

In conclusion let me say that I think that statistics of the kind submitted may not always indicate the proper conclusions to be drawn. Our principal comfort comes from the statement made by the Dean of the Faculty of Arts and Science in his last annual report, in which he says,

"the students entering McGill University from this province are not inferior to those coming from other provinces."

However, we must never be satisfied with things as they exist; we must do all in our power to make progress.

Ever yours faithfully,

Principal.
