FOOTBALL.
THE ONTARIO RUGBY UNION.
Toronto, Ont., Dec. 14.—There was a large gathering of the footballers of the Province at the annual meeting of the Ontario Rugby Union held here Saturday. President W. J. Moran was in the chair, and every club in the union was represented by delegates. It was decided that players on a college or university team must be confined to bona fide, undergraduate in attendance on lectures, or graduates of at least one year's standing, while players on a town team must reside in the town or city, or within seven miles of the locality. There will be more strictness in the future as to junior teams, and only those registered with the secretary of the union as bona fide juniors will be allowed to play on a junior team. The proposal that a birth certificate or a copy must be produced was, however, shelved, especially as it was believed that such certificates were sometimes not obtainable for all junior players. The rules of play remain much as before, but an effort will be made to bring the rules, both of the Quebec and Ontario unions into conformity with each other. The results as follows: President, W. A. Logie, Hamilton; first vice-president, Walter Dick, Toronto; second vice-president, A. B. Ford, Queen's; secretary-treasurer, G. M. Mowat, Osgoode Hall and Queen's University; committee, Messrs. D'Arcy Martin, Hamilton; D. W. Campbell, Trinity; Percy Eby, Lorne; Ross, Queen's; Barr, Varsity.

A FLOURISHING SOCIETY.

Annual Meeting of the Western Ontario Commercial Travelers' Benefit Society—Revised Bylaws Adopted—Splendid Financial Showing.

President W. L. Underwood presided at the annual meeting of the Commercial Travelers' Mutual Benefit Society of Western Ontario in the rooms of the society on Saturday afternoon. Among those present were T. P. Blackwell, president-elect; Robert Coates, vice-president; W. S. Case, treasurer; Alfred Russell, Joseph Pocock, Dan. Mackenzie, A. S. Tassie, E. E. Nightingale, J. M. Logan, J. E. Keenleyside and the secretary, Mr. Alf. Robinson. The annual report showed that the following mortuary benefits had been paid during the year: William J. Freeland, \$95; William E. Adams, \$82; H. Fitzsimmons, \$82; James Douglas, \$83; W. E. Saunders, \$83—\$4,108. The membership continues to increase, and it is hoped that the maximum amount of benefit (\$1,000) shortly be realized. Members are asked to assist to this end by procuring at least one new member each during the holiday season.

The revised bylaws were presented for adoption. The principal changes are: Fixing six statutory assessments per annum, payable on the first of each alternate month respectively, and slightly increasing some of the rates of assessment for new members. The changes will, it is confidently believed, be beneficial. Members will know exactly when their assessments are due, and the statutory assessments will provide funds to pay all death claims promptly as they occur, and, it is hoped, allow of a steady and substantial addition to the reserve fund.

The financial statement was also presented, and showed the receipts to have been, exclusive of balance from previous year, \$8,847.23; the disbursements were \$5,293.57, leaving a balance to the credit of the association of \$3,553.66. The total expenses for the year were \$1,185.57, and the total reserve fund \$10,519.30.

The reports and revised bylaws were unanimously adopted. A cordial vote of thanks was accorded the retiring president, Mr. Underwood, and to the able secretary and treasurer and other officers. They were suitably acknowledged and the meeting adjourned.

During the night acute pneumonia developed, and in spite of everything death came next morning.

—At the last regular meeting of Court Dufferin, No. 4, I. O. F., the following officers were elected: C. R. H. Pratt; V. C. R., I. Lewis; R. S., J. F. Hicks; F. S., Alex. Arkman; treasurer, S. Leonard's right eye by kicking him in the face, is at the point of death in Sandwich jail. Jail Physician Casgrain has not yet been able to determine whether it is due to self-administered poison or to uraemic coma.

—The funeral of Mrs. Alice J. Portwood, of Queen's avenue, was held yesterday afternoon to Mount Pleasant Cemetery and was attended by numerous friends of the deceased. The services were conducted by the Rev. Dr. Daniels, pastor of Queen's Avenue Methodist Church, and the following acted as pallbearers: Messrs. A. B. Powell, Frank Colles, George Rutherford, R. C. Cowan, John Stephenson and James Jeffries.

FENDER'S FEND.
William Hunter, a London, Ont., man, was struck by a trolley car in that city yesterday. The car had a fender, which threw Mr. Hunter clear of the track, and he escaped injury save in the way of minor bruises. This occurrence deserves to be put specially on record in view of the robust incredulity of street railway companies as to fenders saving life.—Ottawa Journal.

