

ANTISEPTIC THROAT PASTILLES

Prepared in accordance with the formula of DR. BARK, of the Liverpool Hospital for Diseases of the Throat, Nose and Ear

HIGHLY recommended for Vocalists, Public Speakers, and for Affections of the Throat. Immediate relief in Coughs, Colds, Asthma, Bronchitis, etc. An Infallible preventive of Diphtheria and other contagious diseases of the Throat. A Physician states that the Paroxysms of Whooping Cough may be prevented by giving one of the Pastilles upon retiring for the night, thus producing absolute rest, both to the Patient and to the household.

Directions for Use.—Allow the Pastille to gradually dissolve in the mouth. Fluids should not be taken immediately afterwards.

Dose.—From 5 to 10 Pastilles per day, between meals, chiefly in the morning and evening. TO BE KEPT DRY

These Pastilles, which were brought out for the benefit of the Liverpool Hospital for Diseases of the Throat, Nose and Ear, have already met with a very large sale, both at home and abroad, owing to their intrinsic merit. The proceeds from the sale are largely devoted to the funds of that institution.

None genuine unless bearing a Label with the above Trade Mark and name of the sole proprietors.
