

then cut by a heavy rotary veneering machine. The sheets of veneer are then cut into the shook sizes. For orange boxes the shook is 28 inches long, 10 inches wide and 1-6 inch thick. For lemons the sizes are the same except that the width is 11 inches. The shooks are put up 40 pieces, or ten boxes, in a bundle, and an ordinary cargo contains about 250,000 boxes. The box is made of four of these pieces with three thicker pieces at the ends and in the middle. The thick wood is mainly an Austrian product, though Mr. Stewart ships about 500,000 sets annually. One potent reason which induces the Italian shippers to buy boxes in this country is that the United States gives a rebate of 15 per cent. on re-importation. The hoops or straps that bind the boxes are produced from an Italian chestnut.

Speaking of the export trade, it is reported that the shipments of American pine and spruce to Germany are being seriously interfered with by a new product which comes from Hungary. About 200,000,000 feet were secured from that source last year, it is said, all of which has cut out just so much pine of Swedish, Canadian or American origin.

MEDICAL ATTENDANCE IN LUMBER CAMPS.

Dr. H. P. Bryce, Secretary of the Ontario Board of Health, is working energetically to improve the sanitary condition of lumber camps. He is sending a circular letter to all lumbermen in regard to the matter and calling attention to the new Order-in-Council concerning medical attendance in lumbering and mining camps in the unorganized portions of New Ontario. The Order-in-Council is as follows:

Regulation 12 of Regulations for the Sanitary Control of Unorganized Districts be amended by the following section, known as sub-Section "A":

Employers of labor on all works in such districts shall transmit, at the time of the contract, to the secretary of the Provincial Board of Health, the name or names of the physician or physicians employed by them under the act, and of any subsequent change made in their physicians and of the contracts between the two contracting parties.

Should it appear to the Provincial Board of Health, owing to the distance of the residence of the physician employed from the camps of the company, that the best interests of the employees are not likely to be served, it shall be competent for the Provincial Board of Health with the approval of the Minister of the Department, to require any employer of labor in such

districts to contract with some physician residing at or near the works of the company.

Should it further at any time appear, owing to the distance of the physician from the camps, or to neglect or other cause on the part of the company or of physician employed, that employees have been put to expense to secure medical assistance for sickness or accident other than of Company's physician, the employer and physician shall be held responsible for the payment of a reasonable fee for such medical services,

spring and find that it does better work than any saw we have yet used. It is the "Hoo Hoo Tyee," Four cutters and the Raker. We have taken a picture of some of the work this saw has done and we are sending you one of them. We are ready to do this work again with the Tyee Saw. Have been the means of selling a good many of these saws and are ready to recommend them to anyone for use in large or small timber. The tree we cut was yellow fir, 50" on the stump inside the bark and 30" at the top, and we made 70 cuts in 13

the amount to be paid in such instances to be determined in case of dispute by the Minister of the Department, under Section III of the Act, Chapter 341 Edward VII.

A GREAT ACHIEVEMENT.

The following letter in connection with the illustration herewith is a voluntary testimonial to the superiority of Atkins Saws.

LANGLEY PRAIRIE, B. C., May 3rd, 1903.
E. C. ATKINS & Co., Portland, Ore.
GENTLEMEN,—We have used one of your saws this

hours and 40 minutes. Made about 20 cord of stove wood and have proof of same if asked for. This is the first of these Tyee saws to be used in these parts, but we can promise you that it will not be the only one in a short time.

Yours truly
(Signed,) WM. J. NELSON,
JOHN MURRAY.
