World's Visible. World's visible supply of wheat now amounts to 175,560,000 bushels, about 40,-600,000 bushels mere than last year.

Snow's Crop Report. Snow says: A few complaints of weather too dry for fall sown wheat in Kansas and Oklahoma are coming in, but records of years show that a dry seed bed and fall in the southwest furnish the best condition for a vigorous crop. Too heavy fall growth invites winter killing, while a dry fall insures good rooting. Winnipeg Wheat Market, Wheat—November 89%c, December 88%c, Oats—November 32%c, December 33%c, May 27%c.

Broomhall's Cable.

Broomhall cabled as follows:
Australia—Our agent at Sydney cables that further good rains have fallen in New South Wales and prospects have improved. The crop elsewhere is in need of rain and the outlook is less favorable. Russia—The weather in the southern belt is mi'd and rainy which is favorable. This condition is also favorable for the continuance of navigation at the ports of Azoff Interior movement continues fairly liberal and stocks increasing and holders are offering liberally at a further decline.

Argentine—Crop prospects are considered excellent everywhere with the exception of the north. The recent rains were general and prospects in the north show much improvement.

TORONTO LIVE STOCK.

The railways reported % carloads of live stock at the City Market, a large percentage of which contained cattle.

It will be seen that receipts were agani heavy, especially in the cattle list.

Trade was slow and dragty all day, the market closuig with a goodly number unsold.

The best feeders sold about the same as on Tuesday, but the light, rough class were easier.

Milkers and springers sold at strong prices, at from \$.0 to \$.0 each.

Veal calves, sheep, lambs and hogs were easy at Tuesday's quotations, in The World of Wednesday.

James Ryan bought 12 milkers and springers at an average of \$62 each from McDonaid & Halligan. Mr. Ryan stated that there were three cows in the lot, worth \$30 each.

McDonaid & Halligan also sold seven milkers and springers at \$70 each to Jas.

Receipts at the Union Yards for Wednerday were three carloads, consisting of 4 cattle, 16 calves and 160 sheep and lambs.

Coughlin & Co. sold: 26 northwest butchers, 980 lbs. each. at \$5; 24 northwest deliverance of Cuba.

Continuing he said: "Now I will tell Erickson Perkins & Co. had the following: Wheat-Market opened weak under pressure of further liquidation sales, and sold ic below last night's closing figures before any rally took place. The buying was to cover shorts and by local elevator interests. The market held most of the advance up to the close, the absorption of offerings, by large elevator interests and commission houses, having a steadying effect. It is hardly to be expected that the market will decline every day, but for a long pull, we look for a decidedly lower rarge of values and advocate short sales on rallies.

Corn-Trade was light and fluctuations

The Gloucester mackerel season has been a dismal failure.

Corn—Trade was light and fluctuations small. Local professionals were on the buying side. While the short seller may have to exercise some patience, we believe that sales of May corn on strong spots will prove profitable. Epilepsy, Spasms, Oats—Fluctuations were within a small compass. Local increases were good sellels of May oats early, while later they appeared as buyers of the December future. The cash-market was firm owing to light receipts, but eastern demand was dull. We believe May oats will sell lower. St. Vitus' Dance

We have advised the purchase of Gould Consolidated for upwards of three weeks. When we said buy, Gould was about 21-2 cents a share, yesterday it Gould, and to those who want to sell we state there is a good market. To our clients and those who want something more than an immediate speculation, we say if you have Gould Consolidated hold it, if you have none buy some. Sir J. Simon Defeats Unionist Candidate by Increased Majority. A. J. Barr & Co., 43 Scott St., Toronto LONDON, Nov. 2.-In the Waltham

stow by-election Sir J. Simon, Liberal, was elected, polling 16,673 votes aganist 13,907 cast for J. S. Johnson, the Unionist ionist candidate.

Walthamstow went Liberal at the general election of 1885 by 175. It was then Unionist till the by-election of then Unionist till the by-election of 1897, when it went Liberal by 279. At the khaki election of 1900 it went Unionist by 2465. In 1906 J. A. Simon, Liberal, was elected by 3937.

Mr. Simon held the seat in 1910 by 2205 and on his appointment as solicitor-general Mr. Simon, now Sir John Simon, had to return to his constituents, and has been re-elected by a ma-

ents, and has been re-elected by a ma-

ents, and has been re-elected by a majority increased to 2766.

Walthamstow, or Southwest Essex, is an industrial constituency, being mainly peopled by unskilled workers who earn their wages in London, but live in Walthamstow. Many of the prominent Unionists wished Sir John Simon to be returned unopposed but Simon to be returned unopossed, but, allowing for this cause of Unionist weakness, the election indicates that the Asquith government is holding its give you an opinion on the future prospects of each.

Cruelty to Cattle.

Once more t e C.P.R. was charged with cruelty to animals in police court yesterday morning. The basis of this charge was the shipment of six ca-loads of cattle from Winnipeg to Toronto, which were fed only at White R ver. They we resigned from Henry Murby to Chare Maybee of Toronto. The cale was adjourned.

Cobalt -- Lifeless Trading on Mining Ex-changes With Some Decline in Evident

tures in the list, but the outstanding tendency was undoubtedly toward lower levels. That prices held as well as they did was due to the fact that excellent buying came into play at the lower figure, speculators having become seized with the idea that the reaction had gone far enough.

Right of Way was the centre of a small flurry, which carried these shares up over a point to 34. There was no news to account for the movement, and the advance was set down as one of the vagaries of the market.

Gould was in good demand and under a strong call for the stock made a small advance. Buying orders were in evidence at the close around yesterday's figures, and the bid price was maintained at 4.7-3 at the call.

The general list of cheaper issues was weak, with declines in Little Nipissing, which lost over a point at 22, and Hargraves, which dropped a like amount when selling orders came into the market. Lower prices were also in order in respect to Beaver, City of Cobalt, Rochester and Peterson Lake.

Trading thruout the session was dull and the market was clearly suffering from an oversupply of stocks on sale.

The decline in the Cobalt Stocks at present is nothing more than a speculative proposition. Traders who watch the market closely are now sellers on the belief that they can scare out holders. This is a clear case of bluff, but if holders of stocks have any stamina they will keep their shares and buy more when prices are offered down. Only a small amount of real stock is being sold and this is coming from those who bought two months ago and are now taking profits. In our judgment the pressure on prices is fictitious and we expect a change at no distant date. We are satisfied that higher prices will rule later on and are firmly of the belief that Beaver, Chambers-Ferland, Right of Way, City of Cobalt, Peterson Lake and Hargrave are worth much more than they are now selling at. For a cheap stock Gould Consolidated offers exceptional opportunities. Write us for information. STEWART, B. C Portland Canal and Nass River lands—timber mining. BARKER & BARKER MINING STOCKS LISTED and UNLISTED SECURITIES Tel. M. 2866. ed 14 King St. East-

The Cobalt market affords as good opportunities for investment or speculation as the larger exchanges, and with much less risk, because the Cobalt stocks are bought outright. A spell of weakness, owing to profit-taking, is now in effect in some of the mining issues, and advantage should be taken of this to gather in the shares, which will sell higher in a short time. We have strongly recommend purchases of Timiskaming and Chambers-Ferland and can Write for information on these or any other of the listed or unlisted mining securities.
