One hundred and ten feet of drifting has been done on the new body, and the first attempt to cut this new vein at the lower level will be made next month."

The new vein at Right of Way is ton of silver.

"This year will be the greatest that Porcupine has had," said Charles L. Sherrill of the Foley-O'Brien Company. "There will be quite a large increase in output and I expect to see many of the newer properties come to the front."

The directors of the Cochrane mine have returned to Toronto after a visit to the property, but beyond stating that everything is going along satisfactorily, no other news will be given out for the present. The stock is holding strong against an otherwise

We look for the atmosphere of the market to change as suddenly as it did a few days ago and counsel purchases at present levels. Great Northern.
