College Football Game Ends in a Draw.

ST. BON'S ARE CHAMPIONS.

The inter-collegiate football series which has created such keen rivalry between the three colleges during the past three weeks, terminated so far as the championship is concerned, yesterday, when the Bishop Field and Methodist College teams played, to a draw, allowing the St. Bon's team a tighter grip on the championship. Should the St. Bon's eleven lose both their remaining two games, they are still champions. This is the tenth successive season that St. Bonaventure's College has carried away the much coveted honours. To Capt. Raymond Halley and his team, hearty congratulations are due for the excellent games they have played during the season.

THE GAME.

During the first half the Feildians, defending the eastern goal, had matters all their own way for the first fifteen minutes of play, in making attack after attack on the Methodist goal. The red and blue aggregation appeared to have lost the usual pep, as displayed in their former games, and by dint of good luck, just managed to clear the leather out of danger. The Feildians secured corner after corner, but did not have the desired punch in forcing the pishin through. The Methodist boys caused their opponents no little worry before the close of the period. Smith, who replaced Fitzgerald in the Feildian goal responded to the occasion when he cleared two difficult shots placed by Angel and Rooney. Play was of a give and take nature before the half time whistle blew, the teams crossing over without a score.

SECOND HALF.

Owing to the late starting of the game, darkness appeared, and during the remainder of the game the players and spectators alike found it difficult to follow the ball. The Feildians from the outset forced the play down field, and time after time Mott, Collegian goalie was called upon to save. Withers, Press and Long making several tries. Harrington and Angel for the Methodists checked the blues onslaught, each putting up a rattling good game. The backs of the Feildians moved too far down field in the attack, when Tulliford from the right wing took control of the ball and made one of the longest runs for the season, and placed a stinging shot behind Smith, which he was unable to save. The Methodist forced the issue for some minutes, but Sheppard, the blues stalwart full back proved too much for them, and sent the ball soaring down field. The Feildians forwards got in some very clever combination Press, Withers and Anderson playing good rattling football. Their efforts were rewarded, however, some seven minutes before the close of the game, when Withers secured the desired opening and set the ball between the posts scoring the equaliser. Play now became fast and furious, each team doing its best for a win. The Methodist lads through the efforts of Tulliford made a speedy dash west, the ball hitting the upright and ended up by going behind. The Feildians were awarded a free kick outside of the penalty area just before the close. Sheppard placing a well directed shot to Mott which he handled like a veteran. The all-over sounded leaving the game a draw, Bishop Field 1, Methodist 1. Mr. R. Wood refereed. The teams lined up as follows:—

Methodist—Mott Goal; Halfyard, Harrington, full backs; Sparks, Angel Whelan half backs; Tulliford, Peters, Gooble, Rooney and Paddister forwards.

Bishop Field—Smith goal; Sheppard and Morris full backs; Rendell, Lloyd, Ellis half backs; Tifford, Press, Withers, Long and Anderson forwards.

Two games remain unplayed in the series. The St. Bon's playing the Feildians Thursday, and the Methodist on Saturday.

QUALITY AT ALL TIMES—FIRST AND ONLY CONSIDERATION!

Invention That Will Save Fuel.

WINNIPEG.—After two years of experimenting, local men have found a device that can be installed in any furnace or firebox at a low cost and which, it is claimed, will save fuel consumers of Canada millions of dollars by minimizing coal waste and rendering the country independent of imported coal, according to an announcement of M. B. Murphy, Superintendent of terminals, Canadian National Railway. "With this new device poorer grades of bituminous coal and lignite will produce a greater heat-efficiency in proportion to cost than can be obtained from anthracite. For several years, Mr. Murphy states his department has been striving to find a way to make greater economical use of Western Canada coal in place of the more expensive eastern and imported coal. Western coal and even the better grades of lignite were relatively low in ash and high in carbon content, their total carbon content being higher even than that of anthracite, but owing to the fact that in all bituminous coal this carbon was lost in smoke and unconsumed gases they had hitherto been unable to obtain from western coal the actual efficiency obtained from the more expensive imported coal."

Recently Mr. Murphy and his colleagues were informed that one of the latest United States authorities on the subject of coal combustion had been successful in obtaining complete combustion of these volatile elements of bituminous coal, as well as the fixed carbon elements. Hitherto only the fixed carbon had been utilized and that only partially. The volatile elements were capable of developing

Yesterday's Storm.

