

RESOLUTION OF PROTEST MAY BE RESCINDED

Windsor Council Wants Assurance of Power for the Municipalities.

WINDSOR, July 7.—Announcement was made by Mayor Wilson today that if Sir Adam Beck, chairman of the Ontario Hydro-Electric Commission, gives any assurance that plenty of power will be retained for the use of municipalities of this province, it is possible that Windsor City Council at its meeting may rescind a resolution passed on Monday night, protesting against the export of power to the United States.

Mayor Wilson stated that it was unfortunate that the commission had not issued a statement dealing fully with the project and acquainting the people of the province with the details of the scheme before the bare fact that power might be transmitted to Detroit and other American cities was allowed to be published.

Threats Prosecution. A warning was issued by D. M. Hanna, superintendent of the Windsor Water Commission, today that he was prepared to prosecute citizens who violate the water conservation regulations by using lawn hose at all hours of the day and night. He stated that the city is now pumping 30 per cent more water than under normal conditions, and attributed the heavy demand on the machinery directly to wastage by citizens. He claimed that Walkerville is pumping 150 per cent above the normal supply.

Gartno Guadagnino, former proprietor of the Waverly Hotel, on the Amherstburg road, was sentenced to six months by Magistrate Gundy today when convicted of having liquor in an unlawful place. Guadagnino's wife and seven children were in the court when sentence was passed. It was his second offence.

Philip L. Reame, prominent Windsor merchant, died last night after an illness of two weeks. He was a native of Windsor, having been born here 68 years ago.

G. G. Foster of the Ontario Minimum Wage Board has commenced investigation of wages and living conditions in the border cities. With other members of the board he is making a general survey of the province. Employers and other interested are being interviewed.

Most Worshipful Grand Master F. W. Harcourt will officiate at the laying of the cornerstone of the new Masonic Temple in Windsor on Saturday afternoon. Local Masons will march to the site of the temple to be present at the ceremony.

In Windsor during June \$252,977.55 was collected in customs: Walkerville, \$523,004.48; Sandwich, \$313.35, totalling \$776,295.38 for the month.

AMERICAN WARSHIP AT MEXICAN PORT

Labor Conditions Not As Bad As Reported.

Mexico City, July 7.—The United States gunboat, Sacramento, sent to Mexican waters as a result of alarming reports reaching Washington, arrived in Tampico yesterday, and is anchored in the harbor there. It was said last night in advices received from Tampico, that the Mexican foreign office refused comment on the arrival of the Sacramento at Tampico. President Obregon also refused to comment on the situation.

The president declared the government did not intend to rescind the recent decree increasing the taxes on oil exported from the country, saying that every barrel of oil taken out of Mexico represented an exhaustion of the natural resources which could not be replaced. He asserted labor conditions in the Tampico district were not as bad as reported.

The farmers in this district are nearly all busy cutting their hay. The wheat is also just about ready to cut.

OFFICIALS ANXIOUS REGARDING STR. CALLAO

NEW YORK, July 7.—Officials of the Munson Line admitted today that they had been trying unsuccessfully for two days to establish radio communication with the liner Callao, due here next Sunday from Buenos Aires and Rio de Janeiro.

Recent reports of pirates operating off the United States coast were depreciated by officials of the line, who added that it was possible atmospheric conditions or disabling of the Callao's wireless was responsible for the failure to raise her.

The Callao, owned by the Shipping Board, carries six passengers and flies the Peruvian flag.

REMOVAL OF SEATS IS MUCH CRITICIZED

Mothers' Club To Demand Investigation Into the Matter.

ST. THOMAS, July 7.—The removal of the seating accommodation given the best and residents on the Center street boulevard by the Horticultural Society is severely criticized by the parents of heat-suffering children and subscribers as well to the society's fund. The society's fund is made up of many of the M. C. R. Park. The people objecting to this apparent sectionalism of some of the society's members ask why the transfer is made of many of the seats to the city council intersections of Talbot street, where they hold a young and healthy crowd of youths who give thanks to the society for so kindly a consideration and convenience.

The Mothers' Club will be asked to make inquiry into this unexpected action of the society's representatives. The fathers and mothers declare that they, too, pay in private subscription or in taxes for the upkeep of the Horticultural Society.

Royal Cygnets Succeeded. Born in a democratic atmosphere at Pinetown Park, and hedged in by pheasant fowl at the reservation, the brood of royal cygnets recently hatched by one of the royal swans, succumbed to their surroundings tonight and went the way of bird royalty. If the weather would moderate, Superintendent Clark would have "Last Post" sounded at their burial tomorrow.

Prospectors Fined. CHATHAM, July 7.—Two mining prospectors, Harry Crawford and Thomas Class, appeared in police court today charged with having liquor in their possession contrary to the O. T. A. The two men were arrested early today on a public street where they created a disagreeable and boisterous noise. Both appeared to be intoxicated at the time.

One was fined \$200 and costs, and the other \$100 and costs, making a total revenue to the police coffers of \$300.

These two men are engaged in prospecting near Englehart, and have recently been on a trip to Chatham, Sarnia and Windsor. They had a bottle of gin in their possession, and when questioned as to where they got the liquor they stated that they had purchased it in Chatham from a Belgian—or someone who could speak only broken English. They gave a description of their friend to the police, and an effort will be made to locate this bootlegger who was the original cause of the disturbance.

STATE BALL WAS BRILLIANT AFFAIR

King and Queen Entertain in Honor of Belgian Rulers.

LONDON, July 7.—The first state ball at Buckingham Palace since 1914 was held tonight in honor of the King and Queen of the Belgians. It had an air of active novelty of the affair, a very large number of the 2,000 guests attending such a function for the first time.

