A Great Cmbination!

The "Crescent Felt" Mattresses now made on NEVER SPREAD principle.

A problem solved in the making of mattresses by the reinforceed support of banded elastic webbing, supporting and maintaining in position the layers of pure cotton felt of which this superior mattress is made. Tufted and covered in art ticking of the best quality, and ventilated with the Vacuum ventilator, making it absolutely sanitary and an article of first quality.

We anticipate that with the addition of this neverspread feature this Mattress will be more popular than ever; and, what is most important of all, we have put in this big improvement without any additional cost to vou.
