MEET OF THE HOUNDS.

## Expect Great Winter Race Meet at Havana

The meeting of the Cuba-American Jockey Club at Oriental Park, Marianao, a suburb of Havana, which is scheduled to open on Dec. 16 and contine for eighty-two days, closing March 19, offers substantial inducements to owners of thorobreds to pass the winter months in Cuba.

The plant is said by those who have inspected it to be up-to-date. It has a club house and grand stand that are perfect for the purpose for which they were designed, and the best people of the island patronize the sport. President Menocal of the republic is the honorary president of the jockey club, and he is an enthusiastic supporter of racing, being a frequent visitor at Orient Park, accompanied by the members of his family. Others prominent in the political and social life of the capital are regular attendants, and racing is a thoroly established institution and part of the life of the island.

H. D. Brown, who is the general manager, has this to say of the prospects for a successful meet:

"We are looking forward to the approaching season with the greatest confidence. Cuba is richer by $250,000,000 than she was a year ago, owing to the high price her planters have received for their sugar. With this prosperity, backed by a perfect climate, it will be our endeavor to furnish the people of the island and those visitors who honor us with their presence and the war in Europe should send a world of tourists south during the winter—with the highest quality of sport. The first eight days' program is now in the hands of the horsemen. There will be no purse of less than $400, and each day there will be a handicap of a value of $500 or more. Instead of the stereotyped stakes we shall offer one or more handicaps of a value of $1000, for which the best horses in training will be eligible. Owners will thus have an opportunity to race for good money and escape the declaration fees which are the horseman's nightmare.

"With the desire to give our patrons that medium of speculation which they prefer we shall have both bookmaking and mutuels. Some of the best stables have promised to take part in our meeting. We are prepared to take care of 700 horses comfortably.

"The racing will be in capable hands,' said Mr. Brown in conclusion, "C. J. Fitzgerald having been secured as presiding steward, while James Milton will start the horses. P. A. Brady will be presiding judge with Martin Nathanson as associate. C. F. Flynn will be secretary-treasurer, and C. H. Lansdale and A. T. Dobson will assist Mr. Fitzgerald in the government of the sport."

Reports from the board of trade in Havana indicate that the tourist season this winter will be one of the best Havana has experienced in many years. Aside from this the tremendous price that the planters obtained for their sugar crop has resulted in money being plentiful among the natives.

## War's Effect on Sport At English Varsities

From London Sporting Life.

The prevailing feeling at the opening of the new 'Varsities' year was that of depression. Newcomers found Oxford and Cambride as unlike the traditional seats of learning as chalk is from cheese, for one thing, while both universities are in deep mourning. Outside the appalling list of wounded and missing, over 540 Oxonians and close upon 500 Cantabs have already been killed or died from wounds received in action. Some high in authority, notably an Australian state Premier, are of opinion that Oxford and Cambridge have done more than their share in sending so many young men to their fight and die, but nobleesse oblige is as true now as ever it was. Until exhausted, the supply of O.T.C. men will still go on.

Fifteen months of such depletion means, of course, a grave shortage of men this term. Barely a tithe of the usual number of undergraduates are in residence. The "Freshers" are 75 per cent. fewer than at the corresponding period of 1913-14, and only a few "seniors" have materialized. The undergraduates in evidence largely consist of overseas students, and English public schoolboys and, to their credit be it said, the majority of the latter are already busily engaged in O.T.C. work with a view to active service later. By their cheering friendliness, the Americans in residence are doing valuable work in another direction.

It is now clearly understood that systematic or competitive sport is absolutely out of the question until the war is over. Exactly what scope will be afforded recreative sport—that taken by way of exercise, or, so to speak, educationally—is hard to say just yet. As a rule, it does not take light and dark blues long to settle down, but things are different today. That football, hockey and kindred games must needs be played only stands to reason. They are imperative as regards both physical fitness and coaching—with a view to later on. Failing any of the senior Varsity men in residence, I have authority for saying the initiative will again be taken by those gentlemen responsible for such commendable activity last year. As far as possible, army contests will be a feature. And the American students will be sure to arrange some sporting fixtures.

The sports more closely allied to a military training—hunting, beagling, boxing, gymnastics, and fencing—are necessarily under a temporary cloud. All have been practically drained of devotees up to date. It would be impossible to run the Cambridge drag hunt, for instance, while I much doubt if 1914-15 a rule, it does not take light and dark blues long to settle down, but things are different today. All have been practically drained of devotees up to date. It would be impossible to run the Cambridge drag hunt, for instance, while I much doubt if 1914-15 a rule, it does be followed in the case of the sister hunt. Beagling will still be carried on at Oxford, on a lesser scale, but fencing and gymnastics will probably languish. It is to be hoped "the noble art" will be warmly supported by everybody in residence at both universities. It is essentially a military pastime, and can be pursued as part and parcel of O.T.C. training.