A BIG CROWD GOING.
The concert of the Young Liberal Club will be on Wednesday night. The plan of seats was opened this morning and there was a most gratifying sale. The boys deserve a large crowd. The talent will be first-class and the promoters can promise to

all that attend a good entertainment, well worthy the price of admission. The male chorus are making good progress under the leadership of Mr. Stuart Huntington. The humorist, Mr. Ramsay, is highly praised by all the Toronto papers. The same can be said of Miss Alice D. Burrows. The concert will be under the direction of Mr. Fred L. Evans and the best local talent will assist.

MR. MCGILLVRAZ SCORED.

At the last regular meeting of Court Dufferin No. 4, I. O. F., the following resolution was submitted and carried unanimously: "That this court entirely disapproves of the supreme secretary engaging in any work other than that for which he is paid by the order of the sum of \$8,000 per annum. The court considers the salary ample enough to secure superior talent, and that the occupant of the office should give to his duties his undivided service. In forestry neither creed nor politics is recognized, and the supreme secretary, as long as he holds that position, should not engage in any political contest and thereby lay himself open to the charge of ignoring its foundation principles."

TWENTY-SECOND ANNIVERSARY.

Twenty-two years have elapsed since the Memorial Church on William street was founded in memory of the late Bishop Cronyn, and the turning of the 22nd milestone was celebrated by special services yesterday, morning and evening. The church has never been in a more prosperous condition than during the last few years, and this satisfactory state of affairs is largely due to the ministrations of the zealous rector, Rev. Canon Richardson. Not only is the church prospering, but very society in connection with it is in a flourishing condition. The Sunday school is growing in membership, and the teachers and superintendents will have cause to be proud at the report which will be presented at the school's anniversary tonight. The services yesterday were conducted by the rector of the Church of the Ascension, Hamilton, Rev. W. H. Wade, and drew very large congregations, scarcely a seat being vacant. Mr. Wade's sermons were both inspiring and instructive, his morning discourse being based on Philippians iv., 19: "But my God shall supply all your need according to His riches in glory by Christ Jesus."

The collections of the day were very liberal and will go to the church fund. At 8 o'clock the morning holy communion was administered to a large number.

COLLEGIATE INSTITUTE CONVERSATION.

The conversation to be given by the Literary Society of the Collegiate Institute next Friday evening promises to be a great success, and no doubt will draw the large crowd which the attractions merit. No expense is being spared to provide the best possible entertainment and to make the evening an enjoyable one. The guests will be met by a reception committee, who will escort them to the rooms set apart as dressing rooms. The halls and large assembly rooms are to be tastefully decorated, and the upper assembly room is being supplied with incandescent lights throughout at the expense of the society. The evening will be begun by a concert in which the celebrated European contralto Mlle. Carlotta Desvignes will be the chief attraction. She has never appeared in Canada before, but according to the press reports of Philadelphia and New York, she is the leading contralto in the United States. Miss Jessie Alexander needs no introduction to a London audience. These artists will be assisted by the Glee Club who will sing several selections with orchestral accompaniment, under the leadership of Mr. L. Evans. The orchestra will play several numbers for a promenade concert and the whole building will be open to inspection. In the physical and chemical laboratories interesting experiments in light and electricity will be shown, and limelight views will also be shown in the lower assembly room, which will be fitted up as a room for guests to meet for pleasant conversation. In the large drill room in the basement will be served, and the refreshments will not doubt be a most agreeable part of the evening. As any money derived from the conversation is devoted to the purchase of books and magazines for the use of the students of the institute, the teachers and scholars look to the public for good support in their endeavor to provide an entertainment which will be first-class in every particular.

FIGHTING THE ICE.

Schooner Sunk With 60,000 Bushels of Corn on Board—Other Vessels in Trouble.

Amersburg, Ont., Dec. 16.—The steamer Retz, from Chicago to Buffalo, with 60,000 bushels of corn, was out with the ice and sank a few miles south of the Dummy Light Friday night. The water is over her decks. She is owned by Bradley, of Cleveland. Tugs and steam pumps have gone to her assistance. The ice is very heavy and making fast. The crew took to the boats and made for the dummy, but had to cut their way for miles through the ice and after hours struggling they reached the shore this morning more dead than alive and badly frost bitten. The Retz is valued at \$65,000.

Detroit, Dec. 16.—The Colonial, bound down, is the latest vessel to go aground at Grosse Pointe.

