> God's in his heaven, All's right with the world.

If you trust in God and yoursel) you can surmount every obstacle. not yield to restless anxiety. One must not always be asking what may harren to one in life, but one must advance fearlessly and bravely. —[Prince Bismarck.

London, Friday Oct. 13.

-Those of our readers who are to give evidence before the Liquor Commission in this city to-day should be on time with facts and figures. Temperance people have little faith in the Commission, but that is no excuse for not having their views put on record and given as wide circulation as is possible.

-At Lindsay Controller Wallace told the farmers that agricultural machinery was as cheap in Canada as in the United States. A farmer then asked what use there was putting on a duty of 35 per cent. He is still waiting for an answer. Mr. Wallace changes the subject when he runs up against a snag.

-It is believed that the court proceedings in regard to the Manitoba School Act will take five and perhaps ten or fifteen years to complete. The Government at Ottawa would do anything rather than permit a speedy and decisive ending to the for us to cut off our imports with question, in which it would have to act on its own responsibility.

-Hooper, the Ottawa man recently taken to Quebec to answer to a charge of poisoning his wife, under the sensational circumstances already recorded, may be an innocent man. He has himself to blame if he is strongly suspected. He has told so many lies in the last week or two that even his best friends must begin to distrust him.

-At this late day the London Free Press is praising the cautiousness of Sir Leonard Tilley. The Canadian people cannot indorse its estimate. Sir Leonard Tilley did more than any other man to encourage the with should be collected no matter wha Manitoba boom and to bring about that era of land grabbing that cursed the Canadian Northwest for years, and brought ruin to many persons in other parts of

-Chicago reports say, the big fair management is out of debt. It is and it is not. All the extra money borrowed has been paid off, but the exhibition still owes the people of Chicago \$11,000,000, which never will be paid. The extra business brought in by the fair will make that debt easier to bear, to say nothing of the advertising which the city and its industries have received. The Chicago people seem to well pleased with the prospects.

-If the far East is not speedily modernized the blame will not rest on English capitalists and American contractors. They Ontario! are pushing their enterprise in every direction. The latest is the construction of the much-talked-of railway from Haifa, in Syria, to Damascus, the contract for which has been awarded to a Chicago firm, without portfolio. There have been many who expect to complete the road in surmises in the outer circles of the Coneighteen months. The project contemplates an ultimate extension of the road to India if Persian concessions can be obtained.

-The determination of the Administration leaders in the United States to force a vote on the question of whether or not the bill for the repeal of the free coinage of silver shall pass into law without amendment resulted in a resort to a continuous sitting until the measure is disposed of, it began Wednesday, and its great feature was the all-night speech of Senator Allen, a Populist member for Nebraska, who broke the record in speech-making in Congress by talking for 16 hours and 34 minutes. umbia Legislature by a member talking against time; if we are not mistaken, Bunster was his name. He spoke for 24 the greater portion of the New Testament in support of his views, and surviving to

OSOAR WILDE says: "Beware of women the wear violet." Why?

INTERFERENCE IN ELECTIONS.

The United States House of Representa tives, by a majority of 200 to 101, has marshals from interfering with the voting against the interference of troops at the well as by the Democratic majority.

laced upon the statute book, it has been felt to be an interference with popular liberty, just as the Dominion Franthe United States House of Representatives no such iniquity as the partisan re- | Hart answer:

not that imply that we make it easier for them to seli? For this reason every barrier that we raise up against importing the products of other countries just makes it so much the more difficult for them to pay for what we have to sell, and supplies them with an inducement to look for other and and freer markets in which to buy than we possess. Suppose it were possible other countries entirely, how long would any nation continue to buy our products? The lower our taxes on imports, the greater will be the extent of our imports, nomatter how other countries may tax themselves. If other nations can be prevailed upon to emancipate their international trade, there would certainly be more profit for us, as well as for them, but it does not pay us to collect more revenue than is necessary for economically running the machine of Government merely because some other country exchanging products with us indulges in that absurd policy. Every tax is a hindrance to trade. No tax that can be dispensed other nations may do. That is the British idea; it has made Britain the greatest mart

SIR JOHN CARLING'S DISAPPEAR-

ANCE.
What came of Sir John Carling while Sir John Thompson was touring in the

of trade in the world as well as the

money center. What is good for the

experienced mother cannot be bad for the

eldest daughter.

In former days, on all such occasions, Mr. Carling was invariably appointed general manager for his party, and was chief nong all the western Conservatives in aranging for public gatherings. Now he seems to have been deposed in favor of Dr. Roome, who has been elevated to the position of Conservative leader in Western

Sir John Carling did not appear at one of the Conservative gatherings held in this neighborhood, though he still holds the position of member of the Government servative party as to the reason for superseding the ex-member for London by Dr. Roome, but no one has yet vouchsafed an explanation. Can it be that Sir John has repented of the step which his political friends prevailed upon him to take when se usurped the seat provided for him by fraud? Is his retirement antecedent to the giving up to Mr. Hyman, M.P., the seat in Parliament to which that gentleman was declared, by six superior court

judges, fairly elected? -The plebiscite idea extends. It is ikely that the residents of Hawaii, who have had no very settled form of government since they deposed their queen, wil be called upon by popular vote to settle Though this oration is a record-breaker in the United States, it is still far short of the speech once delivered in the British Colannex the islands, but desires to take no steps which will not have the sanction of the majority of the people. The popular Bunster was his name. He spoke for 24 vote is a much better agency with which to settle this great question than the old method of setting the people at one another in warring factions. Then the men who be elected to a seat in the Dominion House of Commons. A pitched battle with ballots, honestly recorded and counted, is fully as effective and is perfectly harmless.

