CADETS AND THE RIFLE.

Editor World: The action of the three boy-soldiers, Lieut. Ross Shaver of the Dundas High School and Lieuts. Hartney and Macklem of the Harbord-street Collegiate Institute Cadets, in traveling all the way to Ottawa to test their skill against the veterans of the Dominion Rifle Association, is a notable event in the history of military annals of Canada. Backed up by success as this plucky action is, it is all the more inspiring to the youthful defenders of Canada to strive towards efficiency in this important branch of the military art. It is the savage thirst for war that is engendered by this training of the boys in drill and manliness. It is a respect for law and order, a feeling of patriotism and a sense of responsibility in the public interest. It is not the one who knows the rifle best who loves it for its fine precision and the possibilities it possesses for seconding a perfect condition and harmonious self-control of the human nervous system, that is most anxious to turn it in deadly conflict against his fellow men. Familiarity with and skill in the use of the rifle breeds, not contempt, but respect, for human life and caution and awe in the use of that deadly kills. Rifle shooting has been described as the cleanest sport a gentleman can engage in, inasmuch as it is an agency of self-discipline, it is a noble Canadian. No one will accuse Lord Roberts, one of the most eminent and undoubtedly one of the most Christianlike soldiers of modern times, of a thirst for war. Yet he is in favor of teaching the boys to shoot, and about well. Mitchell, Shaver, Hartney, Macklem and others of their kind have taught Canadian boys that this can be done. Public Spirit.

DECORATE FOR THE FAIR.

Editor World: What a pity the citizens do not do more in the way of decorating the city in honor of the fair. The downtown streets, at a touch of color up-town would not be out of place. It would make the city look more attractive, and a certain amount of pride in appearance, especially now that the city is filled with our cousins from across the border and from the country, would not be out of place. Very few flags are up—none worth speaking of. A generous display of flags and bunting would help things a lot, while window decorations, incandescent lights and Chinese lanterns would add very much to the gala-day effect which might be produced. But for the unusual crowds about town and the signboards on the street cars one would scarcely know that the greatest fair in the history of the country was in full swing. By the way, what's the matter with the railway company putting a flag or two on each of their cars? This would do much to give the town a holiday appearance, and if they cared to string incandescent lights on the cars also, so much the better. They would never miss the outlay from those enormous exhibition receipts, and the flags would help to offset the mischief done by circulating thousands of armory pictures bearing the Stars and Stripes. Canuck.

POINTER FOR RAILWAY CO.

Editor World: In view of the fact that the city is crowded now with thousands of strangers who are not familiar with our street car service—and many of whom are passed on the streets every day by reason of not knowing on which side of a crossing to board a car—would it not be a good thing if each street car carried a conspicuous placard on the front side, reading "Cars stop on near side of crossing only," or words to that effect? J. P. T.

Last Chances. Free bathing places will be closed away with the exception of the luncheon, which will be available 1 October.

HAMILTON HAPPENINGS

CONFEREES YET FAR APART

WAGE QUESTION DIVIDES

Possibility That Car Men May Still Strike—Accident at Harvester Works.

Hamilton, Aug. 29.—(Special.)—The conference this afternoon between the representatives of the Street Railway Employees' Union and the Cataract Power Company was not so much of the matter of fact variety as was expected. It was announced that the wages question would be taken up at the meeting, and the general opinion, judging from the tone of Traction Manager Greene's remarks the other day that the men would have no difficulty in obtaining the increases asked for.

When the meeting dissolved this evening, however, the union representatives admitted that the vital question had not been settled, and that the chances for a settlement were not any too rosy. Mr. Green said the other day that the company was not opposed to giving the men an increase, but from the few brief remarks dropped by the union representatives to-night the company representatives were not any too willing to take any action in that direction at the meeting this afternoon.

President Theaker of the local union, who was at the meeting, refused to make a statement further than that the question was discussed, but that no settlement was arrived at. He said at another meeting would be held in the morning.

