assistance, from Sir Casimir Gzowski, Administrator of Ontario; Lieutenant-Governor Patterson of Manitoba; Lieutenant-Governor Howlan of Prince Edward Island, and Lieutenant-Governor Mackintosh of the Northwest Territories, all of whom promise active co-operation, and state that they are calling public meetings, appointing committees and trying to carry out the wishes of His Excellency. The three first-mentioned officers also intimate that their respective Governments will probably contribute.

WHAT FISHER DID.

Through Mr. Fisher's efforts the Government had just had the embargo against Canadian cattle removed by the United States, and he wished to state here that the policy of the Government would be that of more intimate trade relations with the United States. Whenever this was spoken of there was always a cry of "treason" from the Conservatives, but nevertheless that was the Government's policy. They were not going to approach their neighbors to the South in a cringing manner, asking for favors, or as annexationists, but as Canadians and as British subjects looking for friendly trade relations between the

STAND BY OLD ENGLAND.

His instructions to any commission which he may send will be to approach the American Government in that spirit, but if they expect or hope for us to go back on Old England, then we will have to close all negotiations. Referring to the tariff reform, he said that the Government wanted more information and hence the commission. He did not believe that a protective tariff would be on lines that would not disturb a single existing industry in this country.

THE SCHOOL QUESTION.

As regards the school question, he had heard that Mr. Poster was not satisfied with the terms of the setting ment. He did not expect to satisfy everybody, Mr. Poster least of all. There were only two ways in which the question conceils correctly of conceils of the conceils of t

everybody, Mr. Foster least of all. There were only two ways in which the question could have been settled: coercion or conciliation. The Conservative Government had tried the former for six years without success, while they had settled it in less than six months. Mr. Foster had one cry for Ontario, that he was through with the school question, but he had another for Quebec, where the French Conservative papers are still crying for Remedial Legislation. The speaker said that he could have had a majority of 65 in Quebec instead of 49 had he pandered to the passions of his fellow-countrymen.

ALIEN LABOR LAW. In reference to the alien labor law he thought it unworthy of any civilized nation, and he hoped to see the United

States do away with it this year, but instead he found that they were making it even stricter, so that now it was almost impossible for a Canadian to obtain work there. He would make overtures to the United States to have that law repealed, and if they refused, then, and only then, would he be in favor of putting it word for word in our own statutes.

At 5 p.m. a special train from Penetanguishene left town with the Premier aboard. He delivered an address there in French.

carried out at a figure little more than \$6000."

Dr. A; Malloch, James-street, replied: "I refuse to have anything to do with the matter while the hospital is run by the City Council, It is now managed virtually by A. D. Stewart and his confreres, and until this is righted I won't have a thing to do with your scheme. That's the plain English of it, and I think you understand me."

Dr. J. Mullin, James-street, said: "I believe the project of establishing a hospital for children to be a very good one. We need it badly here, but I say, strongly, make it altogether separate from that unclean thing, the General Hospital. We must have it quite independent of the City Council, who have run the institution into a worse muddle than it ever was. The best way is to take up a public subscrip-At Treble's—200 dozen 4-ply English collars, pure linen, always sold at a quarter; now charge 20 cents.

About the Rates of Interest for Discounts.

THE MONTREAL MANAGERS

Have Something to Say Regarding Mr. Gurney's Statement.

Branches in Toronto Are Leaning Money in the Queen City at 6 Per Cent .-Higher Rates in Canada Than in Chicago and New York - Managers Grumble at the Government for Keeping the Rate on P.O. Savings Bank Deposits Up to 3 12 Per Cent. - Montreal

Montreal. Feb. 1.-(Special.)-Mr. Gurney's statement regarding the rate of interest and the subsequent assertion that the regular bank rate in Toronto was seven per cent., caused no little interest amongst Montreal bankers. General Manager Clouston of the Bank of Montreal said that while the Dominion Government paid 3 1-2 per cent. on the money deposited in the Postoffice Savings Banks, it was use-less to suppose that the discount rate of the banks could be lowered. "We have," he said, "to pay about the same rates for deposits, and as it costs 1 1-2 per cent. to handle this money there is not much of a margin left."
"Have you a regular rate, and is the rate 7 per cent.?" the banker wasked.

asked.

"No, we are loaning money in Toronto at 6 per cent., and although this rate is pretty general there is no fixed rate. In fact we could charge as high as 10. The rate of interest is fixed by the locality, the security and the risk taken, and we charge all the way from 6 to 12 per cent."

In conclusion, Mr. Clouston said that while the Government paid 3 1-2 per cent. the banks could not expect to get money on deposit at a much lower rate, consequently he did not think there was much chance for a lower rate of discount.

MOLSONS BANK. MOLSONS BANK.

Mr. F. Wolferstan Thomas of the Molsons Bank said: "We have not an account in Toronto where more than 6 per cent. is pald. Merchants and manufacturers, who are borrowers, may think this high, but when it is remembered that money used to cost 10 and 12 I think they have little to complain of. The late Government had been approached time and again in order to have the rate of interest in the Government savings banks reduced to 3 per cent, but the prayer went unheeded, and now it remained to be seen what the new men at Ottawa would do."

MERCHANTS BANK.

February in Toronto is always a month of social gatherings among all grades of society, and everyone, especially the laddes, like to have the proper apparel for these functions.

Dineens have a long line of fur-lined circulars, capes and opera wraps, in the very latest styles, at prices that put such articles in the reach of almost everyone. Fur-lined circulars are being sold all the way from \$12.50 to \$35. They have the fashlonable wide skirts, and are in such stylish colors as military red, green, brown, black and navy-blue, and are trimmed with thibet, Alaska seal, sable and other beauful fur, with squirrel linings, grey and white or all grey.

For the very stylish people, Dineens have a fine assortment of capes, in royal ermine, chinchilla and grebe, and the prices range from \$50 to \$75.

Any style of fur garments can be had now at a bargain at Dineens' big store, King and Yonge-streets.

MERCHANTS' BANK.

MR. J. S. Meredith of the Merchants' Bank of Canada told the correspondent that seven-eighths of the courses pointed that counted by the Merchants' Bank was at 6 per cent., and of course there was a great deal of this that would not be glit-edged. As for the States he said that the rate in Chicago was now 5 1-2 per cent, but this was on glit-edged paper. The rate was of course lower in New York and the east. As for the argument that a plethora of money, should bring down the rate of discount, Mr. Meredith believed that this state of affairs would exist only as long as the depression lasted, for when business became more active money would not be so plentiful.

MR. BEAUGRAND.
