Your money back if Purity Flour does not prove entirely satisfactory in the baking.

DON'T simply buy flour from the dollar and cent side of it. Buy high-quality flour. That means PURITY FLOUR. The first little extra cost is more than made up by the extra number of loaves of bread it makes—by the superiority of the bread and pastry in sweetness of flavor and nourishing qualities. Buying Purity Flour is a safe investment. You get large returns, not only on account of Purity's ability to produce more, but because Purity contains the greater nutriment and the vim of a strong hard wheat flour. Food made from Purity Flour gives the consumer health, snap and force, which cannot be gained from the use of the weaker soft wheat flour.

"MORE BREAD AND BETTER BREAD"
PURITY FLOUR
 You can buy as little as a 7 pound cotton bag or in 14, 24, 49, and 98 pound sacks. Also in barrels and half-barrels.
 Purity may cost a little more than some flours but you'll find it more than worth the difference. To be sure must bear the trade mark.

The Hylo Lamp
 You often pay for 16 candle power when one candle power is really all you need. You often endure a BRIGHT LIGHT when a SOFT LIGHT would be more suitable and pleasant.
The Hylo Lamp
 Gives you the light you want. It is the first and only successful turn down ELECTRIC LAMP.
 It is just as reasonable and necessary to modulate ELECTRIC light as it is to regulate the brightness of OIL light, GAS light, or SUN light.
