Bacon exports, 1777

Banking and Commerce com., proceedings, privilege, 2472

Budget, 1662. Opportunity for government

to use large majority in remedying some of our domestic grievances and problems; certain matters which should

engage attention of parliament; budget

barren of real remedies for internal

problems, 1662; no current government

policy indicating any permanent

remedy for unemployment conditions;

reasons for entering into

Ottawa trade agreements in 1932;

loss of European markets because

of high tariffs against Canadian

exports; abandonment by Liberal

party of attitude in 1932 against

trade agreements, 1663; external

trade not the solution for our

domestic problems; analysis of principal

increases in exports of alcoholic

beverages and wood products;

increase in exports of metals due

to war scare in Europe; decrease

in export of motor trucks and auto-

mobiles, 1664; diminution in export

of fruit, agricultural products and

manufactured goods; accumulation of

wheat under previous government

policy; decrease in exports of fish

and distress among fishermen; control

of distribution of fish by

National Fish Company and dis-