East Tawas, Dec. 16.—A tug made an attempt to release the schooner Break, which is fast to the ice, but failed.

Victoria, B. C., Dec. 16.—The great anxiety is now felt for the safety of the coasting steamer Maude. She left Albera, Vancouver Island, Dec. 4, and should have reached this port in 48 hours, but has not been heard of since. Tremendous gales have swept the British Columbia coast line during the past few days.

A SETBACK FOR WILLIAM.

Sentence Suspended on a Socialist Editor Who Criticized His Speech.

Berlin, Dec. 16.—The Reichstag today suspended sentence in the case of Herr Lutgenau, the Socialist leader, who was returned to the Reichstag after a rebuff in the district of Dortmund Westphalia, and who was sentenced to five months' imprisonment on the charge of treason for reproducing an article headed "Another of These Imperial Speeches."

The Socialist leader, said: "This is the peoples' answer to Emperor William's appeal for union against the Socialists and to the threatened anti-Socialist measures."

The great demand for a pleasant, safe and reliable antidote for all affections of the throat and lungs is fully met with Bickie's Anti-Consumptive Syrup. It is a purely vegetable compound, and acts promptly and magically in subduing all coughs, colds, bronchitis, inflammation of the lungs, etc. It is so palatable that a child will refuse it, and it is put at a price that will not exclude the poor from its benefits.

We can't keep away from other people and know ourselves.

MELVILLE HAYS.

The New General Manager of the Grand Trunk.

Mr. Hays was born in Rock Island, Ill., in 1856, and at the age of 17 entered the passenger department of the Atlantic and Pacific Railway & St. Louis, Mo. A year later he was transferred to the auditor's department, and soon passed into the superintendent's office, where his ability and aptitude were soon manifested. From 1878 to 1884 he was secretary to the general manager of the Missouri Pacific, and from 1884 to 1886 secretary to the general manager of the Wabash, St. Louis & Pacific. In 1886 he was appointed assistant general manager of that road, and in the following year became general manager of the Wabash Western. In 1889 he was appointed to the office of general manager of the reorganized Wabash system, and five years later was elected vice-president of that company.

Mr. Hays accepted the general manager-ship of the Grand Trunk Railway Company early in October last, but will not assume the reins of office until January 1st. He succeeds Mr. L. J. Seargeant, who goes to London to act in an advisory capacity to the Board of Directors, and his contract is for five years, at a salary of \$25,000 a year. It is understood that the new general manager will have a much greater measure of actual control of the

Grand Trunk than has ever before been given to the Canadian head of that big corporation. He is not to be hampered by specific instructions, except as to the general policy of the road, from the English Board, and will introduce modern, wide-awake American methods wherever practicable. Mr. Hays is in the prime of life, is a man of great energy and conceded ability, and is one of the most popular railway men in the West. It is believed that one important result of his appointment will be much closer traffic relations between the Grand Trunk and the Wabash systems, a probable end of the present keen competition between Detroit and Chicago.

Prempeh Is a Fighter.

The British Will Not Have a Walk-Over in Ashanti.

Cape Coast Castle, British West Africa, Dec. 16.—On the refusal of the Ashanti tribe to join King Prempeh of Ashanti, the latter recently attacked and routed them with great slaughter. The affair is regarded as indicating that King Prempeh is determined to fight the British and that the expeditionary force now fitting out under the direction of Sir Francis Scott, inspector-general of the Gold Coast forces, will not have the walk-over anticipated in some quarters.

BIG BLAZE IN WINNIPEG.

The Cauchon Block Guttered—Two People Killed.

Winnipeg, Man., Dec. 16.—The Cauchon block, a large tenement building and mercantile block on Main street, was badly gutted by fire this morning. Major Morrice, an old Winnipegger, was burned to death, and Mrs. Morrice is also missing. Mr. and Mrs. Baby are badly injured, and with others have been taken to the hospital. Loss, about \$40,000.

OVER 1,000 KILLED.

Zanzibar, Dec. 16.—A caravan, comprising 1,200 men, while en route from Eldama was attacked by Chief Massala's followers, being passing the latter's kraals, on the night of Nov. 26. Over 1,000 of the men with the caravan were killed.

SAID NOTHING SO SILLY.

London, Dec. 16.—The United States embassy today issued a contradiction to the press of the statement attributed to the United States ambassador, Hon. Thomas F. Bayard, on Saturday last, that the adverse comments upon his late speeches which have appeared in the American newspapers were due to the fact that this was the "silly season in America." The note issued today says that Mr. Bayard has made no comment whatever on the subject.