QUARANTINE USELESS.

Both Canada and the United States have spent large sums on quarantine at their passed a bill to repeal the Federal respective seaboards, and have come to Election Laws. This measure prevents place great reliance on this agency as a Federal supervisors, marshals or deputy- means to keep out infectious and contagious diseases. It is rather discouraging, in the election for members, and provides therefore, to be told by so eminent ar authority as Dr. Ernest Hart, editor of the polls. Its effect is to give to the States British Medical Journal, that "quarantine absolute control of elections without Fed- has been everywhere ineffectual when put eral supervision. The repealing measure to the test." Dr. Hart tells us that it has was voted for by the Populist members as | been discarded in England for 27 years In each International Sanitary Conference Ever since the act thus swept away was the different governments have more and more abandoned it. The relaxation of the old doctrine of quarantine has been more marked, and it is now almost obsolete. chise Act has proved to be in Can- Indeed, Dr. Hart goes the length of assertada. It is always a menace to ing that there has been no epidemic of the public safety to allow a ruling party cholera in Europe during the past 50 years to control the agency by which the voice of | but what was due to quarantine. Once you the people is to be heard. But even under make choiera contraband, he contends, the act now condemned and repealed by there is sure to come a smuggling of it in. What, then, should be done? Let Dr.

tives no such iniquity as the partisan revising judge—amenable to no one, and his decision, no matter how rascally unfair, absolutely final—was possible. There was always an appeal against a wrong decision to a higher court.

In Canada, under the system which Sir John Thompson says his Government means to maintain, the partisan judge can send to Parliament the minority candidate, and roba whole people of their just rights. All he has to do is to square himself with the Parliamentary majority.

No such system would be tolerated for a day in either Great Britain or the United States.

A FALLACY EXPOSED.
Putting down our tariff won't give Canadian producers the entrance to any other market.—(Toronto Empire.
The making of this statement implies ignorance of the first principles of international trade. All trade is barter. We pay for products with products. If we make it easy for our people to buy, does not that imply that we make it easier for them to sell? For this reason every barrior them to sell? For this reason every barrior to the most such a such as the product of the product of the product of the case of contents are proper system of medical inspection. Then it is a proper system of medical inspection. Then it is a proper system of medical inspection. Then it is a proper system of medical inspection. Then it is a proper system of medical inspection. Then it is a proper system of medical inspection. Then it is a proper system of medical inspection. Then it is a proper system of medical inspection. Then it is a proper system of medical inspection. Then it becomes the interest of travelers to declare its existence on spinboard instend of the substitute for it is a proper system of medical inspection. Then it becomes the interest of travelers to declare its existence on spinboard instend of the declaration on each total it. There is nothing so easy to deal with. There is nothing so easy to deal w

From these declarations by this eminent medical authority, the people of London will more fully realize than they have ever done before the inestimable blessing that they possess in a pure spring water supply. Come cholera when it may, it will be an easy task for us to provide against its prevalence.

"THE GARDEN OF ERIN."

Mr. Rafferty Brings Over 200 Tons Earth from the Land of MONTREAL, Que, Oct. 12.—Mr. P. Rafferty, who was a short time ago elevated by the Pope to the knighthood of the Holy Sepulchre of Jerusalem, has received from Dublin 200 tons of Irish earth. He has converted most of it into a garden at his residence at Hochelaga, and christened the same the "Garden of Erin." He also hands over a portion to Mr. D. Murney, an old patriarch of the East End, who proposes to have Mr. Rafferty's gift transferred to a His Birth. have Mr. Rafferty's gift transferred to a lot in Cote Des Neiges' cemetery, which he expects to be his last resting place, in the hope that his bones will co-mingle with the

MARRIED HIS TYPEWRITER.

The Young Widow Will Get \$250,000 if She Beats Contestants. New York, Oct. 12.—The contest over the will of the late William E. Farrall, of Atlantic city, N. J., a wealthy paper mill owner, who left an estate of over \$250,000 has been taken to the Supreme Court. Farrall a year ago married Cecela G. Hislop, a typewriter in his cline, and left her all of his fortune. He died on March 9, 1893, Prior to Farrall's death, and after his marriage, his brother brought lunacy proceedings against him. The jury rendered a verdict that he was sane and capable of managing his own affairs. An appeal was roversed. Pending a settlement, Howard M. Cooper was appointed a receiver of Cooper was appointed a receiver of rall's estate. It is still in his hands. ntestants are trying to have the wil

A Wife's Confession.

New YORK, Oct. 12.—The Evening World says: It is reported that Mrs. Mary Meyer, wife of Dr. Henry C. W. Meyer, the alleged poisoner, has decided to turn states' evidence. She will testify to four murders having been committed by her husband in order that he might collect insurance on the lives of his victims.

War on Saloons.

New York, Oct. 12—The members of the Presbyterian Church, of Kingsiand, Union township, N. J., have started a crusade against the liquor deslers. There are only 350 voters out of a total population of 1.300 people, and there are thirteen the sale of the of 1,300 people, and there are third saloons. Indictments have been fo saloons. Indictments have been found against two of these saloon-kepers, Lena Michler and A. J. Hopkins, the evidence in both cases being procured by the Presbyterian minister, Rev. R. H. Mills. The charge is a violation of the Sunday closing

corded a hearty welcome on reaching their home at Aylmer on Wednesday evening. They were also presented with a beautiful
