

Every Man admires a workmanlike job

And that is why any man who is thinking of installing a heating system should examine the Sunshine Furnace. It is a piece of work he will take to.

Every part is well thought out. The sections are carefully made. The whole is substantially and accurately put together.

And there is a sound reason for every feature.

Take the shape of the fire-pot as an example. The straight walls allow the ashes to fall instead of lodging against the sides where they would interfere with the free passage of heat from the burning coal.

See the large double tight-fitting doors. Notice how easily the dampers are controlled. Not much trouble to shut off the fire and hold the heat with this furnace. See how dust is directed up the chimney whenever the fire is shaken down. Note the large radiating surfaces and wide passages for heating the air.

It was a man who knew his job that designed

McClary's Sunshine *Furnace*

If you wish to know what it will cost to place this fine furnace in your home, write us about it. Our Heating Engineer will send you full information. He will show you how to arrange the distribution of heat so as to get the most out of it. There is no charge; no obligation to buy a Sunshine Furnace. And if you would like a copy of our booklet "Sunshine" enclose the coupon with your letter.
