance of the person required, and such person's appearance is forthwith demanded. Failure to comply with the requirements is to be visited according to the statute with the "most severe penalties."

There can be little doubt that this subpoena would at once have been served on Miss Kinrade, and her attendance would have been compulsory without the possibility of further question.

MR. WASHINGTON NOTIFIED.
Mr. Washington did not receive word of the decision of the judges until nearly 1 o'clock, and he had just put the receiver of the telephone on the hook when a Times reporter stepped into his office.

"You can say that I have just been talking over long distance to Toronto, and have been informed that Mr. Stanton has lost on all points," said the representative of the Crown.

"Well, Mr. Washington, does that signify that the inquest will be continued this evening?" he was asked.

"That is a point that I cannot speak on with authority at the present moment, but I expect to receive a telephone message from Deputy Attorney-General Cartwright, some time this afternoon, giving me further instructions," answered Mr. Washington.

"Well, from present indications you are of the opinion that the inquest will go on, are you not?"

"There is no use of my predicting, as I might fall down, and I have no desire to pose as a prophet," said Mr. Washington.

As a result of the judgment, you have reason to believe, then, that Miss Kinrade will be brought to the city this afternoon, have you not?"

"Most likely."

GREAT INTEREST TAKEN.

The public were anxiously awaiting the result of the legal proceedings, the newspaper offices being besieged with enquiries yesterday afternoon and this morning, as to what decision had been reached, and if the inquest would be proceeded with to-night. The Times was the first paper in Hamilton to receive the news, which was promptly bulletined, followed by an extra, giving the judgment in brief. The decision in favor of the Crown aroused the greatest interest.

The opinion is prevalent that a crisis has been reached, and people are patiently waiting for the trump card, which it is reported the Crown will play when the investigation is resumed.

It was feared early this morning that the inquest might be delayed through the judges delaying their decision for some time. This was suggested by reason of the fact that their Lordships hinted they might want to look over the testimony already given by Florence Kinrade. It would have taken the stenographer about five days to prepare this, and this would have meant a week's adjournment.

FLORENCE WILL BE FIRST.
Crown Attorney Washington to-day (Continued on Page 10.)

KILLED THE MOB LEADER.

Italian Sho. in Trouble Over Brick-yards' Strike.

Another Mob Drove Men Out of Other Yards.

Strike at Waterous Company's Yards, Fishkill, N. Y.

Fishkill, N. Y., April 29.—One unknown Italian was shot and killed in a clash between a rioting mob and the employees of the brickyards of the Waterous Co., on the outskirts of this village to-day. The brickyard workers in this neighborhood have been on a strike for higher wages for several days, and as usual, mobs armed with clubs have driven the workers out of other yards.

Two hundred men armed with clubs and stones left the yard of Obrien & Venghey, in Fishkill, to-day, and marched to the yards of the Waterous Co., three miles up the river which had been reopened after the strike. Foreman Patrick Quinn, and three other men, employed at the Waterous yard, met them. The mob, throwing stones, advanced upon the four men, whereupon Foreman Quinn shot and killed the mob leader. The other rioters then dispersed.

Sheriff deputies were sent from this village to restore order and make arrests. While this attack was taking place, other mobs marched to two other yards near Fishkill and drove the workmen out. At the yard of the Budd Co., two miles below Fishkill, they stood Edward Coffee, who was in charge of the yard, until he took refuge in the Engine room and telephoned for assistance. He was rescued by policemen who dispersed the mob.

LOOKS MORE LIKE STRIKE.

Carpenters Demand Better Wages Than Bosses Are Offering.

Indications to-day are that Saturday may see trouble between the master builders and the carpenters. The employers and employees in this branch of the building trade have had no agreement for 3 years, but the men have been receiving \$7 1/2 cents an hour. The bosses want to make a reduction, beginning May 1. They propose to divide the men, paying first-class carpenters 35 cents an hour and others 33.

Last night the committee of the union met and discussed the situation. They concluded, as the bricklayers and masons and other branches of the trade are maintaining the same scale of wages as heretofore, the carpenters should do the same. They are also opposed to any division of the men into classes, but want a flat rate for all alike.

