JAMES HILL, of No. 8, Ford lane, Charlestown, Pendleton, near Manchester, who is upwards of sixty years of age, says he was attacked with inflammation of the chest, which confined him to his bed for a long time in a very debilitated state, with a most distressing cough and spitting; after taking various kinds of medicine without the least relief, he at last commenced taking Parr's Life Pills, and having taken three boxes, was completely restored to health, and is now much stronger than he has been for some years, and has recommended them to many persons, who have taken them and received the greatest benefit from their use, and is ready at any time to attest the above.

Witness, John Hatton.
