

PEACE AND SECURITY COMPETITIONS FUND

Annual Report Special Supplement Peace and Security Competitions Fund

In the first competition of 1991/92, applications were received for sixty-five projects in the Research and Public Discussion/Information categories. Thirty-seven contributions were approved as shown in the following list. Sixty-three applications were received for the second semi-annual competition but the announcement to shut down the Institute was made before they could be finally dealt with. The government requested that no new commitments be undertaken and the fate of this second batch of applications was still being discussed with Treasury Board and the Department of External Affairs at the time of preparation of this report.