A committee of the men is to meet the representatives of the Builders' Association to-night and discuss the matter. The men say that unless the bosses are prepared to do better than they have so far offered there will be a strike on Saturday.

NOT BAD HERE

Snow May Even Do Good to the Fruit Trees.

Hamilton seems to have once again escaped the worst of the storm which raged with great severity to-day, east, west, north and south of this favored centre. While a blizzard was raging in Western Ontario and New York State, a little flurry of snow started here about 7 a. m. The wind increased during the day and the city was in the grip of a winterette before noon, with the wind blowing a gale at times, and driving the snow in clouds before it, but there was not enough of either wind or snow to cause much inconvenience. The street and suburban railways had no difficulty in keeping traffic going.

BAD ON LAKE.

By the early afternoon the storm on Lake Ontario had become very bad and was still increasing in violence. At the Beach it was said to be the worst in years.

The Hamilton Steamboat Company's steamer Macassa left as usual at 9 o'clock, although there was quite a flurry of snow at that hour.

The gale was so violent around Toronto that the Macassa had to go around the island and enter by the eastern gap. Even at that she was only 25 minutes behind her scheduled time.

GOOD FOR TREES.

In the Niagara fruit district the storm was a good deal more severe than in the City. Mr. Pratt, of the Government Experimental Farm, when asked by a Times representative what effect the snow would have upon the fruit trees, replied: "If it does not freeze on the snow may do good by cleaning them. The snow will delay operations in the orchards and on the fields for three or four days."

A GOOD WOMAN

Death of Mother of R. A. Thompson, Ex. M. P. P.

Mrs. Thompson, wife of the late Robert Thompson, of Lynden, and mother of R. A. Thompson, ex-M. P. P., died at St. George yesterday. She was a daughter of the late Rev. Thomas Christie and was a most estimable lady, greatly beloved for her kindly manner and good works. Her husband died on the 13th of October, 1890, and for several years she had made her home with her two sisters in St. George. Mr. O'Reilly, her failing health for a considerable time, and her death was not unexpected. The funeral service will be held at St. George's church at 1 p. m. The interment will take place at the Christie Cemetery.

BAIL FIXED.

Nevilles Can Get Out on Three Good Sureties.

Mr. M. J. O'Reilly, K.C., before Justice Teetzel yesterday morning, and was able to secure bail with John Nevilles, who is charged with the shooting of Constable Harry Smith, with intent to kill. His Lordship fixed the amount at Nevilles' personal security for \$1,000 and two sureties of \$500 each of three sureties of \$200 each. Mr. O'Reilly believes that the amount is a reasonable one, considering the charge, but says he will not have the slightest difficulty in establishing a very strong alibi.

THE FOUR FIGURES

That stand for all that is good in Colleges and toilet soaps are 4711. We have imported a lot of these excellent goods from Germany and can supply them to you at the very lowest prices. Come in and let us show you these goods. We know the quality is right. Parke & Parke, druggists.

Squabs, Squabs, Squabs.

Genuine squabs, large, plump ones, not more than six weeks old. We are getting a limited quantity each week, and would be pleased to place your name on our equal list. Daily supply of southern vegetables, strawberries, mushrooms, etc. Another shipment of Oka cheese arrived to-day, soft, creamy and fine flavored.—Bain & Adams, 89, 91 King street west.

ACTION DISMISSED.

Mr. M. J. O'Reilly, K.C., before Judge Monck, this morning, asked that the motion to continue the action of Antonio Wyblawek against the Hamilton Radial Railway and the Dominion Power & Transmission Company, for the death of the plaintiff's wife, be dismissed. After hearing Mr. O'Reilly's objections, his Honor dismissed the action on the grounds of want of prosecution.

STORM IN NEW YORK.
New York, April 29.—After nearly a month of extremely cold and unseasonable weather, New York experienced a late April snow storm this morning. Snow began falling about 6 a. m., but after a slight flurry it ceased for a time. At 8 o'clock the snow flakes were falling as thick and fast as though it were February. A cold northeast wind was blowing; the snow melted as fast as it fell in this city, but in the suburbs the ground was covered with a white blanket. This is the latest snow fall recorded in New York City since that of May 6, 1891, which was regarded as a freak of the temperature. Though the snow gives a wintry appearance, the temperature is no lower than it has been for some days past.
