SIGNIFICANT SPRING.

A Dissertation upon its advent, and its effect upon mankind.

The green leaf of the new come Spring." Everybody recognizes spring, when it is once upon'us, but many persons are not familiar with the exact date of its appearance. Webster, the world-renowed lexicographer, gives us a definition, which may not be inappropriate here. "Spring," says he, " is the season of the year when plants begin to vege-

season of the year when plants begin to vegetate and rise; the vernal season, comprehending the months of March, with the middle latitudes north the chuston. Thomson, in his "Season was shakespeare, in many of his works, was possible to be peers in describing it, and the chiral spring" is freighted with malaria, "that insidious foe, lurking unseen in the very air breathe." It spreads over the fairest portions of our land; brings death and disease to thousands: cuts off scores upon scores of our tions of our land; brings death and disease to thousands; cuts off scores upon scores of our children and youth, as well as those in advanced life. A pestilence is egarded with little less apprehension, and people everywhere are asking, "What is "Where does it come from?" "What ville fure it?"

KIDNEY-WORT AS A SPRING IN CINE.

When you begin to lose appetite—have a headache, a pain in your side, back, and shoulders; to toss about at night in restless dreams, wake in the morning with a four mouth and furred tongue; feel disinclined to go about your work, heavy in body and oppressed in mind; have a fit of the blues; when your urine gets scanty or high coloured; to suffer with constipation, diarrhia, or indigestion; have a pasty, sallow face, eyes, and a blotched skin;—one or all eyes, and a blotched skin;—one or all eyes, and is a bottle of Kidney-Wort is, under such circumstances, a priceless boon to such a person.

Bare assertions of proprietors have come to proceed the forest than they frequently manifesters.

Bareassertions of proprietors have come to possess less force than they frequently merit. The cause of this condition of popular skepticism s, in the main, to be found in the fact that charlatanism covers our broad land. Mentorious articles are too frequently found

Mentorious articles are too frequently found in bad company.

The proprietors of Kidney-Wort always proce all their assertions, touching the merits of their preparations. When we affirm, therefore, that Kidney-Wort is a specific for just such disorders as have been mentioned in this article, the proof, too, belongs to and in this article, the proof, too, belongs to and shall, follow this statement.

A PHYSICIAN'S EXPERIENCE.

Dr. R. K. Clark, a regular physician of extensive practice in Grand Isle County, and a worthy deacon of the Congregational Church, at Scath Hero, Vt., has used Kidney Wort for several years in Lis practice, and Wort for several years in his practice, and before the present proprietors purchased an interest in it, he had given his unbiased opinion in its favour. This opinion has not changed. "It has done better than any other remedy I have ever used," says the Doctor, and, further on he writes "I do not recollect an further on he writes "I do not recollect an instance where the patient to whom I have given it has failed to receive benefit from its use, and in some severe cases most decidedly so." These are strong words. They are from a representative, conscientious, ever-approachable public citizen, however, and—better still—they are true.

Kidney-Wort will bear all the enconiums lavished upon it by its friends—and their

Kidney-Wort will bear all the enconiums lavished upon it by its friends—and their name is legion. "I will cwear by Kidney-Wort all the time," writes Mr. J. R. Kauffman, of Lancaster, Pa. We will supplement this be asserting, as a matter of fact, and one capable of demonstration, that all honest patrons of this remedy are its friends and advecates. cales.

How to write well. First select your pen-see it has Esterbrook's stemp. With good ink, paper and application, the desired re-sult will follow.
