Richard

(LATE DOVELL & EASY,)

Manufactory established in London, 1815. Many years manufacturer to The British Government, The East India Company, and the Bank of England.

MANUFACTURER OF

WRITING INKS & FLUIDS, SEALING WAX, MUCILAGE, WAFERS, &c., &c.

I beg to call attention to my removal to the new and commodious Factory, Nos. 117 and 119 R.R. Ave, Nowark, N.J., where I shall carry a complete stock of Writing luks, Fluids, &c., &c.
And I desire to call particular attention to my CARMINE INK, WRITING and COPYING FLUIDS, and MUCILAGE.

The CARMINE ontering into the manufacture of the Ink is the best and purest to be obtained, and produces a brilliant, uniform and permanent color.

The FLUIDS are equal to any made; they flow freely, dry rapidly, turn to a deep, permanent black, will not mold, and afford a good copy.

The MUCILAGE is made of pure GUM ARABIC, is extra thick, will not SOUR or MOULD, and is fully warranted.

My INES and FLUIDS have been in use many years, and have received the unqualified endorsement of business men and thers.

Extra Pure Mucilage.
