HISTOGENETIC SYSTEM OF MEDICINE

RESCUE OF CAPTAIN HAMILL.

All diseases successfully treated by the new system of pure and tasteless medicine. So-called incurable cases preferred.

THEORY—Rebuilding the diseased cells and tissues of the body with the same proximate principles and so on, which are normally prepared in the body by the Glands.

TOLD by himself after reaching the solid rock. The Captain has been in many a storm—this time on the breakers. His good wife threw out the "Life-line." Somehow women have better sense than men when there is danger. The Captain of the "Hamill" knows this, and always did. "All right," he said, "I'll try it." Read his modest letter:—

DEAR DR. REAR.—During the greater part of the year 1875 I suffered from Inflammatory Rheumatism, and since then have had pain and stiffened joints. My right knee became enlarged. It was a great annoyance to me. My heart was also said to be affected and glands enlarged. Early in March of this year my attention was called (by Mrs. Hamill) to the Histogenetic System of Medicine, founded by Dr. J. Eugene Jordan, and I thought that if it was what the name implies it would be productive of good. I procured through my wife a month's treatment of you, and am pleased with the result. My general health is much improved, my lameness already is very slight, and what seems most remarkable, the enlarged joints are considerably diminished in size. I willingly state these facts that like sufferers may be induced to try the remedies and receive the same benefits.

Yours gratefully,
H. B. HAMILL, Dredge "Hamill," Toronto.
