

Tit for Tat.

Said a young and tactless husband
To his inexperienced wife:
"If you should give up leading
Such a fashionable life,
And devote more time to cooking—
How to mix and when to bake—
Then perhaps you might make pastry
Such as mother used to make."
And the wife, resenting, answered
(For the worm will turn, you know):
"If you would give up horses
And a score of clubs or so,
To devote more time to business—
When to buy and what to stake—
Then, perhaps, you might make money
Such as father used to make."

New surgical instruments operated by electric motors are coming into use. The most wonderful is an electric saw, which cuts through bone and tissue with lightning speed. This machine has already found an extensive use in larger hospitals, and has proved of value in severe operations, where the shock attending the use of the slower-acting handsaw would have frequently proved fatal to the patient.

it is properly made.
Accept no counter-
feit of similar
name. The dis-
tinguished Dr. L.
A. Sayre, said to a
lady of the Aus-
trian (a patient): "As you ladies will use them, I recom-
mend 'Gouraud's Cream' as the least harmful of all the
skin preparations." One bottle will last six months,
using it every day. 'Gouraud's Poudre' subtilly
removes superfluous hair without injury
to the skin.

Health Don'ts.

Don't neglect your house drains nor the
drainage about your house. The first
condition of family health is a dry and
sweet atmosphere. With dry walls, a
dry cellar and drains that carry off the
refuse without letting in foul gases, half
the battle for good health is won.

Don't let your wells or springs be in-
fected by drainage or from other causes.
Pure drinking water is indispensable for
health at home or anywhere.

Don't keep the sun out of your living
and sleeping rooms. Sunlight is abso-
lutely necessary for a right condition of
the atmosphere that we breathe and for
our bodily well being.

Don't sleep in the same flannels that
you wear during the day.

Don't wear thin socks or light-soled
shoes in cold or wet weather.

Don't catch cold. Catching cold is
much more preventable than is generally
supposed. A person in good physical
condition is not liable to colds, and will
not fall victim to them unless he is grossly
careless. Keep the feet warm and dry,
the head cool, the bowels and chest well
protected; avoid exposure with an empty
stomach; take care not to cool off too
rapidly when heated; keep out of
draughts; wear flannels, and with the
exercise of a little common sense in
various emergencies colds will be rare.
If colds were a penal offence we should
soon find a way to prevent them.

Helping the Drunkard.

HON. L. S. COFFIN, author and Presi-
dent of the Railroad Temperance Asso-
ciation, President of the Railroad Em-
ployees' Home, and active in other ways
in the fight against the liquor traffic, sent
the following letter to a private indi-
vidual in Toronto:

"I have the utmost confidence in the
Fitzz Cure for Alcoholism. I have seen
it tried a great many times. I have never
known it to fail. Have never known of
a case of bad results following. It is the
only scientific cure I know of. The
Gold cure has done a great deal of good,
but so often bad results follow. I only
wish I could make my recommendation a
thousand-fold stronger. I have no per-
sonal interest in the cure whatever, but
in my work among R. R. men have found
it a great help where a man's crave for
liquor has gotten beyond his will-power
to stop. This takes all the desire for
drink away and restores the stomach and
the digestive organs to their normal
state, and, in fact, puts the victim of rum
back to the condition he was in before he
ever drank. I shall be very glad, indeed,
if I can be of any help in your good work
to save your friends and shall be pleased
to learn of the result of your efforts."
