Controller Jones Would Also Have City Build Its Own Transmission Lines.

LERS TALK POWER

At Monday's meeting of the city council, the electric power bylaw will be submitted, since the board of control did the needful yesterday in agreeing to send the bylaw forward. The question that will be dealt with by the aldermen will be that of submitting a bylaw to the ratepayers to authorize the city to contract with the hydroelectric power commission for the delivery of 15.000 24-hour horsepower at from \$14 to \$18.10 per horsepower, the supply

\$14 to \$18.10 per horsepower, the supply of energy to be used as power and for heating and lighting purposes. Controller Jones suggested that if this bylaw carried a second bylaw might be submitted to the ratepayers for an expression of opinion on the city's applying for leave to build its own transmission lines, after which de-bentures could be issued for this out-lay also. This would strengthen the government in its fight "against big odds." the controller asserted. Mayor Coatsworth objected that to do this would be to run counter to the plans of other municipalities. It had been agreed at the power conference that after submitting the bylaw a further meeting should be held to ar-range for the canvassing of each muni-cipality for contracts, after which the

Dr. McLaughin, Dear Sir,—Since calling at your office on June 22, I must tell you that I am sure it was the Electric Belt that has helped me. I know that I would not have lived if I had not got it when I did, and I cannot be too thankful to you. After five years of agony that I endured, it is like having a new lease of life now. I am gaining two pounds of flesh a week, and am eating solidfood. I have been taking liquid food a month nearly, and solid food for three weeks. The people think my cure very rapid and wonderful. Many of them said I would never eat again. I am certain that you cannot advertise your Electric Belts enough. The only trouble is that there are those sold that are no good. We do not think anything of the money we spent on the Belt. I have to repeat my story over and over again every day to different people, as everyone wants to hear from myself about my cure. I never felt better than I do now. Of course, my nerves began to quiet when I began to use the Belt, and as you know, I wore it even when I was very ing every day, with plenty of food about me. I cannot speak too highly of your Electric Belt, for it is a perfect fit, and is doing just what you said it would hardly recognize me as the woman who called at your office on June 22. I think my doctor here is as delighted over my recovery as anyone can be Most sincerely. Mrs. Bertha Hamilton. Letters of this kind are coming to me every day. My files are full of them.

Letters of this kind are coming to me every day. My files are full of them. A man or woman who wears a Dr. McLaughlin's Electric Belt for a few weeks begins to feel the joys of youthful fire and courage in his veins, the strength which he lost in earlier days comes back to him, and those "come and go" pains in his back are driven out forever. Where it is used there are vigor, youthful ambitions, a light heart and freedom from worry and care.

McLAUGHLIN'S ELECTRIC

made thousands of lives happy during the past six months. You have heard your neighbor speak of it. In every locality some one speaks well of In the induction of the stand of the stand of the past six months. You have heard your neighbor speak of it. In every locality some one speaks well of Dr. McLaughlin's Electric Belt, because every town has one or more cures by it. The nature of the matter prevents the public mention of its effects by those who have benefited by it. If it were not for this fact there would not be space in this paper to print the gladsome tidings that would be produce ed. It is remedy born in nature, and is the only natural means of regaining vital force. Therefore, it is the only sure means of regaining it. Drugs have been tried and have failed; you know that; but Dr. McLaughlin's Electric Belt cannot fail; it is Electricity, and "Electricity is Life." It gives you the oil with which to set the machinery of your body in motion, and a few months' use of it will assure you health and happiness for the rest of your life. "It is worth its weight in gold to me," says a recent letter. "I would not sell it for all the gold in the Province," writes another grateful patient.

Have a Cure in Every Town. Tell Me Where You Live and I Will Send You the Name of a Man I Have Cured.

Dr. McLaughlin : Dear Sir, -I have worn your Belt for four weeks and am well pleased with it. It has done me a great deal of good. My back doesn't bother me so and I have no losses this last fortnight. Wishing you success with your Belt, I remain, yours truly. Dr. McLaughlin : Dr. McLaughlin : Dr. McLaughlin : Dr. McLaughlin :

Dr. McLaugnin: Dear Sir.-I have been wearing your Belt for 30 days, and I feel that it has done me a lot of good. The losses have stopped almost altogether, and my nerves are much stronger than they were. Yours very sincerely, "I am enjoying better health at present than I have for many years. I would recommend your Belt to anyone suffering from Rheumatism or any form of nervousness." J. HARRY DENTON. Trenton. Ont.

"Your Belt cannot be beaten for curing weakness and Varicocele." "Your Belt cannot be beaten for curing weakness and Varicocele." "I found a cure for stomach, heart, kidney and nervous troubles by using your Belt, and have not experienced a return of one symptom in two years." "Every word you said turned outtrue.