NO LOCAL DAMAGE REPORTED.

Up to noon hour to-day no reports of the storm doing any damage to the northward have reached the city. The Prospero, which sheltered at Exploits, left there this morning. The Senef, which was harbored for the past 24 hours at Badger's Quay, has also resumed her voyage north. It is the general opinion that the storm center was to the south, as considerable damage was reported in to-day's despatches from Sydney. The Arkansas which broke from her moorings in Sydney Harbor damaging her bowsprit and rudder is a two masted vessel of about 75 tons and is of local register. The tern schr. Cathrine Moulton owned by Moulton of Burgeo, which was in the collision was loading coal for a northern outfit. No further news has been received of the Canadian Government Marine steamer "Seigneur" reported as disabled in Latitude 53.32 North, Longitude 57.42 West. The ship is loaded with coal and pig iron and is bound to Montreal from England. It is not improbable that the S.S. Digby now on her way to this port may pick up the disabled ship.

NO EVACUATION.
CONSTANTINOPLE, Nov. 2.
A denial by General Harrington of a report that British troops and the British colony at Constantinople would be evacuated shortly, has tranquillized Christians, who were becoming excited over these rumors.

DEPARTURE FROM TRADITION.
LONDON, Nov. 2.
(New York Herald cable. Copyrighted in U.S.)—The first Tory Cabinet England has had since the Balfour Ministry, shattered tradition yesterday by getting itself filmed in action. Russian Ruble notes, overprinted with the legend "Vote for Labor, and this is what your money will be worth," are being distributed by Conservatives as the latest electrifying dodge of their campaign. Thousands of the latest and most attractive issues of Soviet notes were bought up at small expense for this propaganda.

EW PRESIDENT C.N.R.
LONDON, Nov. 2.
Sir Henry Thornton, new President of Canadian National Railway, will sail on S.S. Olympic, Nov. 22, to take up his new duties, as head of Canadian Railway.

LABOR'S DOWNFALL.
LONDON, Nov. 2.
Stunned by the heavy downfall of their candidates in the Municipal elections throughout England, yesterday, the Laborites intensified their campaign to-day with a hope of making a better showing in the general election for Parliament on November 15. In yesterday's balloting, Laborites lost one hundred and forty nine seats previously held in London, and about one hundred and sixty seats they had occupied in eighty boroughs outside the capital, for the most part in larger cities.

three times as much heat, per unit of weight, as the fixed carbon, so the economy effected was even greater than appeared at first glance. With the perfection of the appliance, Mr. Murphy states this is now possible and western coal can be used in place of imported fuel. An organization is being formed here to obtain the rights to manufacture and use the device in Canada and its manufacture, it is stated, will be commenced shortly.

L.D.A. Carried to Extremes.

WINNIPEG, Oct.—Strict enforcement of the Lord's Day Act, recently inaugurated by city and provincial authorities in Manitoba, has brought loud protests from many sections of the community and it will probably be a subject of much discussion at the next session of the provincial legislature as amendments to the act will be sought by Labor members. With regard to enforcement of the act, the sale of everything except meals in restaurants is prohibited on Sundays. Not even a loaf of bread or a bottle of milk can be sold nor can ice cream be bought for the Sunday appetite. Emergency supplies—in case of unexpected company—will have to be kept by the housewife, and even father will be affected for he will have to purchase sufficient supplies of tobacco, cigarettes or cigars, which ever he is a devotee of, Saturday night. Since 1906, following a conference between the department of the attorney-general, the city police and the Lord's Day Alliance, sales of fruits, soft drinks, bread, milk, cigars, tobacco and cigarettes were permissible. That policy has been followed ever since. Recently, however, the police department and the attorney-general were requested to strictly enforce the act and that policy is not being followed. The inaugurating of the new policy, which is stated to be the result of an application of the Lord's Day Alliance, resulted in twenty-one city storekeepers appearing in court for infraction of the act. Confectionery and other small stores will be compelled to close on Sundays now and G. L. Paterson, president of the Small Stores Association, announces strong opposition on the part of his Association to the new order. Mr. Paterson said a deputation will be sent to the provincial government to file a formal protest. Labor members will seek to have amendments made to the act to permit the selling of the necessities of life, such as bread and milk and similar goods on Sundays. John Queen, Labor member for Winnipeg, declared the strict enforcement of the act will work an unwarranted hardship upon the people. The Lord's Day act while a Federal enactment is subject to provincial Government amendments.

