Eddy Gardens, Offered to the Public To-day, Splendid Opportunity For Investment.

Throughout the week Messrs. J. C. Hayes & Co. have been talking to the public thru the columns of The World bout their handsome property, Eddy

Gardens, in North Toronto. Considerable comment throughout the city has been the result.

The Eddy Gardens are located just outside of North Toronto and for suburban property it is certainly among the best in Toronto. Unlike most sub-divisions heretofore offered to the public, these lots are laid out to give every purchaser a lot 80 x 250 feet.

The land is most fertile, having been used for 17 years for market garden purposes. \ An added feature is the presence of from 40 to 60 trees on each lot or an abundance of bearing berry bushes.

The property is gilt-edged as an investment, and sure to increase in value. At the prices asked, viz., \$600 to \$1500, this is an exceptionally good

Attention is called to the fact that Eddy Gardens salesmen will meet all cars at C.P.R. crossing North Toronto. Saturday afternoon. Real estate is very active in North Toronto. Do not confuse other pro-perties with Eddy Gardens.

OPPOSE NEW WATER RATES Manufacturers Don't Like Idea Extra Expense.

It is understood that the manufac turers are etrongly opposed to the pro-posed changes in the city's water rates and that they take the ground that it would saddle them with too much extra expense.

"It means that the manufacturers of Toronto would be called upon to pay upwards of fifty thousand dollars per year more than they do at present." said one prominent manufacturer to The World.

According to bylaw, the present rates to manufacturers are 6 1-4 cents per thousand gallons, less twenty per cent. discount. Meter rents are also The proposed new rates would make

the tariff 12 1-2 cents per thousand gallons up to one million gallons, all quantities used above this to be paid for at 9 cents per thousand gallons. Discount to be twenty per cent. Meter rents to be abolished.

I want to talk to those people who have doctored and drugged in vain; to those sufferers who have thrown away their money on patent nostrums and other worthless treatment. You are tired of spending your money and getting nothing in return. You want a cure. I'll give you that:

Thave the grandest remedy of the age—electricity as applied by Dr. McLaughlin's Electric Belt. I can show you people who had suffered for years with rheumatism, kidney and liver complaints, debility, weakness and other chronic disorders, who never received any permanent relief until they used my Electric Belt.

I don't sell my Belt with the simple assurance that it will cure you. I'll find out first if your allment is curable by my method, and tell you whether or not it will cure you before you pay me a cent. If I can't help you I don't want your money.

If you want to get well and stay well, you must help nature remove the cause of your allment. Doping the nerves and vitals with poison will fool nature for a while, but that doesn't cure the trouble. Nature must have strength, vitality, new life and energy for the weak, inactive organs of the body. Electricity supplies this strength and life, and that is how it helps nature cure.

Dr. McLaughlin's Electric Belt is the most successful as well as the best electric belt made. It does not hook or burn, and the current can be regulated to any degree of strength.