Several points of sporting interest have been specially emphasized during the long vacation. It has been indisputably shown that the late Lord Moncrieff was the inventor of the three-stride system of hurdling, and Mr. L. M. Tiffany (Emmanuel College, Cambridge), its first professor. A long controversy has thus been closed. A much-vexed boat race question has also been cleared up; that regarding the four years' limit qualification. It has been authoritatively ruled that "no such limit exists in writing, and used not to exist in practice, but it is now perfectly well understood that no one may now row more than four times in a Varsity race." Another controversy is, therefore, terminated. Apropos the boat race, it has, moreover, been pretty conclusively proved that the late Mr. R. Lewis-Lloyd (Cambridge) had, up to 1914, been present at more contests than any other man. He saw 54 races. Mr. W. B. Woodgate is, however, likely to beat his record, as everybody hopes he may.

## SUBMARINES SANK BRITISH STEAMER

Thirty-Four of Crew of Armed Merchantman Tara Are Missing.

LONDON, Nov. 8. — The British armed merchantman Tara was attacked and sunk in the eastern Mediterranean by two German submarines on Friday last, according to an official announcement made this afternoon by the Official Press Bureau.

The text of the statement follows:

"On the 5th instant, His Majesty's armed boarding steamer Tara, Capt. Rupert Gwatkin Williams, was attacked by two enemy submarines in the eastern Mediterranean and sunk. Thirty-four of the crew are reported missing."

The steamship Tara, prior to receiving a commission in the British navy, was in the service of the British India Steam Navigation Company, Limited, of Glasgow. The vessel was of 6322 tons gross and was built in 1902. She was 446 feet long, 53 feet beam, and was 29 feet deep.

ANOTHER STEAMER SUNK.

LONDON, Nov. 8, 6 p.m.—The British steamer Buresk, of 2708 tons and Glenmore of 1656 tons, have been sunk. The crews were landed.

SWEDISH STEAMER SUNK.

COPENHAGEN, via London, Nov. 8, 8.51 p.m.—The steamer Birgit has been sunk by a German submarine, which landed her crew near Gefle, Sweden. The captain of the Birgit says the submarine carried a crew of 32 men. The Birgit was a small Swedish steamer.

## COL. CASGRAIN RETURNS FROM DARDANELLES

Canadian Medical Man Invalided to England for Two Months.

By a Staff Reporter.

OTTAWA, Nov. 8.—Col. Casgrain, brother of Hon. T. Chase Casgrain, postmaster-general, who went with his hospital unit to the Dardanelles, has arrived in England, but he is still very ill, according to word received here today. He will not be fit to return to work for two months.

A question having arisen as to the effect of the canteens at Shorncliffe an official report shows that the Canadian troops there have for months not averaged one per cent. of drunkenness.

The convalescent home in England, donated by Sir Melvin Jones, has been located at Ramsgate. It is known as Chatham House, and is now being fitted up.

Col. Wedderburn will raise a regiment in one of the counties of New Brunswick.

Lieut. Wanklyn of Montreal, who was badly wounded at the front some time ago, is returning to Canada while convalescent.

## BULGARIANS GLOATING OVER TAKING OF NISH

"Bulgarian Flag Hoisted to Remain Forever," is Boast Made.

BERLIN, Nov. 8, via wireless to Sayville.—An exchange of telegrams between Gen. Jecoff, Bulgarian commander-in-chief, and Premier Radoslavoff of Bulgaria, upon the capture of Nish by the Bulgarians, is recorded by the Overseas News Agency in a despatch from Sofia, which quotes Gen. Jecoff as telegraphing:

"After fierce and sanguinary fighting the fortress of Nish has been conquered by our brave, victorious troops, and the Bulgarian flag has been hoisted to remain forever."

Premier Radoslavoff replied: "The capture of Nish, where the national flag will wave forever in honor of the emperor and the dynasty, and to the glory of our brave Bulgarian soldiers, has afforded great joy to me and my colleagues. The council of ministers send salutations for the victorious flag, which so completely upholds the policy of national union."

## TROOPS GIVEN WELCOME BY BELLEVILLE PEOPLE

Two Companies of Eightieth Battalion Arrive in Winter Quarters.

Special to The Toronto World.