CONDENSERS LABOR CONFERENCE.

OSAKA.—The General Federation of Labor of Japan has gone on record as condemning the international labor conference to be held at Berns in November. The federation, in a formal statement, declares that the Japanese delegate does not fairly represent the working classes, and that without the voice of real labor being audible at the sessions—the conference cannot accomplish valuable results. Unconditional withdrawal of all Japanese troops from Russian

LABOR'S DOWNFALL.
LONDON, Nov. 2.
Stunned by the heavy downfall of their candidates in the Municipal elections throughout England, yesterday, the Laborites intensified their campaign to-day with a hope of making a better showing in the general election for Parliament on November 15. In yesterday's balloting, Laborites lost one hundred and forty nine seats previously held in London, and about one hundred and sixty seats they had occupied in eighty boroughs outside the capital, for the most part in larger cities.

three times as much heat, per unit of weight, as the fixed carbon, so the economy effected was even greater than appeared at first glance. With the perfection of the appliance, Mr. Murphy states this is now possible and western coal can be used in place of imported fuel. An organization is being formed here to obtain the rights to manufacture and use the device in Canada and its manufacture, it is stated, will be commenced shortly.

L.D.A. Carried to Extremes.

WINNIPEG, Oct.—Strict enforcement of the Lord's Day Act, recently inaugurated by city and provincial authorities in Manitoba, has brought loud protests from many sections of the community and it will probably be a subject of much discussion at the next session of the provincial legislature as amendments to the act will be sought by Labor members. With regard to enforcement of the act, the sale of everything except meals in restaurants is prohibited on Sundays. Not even a loaf of bread or a bottle of milk can be sold nor can ice cream be bought for the Sunday appetite. Emergency supplies—in case of unexpected company—will have to be kept by the housewife, and even father will be affected for he will have to purchase sufficient supplies of tobacco, cigarettes or cigars, which ever he is a devotee of, Saturday night. Since 1906, following a conference between the department of the attorney-general, the city police and the Lord's Day Alliance, sales of fruits, soft drinks, bread, milk, cigars, tobacco and cigarettes were permissible. That policy has been followed ever since. Recently, however, the police department and the attorney-general were requested to strictly enforce the act and that policy is not being followed. The inaugurating of the new policy, which is stated to be the result of an application of the Lord's Day Alliance, resulted in twenty-one city storekeepers appearing in court for infraction of the act. Confectionery and other small stores will be compelled to close on Sundays now and G. L. Paterson, president of the Small Stores Association, announces strong opposition on the part of his Association to the new order. Mr. Paterson said a deputation will be sent to the provincial government to file a formal protest. Labor members will seek to have amendments made to the act to permit the selling of the necessities of life, such as bread and milk and similar goods on Sundays. John Queen, Labor member for Winnipeg, declared the strict enforcement of the act will work an unwarranted hardship upon the people. The Lord's Day act while a Federal enactment is subject to provincial Government amendments.

CONDENSERS LABOR CONFERENCE.

OSAKA.—The General Federation of Labor of Japan has gone on record as condemning the international labor conference to be held at Berns in November. The federation, in a formal statement, declares that the Japanese delegate does not fairly represent the working classes, and that without the voice of real labor being audible at the sessions—the conference cannot accomplish valuable results. Unconditional withdrawal of all Japanese troops from Russian

NO EVACUATION.
CONSTANTINOPLE, Nov. 2.
A denial by General Harrington of a report that British troops and the British colony at Constantinople would be evacuated shortly, has tranquillized Christians, who were becoming excited over these rumors.

DEPARTURE FROM TRADITION.
LONDON, Nov. 2.
(New York Herald cable. Copyrighted in U.S.)—The first Tory Cabinet England has had since the Balfour Ministry, shattered tradition yesterday by getting itself filmed in action. Russian Ruble notes, overprinted with the legend "Vote for Labor, and this is what your money will be worth," are being distributed by Conservatives as the latest electrifying dodge of their campaign. Thousands of the latest and most attractive issues of Soviet notes were bought up at small expense for this propaganda.

EW PRESIDENT C.N.R.
LONDON, Nov. 2.
Sir Henry Thornton, new President of Canadian National Railway, will sail on S.S. Olympic, Nov. 22, to take up his new duties, as head of Canadian Railway.