Another contract with pre-war functions of this kind was to be found in the change in character of the costumes, the rather rigid heavy style of etiquette formerly demanded giving way to light gossamer and heavy embroidery to adornments of vaporous texture. Still another novelty was the large number of ladies wearing war orders, and there was also a real display of jewels.

The state quadrille was danced in the customary manner, the king leading with the Queen of the Belgians and Queen Mary with King Albert.

I'LL SAY IT'S A REAL SALE

FERGUSON TRIES TO KNOCK DRURY

Hands Out the Usual Line At Thamesville Meeting.

[Special To The Advertiser.]

THAMESVILLE, July 7.—At a Conservative meeting held here today, Hon. G. Howard Ferguson sprung the same line of stereotyped stuff he has been handing out in various ridings. He was not particularly well received as far as his speech went, as attacks on Premier Drury are not popular with farmers in this section.

When campaigning against the old Government and after coming into office, Mr. Drury was profuse and emphatic in his statement of the many reforms he proposed to bring about. Mr. Drury gave his pledge that there would be a reduction in provincial expenditures and great economy in administration.

In Mr. Drury's first year the capital expenditure jumped from \$47,000,000 to \$83,000,000. This sum is more than the capital expenditure in any other two years combined in the history of the province, and is an increase of \$36,000,000 over 1919.

When Mr. Drury took office he found \$5,000,000 in cash in the bank and legislation on the statute books passed by the old Government which brought in during their first year in office over \$5,000,000 more in revenue than had ever before come into the public treasury in any year, said Mr. Ferguson. It came as a rude shock to hear from the treasurer at the end of the first year in office that they had spent not only the extra \$5,000,000 income collected during the year, but had actually spent \$2,000,000 of the \$5,000,000 cash left them in the bank as well, and still had a deficit of \$800,000.

The Drury economists used \$7,000,000 more than had ever been used by any other Government to run the business of the province for one year, and even then were \$800,000 behind, Mr. Ferguson declared.

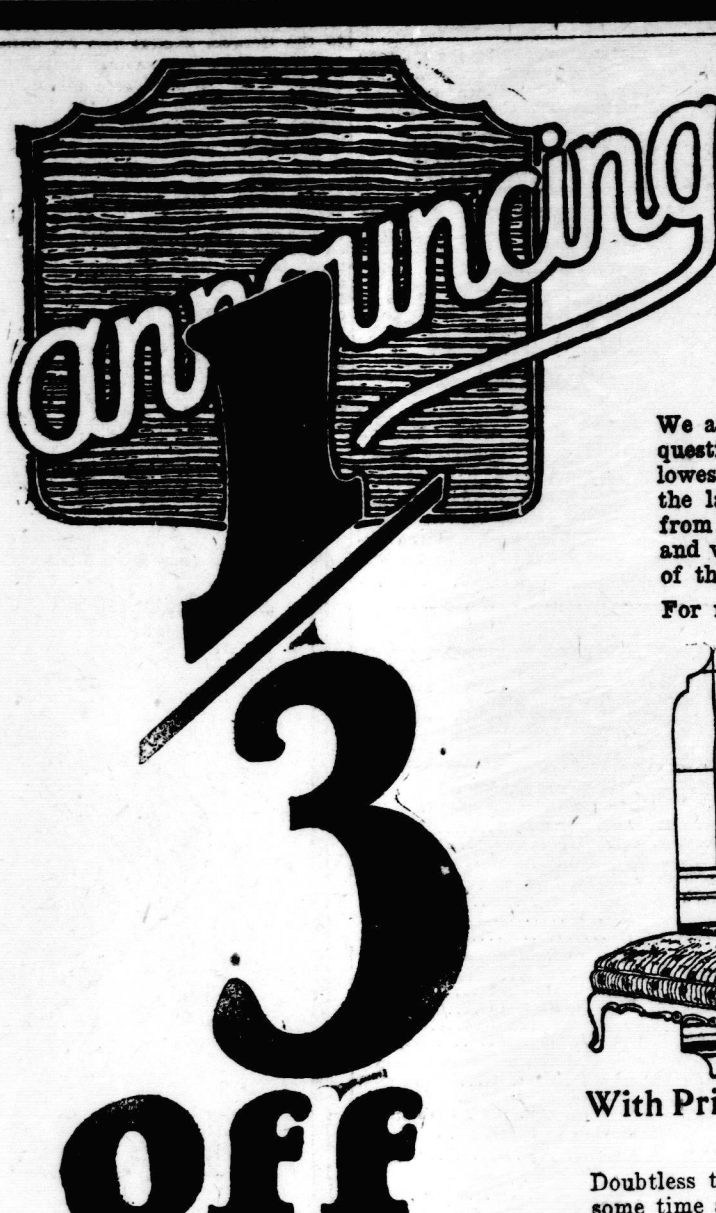

PRISONERS SMASHED WINDOWS. HAMILTON, July 7.—A number of prisoners at the jail made a massed attack on the windows in their corridor and smashed them to get more air. There were no turnkeys present at the time, and when they came rushing in from another part of the jail the damage was done. The matter will be investigated.

lington Township, died from tetanus, contracted when a nail ran in her foot three weeks ago.

HELPED SAVE CHILD. TORONTO, July 7.—Rev. Henry A. Berlis, Presbyterian minister and member of the Toronto Board of Education, gave some of his blood today to save the life of the little child of a member of his congregation. He later went to a Sunday school picnic, apparently none the worse.

VESSEL IS BURNED. AMHERSTBURG, July 7.—The old famous vessel, Marie Martin, which has been sunk in Callam's Bay below town since being raised from the head of Belle Isle, was burned to the water's edge Tuesday night, and an eyewere which was seen from the most valuable property in Malden township is now removed.
