FOR DYSPEPSIA, WEAKNESS AND DEBILITY. From George S. Bixby, of Epsom, N. H.: "Having received great benefit from the use of Peruvian Syrup, I am willing to add months. I became so much reduced in health and strength as to be a mere skeleton of my former self. On being released, I was a fit subject for a Northern hospital, where I remained some two months, and then came home. My physician recommended and procured for me several bottles of Peruvian Syrup, which I continued to use for several weeks, and found my health restored, and my weight increased from ninety pounds to one hundred and fifty, my usual weight, and I have been in usual good health ever since. I can cheerfully recommend it in all cases of weakness and debility of the system, whether arising from an impure state of the blood, dyspepsia, or almost any other cause, believing it will in most cases give entire satisfaction." Sold by all druggists.

CHRONIC BRONCHITIS. When Bronchitis take the chronic form the attending symptoms become greatly aggravated, and are associated with many of the very worst symptoms of Phthisis, viz., excessive cough, free expectoration, rapid pulse, night sweats, etc., and finally great debility and emaciation. In this stage the diagnosis between this and Tubercular Consumption is sometimes very difficult; and it is in this case that Cod Liver Oil, when the sufferers can retain it, is of special advantage; and PUTNER'S EMULSION OF COD LIVER OIL can always be easily retained. In such a case it is invaluable. Under its use we find the cough cease, expectoration diminish, the pulse regain its regularity and force, night sweats cease, physical strength return, and the emaciation give place to renewed flesh. As this state of things may be a sequence of a cold which has been neglected, it behooves every one to be particularly careful of himself while laboring under a cold, no matter how slight it may apparently be. The main thing is to check the disease at its very inception, and the best means by which to attain this is by the early use of PUTNER'S EMULSION.
