he Small Yoke Plays an Important Role in the Making of Smart New

Frocks. For many years past the tradition If the yoke has been carried on enirely in the wardrobes of babies, and iven in these little clothes it was ofen neglected. You would have had o look very far and wide before findng a woman's or young girl's frock with a yoke. But now you cannot oin in any discussion of new fash-

ons without realizing the new imwhat seems to have happened was this. Gradually and quite nat-erally we became tired of the slip-shod fit of our clothes over shoulinod fit of our clothes over shoul-lers and across bust. Even under-lothes and nightgowns went on as if they had been made for a regi-ment, large and loose and shapeless shough to fit any size and shape of

Then particular women set about forrecting this defect in their under-things, and some months ago the roke became an established fact in ingerie. Chemises, nightgowns and ther under garments are made with well-fitted yokes. Thus the weight

angs from the shoulder strap—and that is a great advantage.

Now the French dressmakers have been making frocks with yokes. This is part of the general move to sliminate the slovenly shoulder line. it serves to hold the frock in place and to give a good line to neck and shoulder. The frock that starts off with a rather closely fitted yoke and uliness under the arms much more paringly used demands, of course, more close molding all down

The sketch shows an interesting xample of the new yoke. There is hothing "period-y" about it. There is no attempt to suggest the quaint ormality of the yoke that was worn in the days of Empress Eugenie. This is a yoke that as far as inpiration goes is entirely of the mo-ment. There simply was need for ment. There simply was need for some device to eliminate the slopptness around the shoulders, neck rmholes of which we were all becoming a little weary, and the clever dressmakers seem as of simultan-cous accord to have seized upon the

yoke as the best device.

The frock shown is of pink chiffon with quantities of ruffles of the material. These form four godets to give an interesting flare to the skir They also form the little yoke with

the tiny sleeve cap that is distinctly that the moment.

Jenny is making yokes of a sort all her own, adding a white silk alpaca yoke to a dark blue report frock and a white georgette yoke to a freek of dark brown.

Peter Rabbit, When Pursued By Reddy Fox, Takes His Only Chance of Safety

Peter Rabbit had formed the habit of dropping around by the new home of Johnny and Polly Chuck very of ten. He liked to gossip a bit with Johnny Chuck. Then, too, he liked the Old Orchard. There was always something of interest going on there. So whenever Peter was near enough to easily do so he ran over where the Chucks were now living.

Now no one can do a thing over and over again for very long without having someone to find it out. Reddy Fox makes it his business to find out the habits of his neighbors. Reddy says that the most useful knowledge he possesses is knowledge of the habits of others. It has filled his He liked to gossip a bit with Johnny stomach more than once, and he Peter Rabbit visited Johnny Chuck, knows that it will fill his stomach Again the next morning it happened. many times again. So the instant Reddy finds that one of his neighbors has done a certain thing more chuckled.

than once he keeps watch to see if this is the beginning of a habit.
So when, on two mornings in succession, just after daylight, Reddy from a distance caught a glimpse of Peter going toward the corner of the Old Orchard where Johnny and Polly Chuck had made their new home. In the Chuck had made their new home had the control of the Black Shadows left.
