COMMERCIAL SUMMARY.

The Irish Lord Chancellor has appointed six new magistrates for the city of Cork, all of whom are McCarthyites.

The Union Pacific and Burlington & Missouri railways give notice that they will withdraw from the Transcontinental Association.

Authorities in France have been trying the cryptophone, devised about nine years ago for military and naval purposes. For military use, the apparatus consists of a highly sensitive vibrator and a microphone suitably arranged in a pine box, which is buried two or three feet under the road to be watched. Wires lead to a bell or other signals at the observing station. When an alarm is given, the observer connects a telephone, and is able to hear the movement over the road and even to determine its direction, the apparatus being so sensitive as to indicate the passage of a half-dozen men or a single cart.

Mr. Patrick Egan has arrived in New York from Chili. He brings with him a treaty to settle the claims against the Chilean Government.

A. Gazely, of Port Arthur, who was arrested for going into Fort William during the quarantine, has entered an action for \$10,000 damages against the corporation and its medical health officers.

The people of Alaska, states a correspondent of the New York Evening Post, are beginning to realize that their mines and their fisheries are among the most valuable in the world; but that in the present condition of the territory men will not invest much capital there, and the industries will develop slowly. Therefore, in order to give greater security to property and stability to the community, the Alaskans are looking towards annexation to Washington. It is not improbable that the matter will be brought before the next Congress in a formal petition.