DANGER IN CRETE.

Syria, Dec. 16.—The situation in the Island of Crete is serious. In the attack made on Tuesday last by a strong Turkish force on the position occupied by the Christians at Vryse, 24 Turks were killed and 36 were wounded. The Christians had five killed and eight wounded. At Alicampo the Turks massacred three men, two women and five children.

CLERICAL WIT AND HUMOR.

Clever Sayings for Which Ministers Are Held Responsible.

A certain popular divine in the north, who is noted quite as much for his absent-mindedness on occasions as for his general piety, was called in once by a young couple, whose home had just been lighted by a miniature representative of the mother's self. The happy parents decided to have the christening at home. The minister took the child in his arms, and in his kind, fatherly way addressed a few words of advice to the young people. "See that you train this child up in the way that he should go," he began. "Give him the benefit of a good example, and see that he is surrounded by the very best influences. If you do this, who knows but that he may become a George Washington or a Gen. Grant? What is his name?" "Jonnie," demurely responded the mother.

Francis I. being desirous to raise one of the most learned men of the times to the highest dignities of the church, asked him if he were of noble descent. "Your majesty," answered the abbot, "there were three brothers in Noah's ark, but I cannot tell positively from which of these three I am descended."

A noble duke asked a clergyman sitting at the end of his table why the goose, if there was one, was always placed next to the parson?

"Really," said he, "I can give no reason for it, but the question is so odd that I shall never see a goose in the future without thinking upon your lordship."

Said the Rev. Dr. Withrow, of Chicago: "It is understood in some quarters that ministers never know when to stop when they are talking, and editors always do when they are writing. They never write a long article or a dry one; they stop short whenever they get dry."

The two celebrated divines and scholars, Drs. South and Sherlock, were disputing on a religious subject, when the latter accused the other of using wit in the controversy. "Well," said South, "suppose it had pleased God to give you wit, what would you have done?"

A minister having preached the same discourse to his people three times, one of his constant hearers, a strict parliamentarian, said to him after service: "Doctor, the sermon you gave us this morning has had three several hearings; I move that it now be passed."

A Broad Hint.

A clergyman in an English town having published the banns of matrimony between two persons, was followed by the clerk's reading the hymn beginning with "Mistaken Souls Who Dream of Heaven"

He (as the clock strikes eleven)—I like a person who has some vim and go in him.

She—So do I, especially the go.

An Example for Public Officials.

Excise laws enacted under corrupt legislation with the intent of using them only as a means of levying blackmail, are being honestly enforced by the new commissioners of police in New York city. In reply to the maledictions which a righteous regard for their oaths of office is bringing upon himself and his colleagues, Theodore Roosevelt, chairman of the commission, says:

"I had to choose between closing all the saloons and violating my oaths of office. I choose to close the saloons.

"The American people will not ultimately sanction the systematic violation of the law.

"I would rather see this administration turned out for enforcing laws than to see it succeed by violating them.

"I am an executive, not legislative officer. I indulge in no theorizing about the performance of duty.

"We suffer from over-legislation and lax administration of legislation.

"The present Excise Law was enacted by the party which is now howling against its enforcement.

The law was enacted as a political club for machine purposes.

"Discrimination in the enforcement of the Excise Law has been at the bottom of police blackmail and corruption."

Mr. Roosevelt speaks truly, and his example is worthy of emulation.

Russia to Persia.

Persia is about to be provided with a new railroad. The line is being engineered by the Czar's officials, and constructed by means of Muscovite capital. It is to have its base at the Russian port of Baku, which is connected with the entire Russian railroad system, and is to extend across the plain of Mogan to the frontier station of Dula, whence it will proceed southward to the great Persian city of Teheran.

From there, by way of Kazvin, it continues to Teheran, whence branches are to be constructed to the great pilgrim resort of Meshed, on the Northeast frontier, and to the ancient metropolis Isfahan, in the South. Apart from the political consequences of this line, the practical opening up of a great country so rich and yet so undeveloped as Persia cannot fail to prove of immense interest to trade and industry in every part of the civilized world.—St. Louis Globe-Democrat.

A Point in Mending Gloves.

An error that is commonly made is that of mending old gloves with sewing silk, for the silk out the kid and shows the mend more plainly, while fine cotton thread gives a much more satisfactory result. If the gloves are torn, put a piece of silk or corresponding shade under the torn part, paste on the right side, and then draw up the rent with cotton thread.