When asked to-night whether or not he thought that there might still be a strike, Magnus Sinclair, Canadian representative of the International Union, replied to the effect that he would not be sure that there would not be one. He said the main question at issue had not been reached, and from the present indications it did not look as though matters were going to be arranged as easily as anticipated.

It is possible that W. D. Mahon, president of the International Union of Detroit, will leave for home tomorrow. Severely burned, 163 North Caroline-street, an Australian employed at the International Harvester Company's Works, was severely burned while at work this afternoon. His left leg was badly injured. He was taken to the City Hospital.

Garment Workers' Visit.—About 200 delegates to the Garment Workers' convention at Toronto, and their friends, came up from Toronto this afternoon and were entertained by District Council No. 14 at the Mountain View. Supper was served in the pavilion. J. H. Barnett, Toronto, a member of the international committee of the Iron Molders' Union, was present and made a brief address. Samuel Haines, international organizer, introduced the visitors. After enjoying the view from the mountain the delegates returned to Toronto on the Turbina.

Medical Officer Dr. Roberts is in a quandary as to how to proceed to carry out the recommendations of the provincial board of health with regard to abating the nuisances at Stroud's cattle byres. The doctor thinks that the proper way to conform with the wishes of the board would be to order the sheds to be torn down. George S. Kerr, solicitor for Mr. Stroud, threatens legal action in the courts if the health officers go too far in attempting to force him to improve his place.

The **Winnipeg Steamship Company** of this city has been incorporated, with the following officers: R. O. Mackay, A. E. Mackay, John E. Milne, Duncan Brown and J. Jordan.

Edward Gleason and John Bierman, who were brought from the Central Prison, where they served terms for pocket-picking, were committed to trial at the police court this morning for stealing two watches here last January.

The Toronto Daily and Sunday World delivered to any address in Hamilton from 7 a.m. to 10 p.m.; Sunday, 8c per copy. Hamilton office, Royal Hotel Building, Phone 957.

Martinas Cigars, 5 cents, to-day, at Billy Carroll's Opera House Cigar Store.

SCHOOL CHANGES.

Management Committee Has Lot of Business on Books To-Day.

When the management committee of the board of education meet this afternoon for the first time since the holidays the members will find a mass of work. In the technical high school and the collegiate institutes many changes and appointments are in contemplation. Principal Packenham has recommended the appointment of Wm. Ward, M.A., to succeed the late Mr. Dandy on the commercial staff.

Miss Lawlor has asked to be transferred from Harbord to Jarvis-street Collegiate. Principal Embree is said to favor the exchange, and has also recommended the acceptance of the resignation of ex-Principal Manley, to be replaced by the other teachers appointed in July.

A large number of transfers among the public school teachers are recommended by Principal Hughes, while the following teachers have been definitely appointed to these schools: Ervill formerly on the staff in Dufferin School to Givens-street School; R. W. Ross Down, to Church-street School; Wm. M. East to Winchester-street School; Miss M. H. Douglas, to Morse-street School; Miss E. M. Evans, to Ryerson School; Miss E. Campbell to Sackville-street School; Miss M. B. Dickson, to Sackville-street School; Miss J. I. Irwin, to John-street School; Miss L. M. Madry to Sackville-street School; Miss J. Richardson, to Borden-street School.

Notwithstanding the energy and push which have characterized the department presided over by Superintendent Bishop during the vacation season, a number of schools will not be in complete working order when school reopens on Tuesday morning. Palmerston and Dovercourt Schools, where six rooms are being added, will not be ready, while work on Kenilworth-avenue School has not been begun.

NOTHING IN IT.

So Says President Mackenzie, and He Ought to Know.

William Mackenzie of Mackenzie & Mann made short work of the story from Winnipeg, that the C.N.R. and G.T.P. had pooled their issues and were about to build a railway from Regina through Saskatchewan and Manitoba to Hudson Bay.

"The report," said Mr. Mackenzie, "has no foundation in any manner, shape or form. Then he smilingly added: 'This is the first I've heard of it.'"