BELLEVILLE, Ont., Nov. 8.—Companies A and B of the 80th Battalion, which has been in camp at Kingston for some time, arrived here today under command of Lieut.-Col Ketcheson, commanding officer of the battalion. There were 500 officers and men, and they were most cordially received by the citizens, being escorted to the barracks formerly occupied by the 39th Battalion. Mayor Panter, on behalf of the city, extended a welcome, and the women members of the Belleville Rifle Club served luncheon. Recruits who enlist in the city will be added to the strength of this battalion.

## FRENCH SHIPOWNERS FACING COURTMARTIAL

Charge Made That Codfish Supplied Was Treated With Acid.

PARIS, Nov. 8, 5.30 p.m.—Two shipowners, Louis Gasse and Emil le Borgne, who had supplied the government with 11,000 tons of codfish, have been placed on trial before a court-martial. A large quantity of the codfish, it is alleged, was found in a spoiled condition, but the specific accusation is that some of it had been treated with acid, which is contrary to law. The verdict in the case has not yet been rendered.

## WHITLOCK WORN OUT BY CONTINUOUS LABOR

THE HAGUE, Nov. 8, via London, 5.40 p.m.—"I was advised by my physician two months ago that rest was imperative," said Mr. Whitlock. "I am now taking a portion of the leave of absence to which I am entitled under the regulations, after 15 months of unbroken labor.

"I expect to spend a few weeks at my home in America and return to Brussels at the end of December. My journey has no political significance whatever."

## KELLY TO APPEAL AGAIN.

Contractor Meets Fresh Reverse in Courts.

WINNIPEG, Nov. 8.—The court of appeal today refused to grant the appeal of Ed. Anderson, K.C., counsel for Thos. Kelly, against the decision of Mr. Justice Curran, who held that criminal proceedings against the Parliament Buildings contractor didn't prohibit continuance of suit for recovery of over-payments made by the Roblin Government to Thos. Kelly in respect of the new Parliament Building contract.

Application will be made for leave to appeal to the privy council.

## BUNKERS AFLAME ON FRENCH LINER

Rochambeau Reports Coal Afire in Hold, But Ship in No Danger.

HEADS FOR HALIFAX

Officials of Company Believe Ship Will Be Saved.

NEW YORK, Nov. 8.—The French line steamship Rochambeau, two days out of New York for Bordeaux, reported by wireless today with fire in her coal bunkers, was presumably steaming tonight for Halifax, the nearest port. Her exact position was not given in the single wireless message that brought news of her plight to land, but is was estimated that she would make Halifax some time late tonight, or early tomorrow.

Aboard the burning steamer are approximately 650 persons, 421 passengers and a crew of about 230, and a large cargo of war supplies, including 2541 cases of cartridges and 136 bales of cotton.

The fire which turned the vessel from her course toward the northern port of Halifax, is deep in the hold, in the bunkers where is placed the reserve supply of coal. Its exact location, is No. 5 reserve coal bunkers, located amidships. The message said that the vessel was in no danger, and from its tone, officials here of the French line inferred that the situation was not a serious one.

Fire Not Serious.

"We are not alarmed," said Paul Faguet, general agent of the line. "Bunker fires are not uncommon, nor are they very serious as they are away from cargo space. There is every reason to believe that the fire is not serious. If it were, Captain Juham would undoubtedly have given his position, and S. O. S. signals calling for help would have been sent out."

The Rochambeau left New York Saturday afternoon. It was estimated that she had sailed 600 miles when the wireless message was received today. This would still keep her within the ocean lane traveled by the big transatlantic liners, and there is reason to believe that at least three ships are within close steaming distance, available for aid in emergency.

Plenty of Lifeboats.

Lifeboats and liferafts for all aboard, and to spare, were on the Rochambeau when she sailed, according to the line's officials. It was estimated that life-saving accommodations were aboard for 1500 persons, more than twice as many as sailed.

The big cargo which weighted the steamer low in the water as she sailed away, consisted chiefly of iron and steel, machinery, copper and steel wire, brass rods, empty shells and guns. So far as could be learned tonight, the 2541 cases of cartridges were the only explosives aboard. Chief of the inflammable material was the relatively small amount of cotton.

Inasmuch as ship after ship laden with war supplies for the allies has sailed out of New York within the past eight months with bombs secreted in the hold, and in many cases these bombs have exploded, maritime men are wondering if this is another similar case.

Pte. Caillard Discharged.

PETERBORO, Nov. 8.—Pte. Henry Caillard, who was in the Peterboro branch of the Bank of Montreal before enlisting with the Second Battalion for active service at the front, has received his discharge, after being severely wounded at Langemarck. He has been in hospital and at convalescent homes for the past six months. Before coming to Canada he spent five years at the University of Louvain, which the Germans destroyed, and his knowledge of the languages enabled him to act as interpreter for the Second Battalion in France and Belgium.
