A BARGAIN THAT PROVED PRO-FITABLE TO CANADIANS.

Conservative stumpers talk of the Saskatchewan Valley land transaction, as though they had unearthed a scandal of considerable magnitude.

The "deal," as they are pleased to term it, was a capital stroke of business in the interest of the settler and the country. The facts of the case have been repeatedly given in and out of Parliament, but they will bear rehearsing, in view of misrepresentations during the present campaign.

There had been a sale of a quarter of a million acres of even-numbered sections in a tract of which the oddsections had for years formed part of a land grant given by the Conservative Government to the Qu'Appelle and Long Lake Railway Company. In this company, Mr. E. B. Osler, Conservative M. P., a shrewd businessman, well posted in western land values, was largely interested, land as a bongs, for the reason that it was not fit for settlement.
