The Prize Competition.

The winners of the three \$75 Crescent bicycles offered by the Comparative Synopses chart Co., in their prize competition for the week ending Saturday, Feb. 5, as advertised in this paper, were as follows:

Mr. William Dick, Stratford, Ont.; Miss Mary Howitt, 182 Dundas-st., Toronto; Mr. J. W. Myers, principal Belfast High School, Belfast, Ireland.

This week, in accordance with Saturday's advertisement, the company is awarding a \$75 Crescent wheel every day for the first correct answer received. Miss O'Donnell of 200 Edmondson-st., Whitby, Ont., was the fortunate winner of the wheel awarded Monday morning. To get a \$75 wheel for an outlay of 30 cents is not a bad investment, even from a Kildare standpoint.

Knights of the Grip.

The standing committee on bylaws of the Canadian Order of the Knights of the Grip met at the Arlington Hotel, on Monday evening, Feb. 7, 1898. The following gentlemen were present: Joseph McKnight, chairman; H. H. Sullivan, secretary; S. M. Stirling, Ed. Burns, W. R. Madill, George A. Henderson, Ryan, Orlando Porter, T. M. Bayne, H. Bodington, H. Goodman, A. O. Hare, W. Smith, William Hopwood, George McQuillan and W. M. Jackson.

The purpose of drafting bylaws to be submitted at the special meeting of the order, which is to be held at 2:30 p.m. on Saturday, 12th inst., in Room 2, Temperance Hall. The first regular meeting of this 32 of them, and their remuneration is \$7 per day.

Thirty-Two at \$7 Per Day. Yesterday the registrars who will supervise the registration of the manhood suffrage vote were sworn in before Judge Monaghan. Judge McDougall signed their commissions and High Constable Jones joined them with supplies. There were 32 of them, and their remuneration is \$7 per day.

PROVINCIAL NOTICES.

Below is a list of the relatives of Hon. Mr. Hardy who have been appointed to various offices by the Government of which he is the head. The fortunate individuals are all now living except Mr. Russell Hardy, the Premier's father.

The list is as follows:
Russell Hardy, father, storekeeper, London, Anytown.

C. M. Hardy, son, was a clerk in the Crown Lands Department.

Miss H. Hardy, niece, position in Orillia, Anytown.

H. R. Hardy, cousin, clerk, Crown Lands Department.

W. W. Jeffers, nephew, Education Department.

C. S. Jones, law partner, formerly Registrar of the Crown Lands Department.

Alex. H. Hardy, brother, appointed Judge by the Dominion Government.

ONTARIO TOBACCO INDUSTRY.

Score another industry for Ontario. The southern counties of the western part of the province are advantageously adapted for the cultivation of tobacco. This fact has been established by practical experiment. The returns from last season's crop have been so satisfactory that the acreage devoted to the crop will be largely increased this year.

A number of laboring men of neighboring counties are rushing land from farmers in the vicinity of the acre to grow it. It is stated that an acre of good ground will yield from 1200 to 2000 pounds of tobacco leaf, which sells at from 8 to 14 cents per pound, according to quality.

This means on the average \$150 to \$175 per acre to the farmer, who is vastly better than \$30 an acre for grain. The tobacco is principally shipped to Quebec, where it is used in the manufacture of cigars. During two weeks recently Mr. Louis White shipped from the County of Essex alone 600,000 pounds, and there still remains in the county about 200,000 pounds. It is stated by The Amherstburg Echo that one farmer cleared \$2000 from the tobacco grown on 12 acres. No wonder the farmers in the neighborhood are preparing to go into the business somewhat extensively.

VALUE OF MONOPOLIES.

The value to the people of disposing of public franchises by open bidding was well illustrated by an incident reported in The Chicago Record of Saturday last. Referring to the matter editorially The Record says: "The concession for the pony-photon service in Lincoln Park had been held by a person who paid \$500 a year for the privilege. Doubtless many would have thought that was all it was worth. There is no evidence that the Park Board was aware it had disposed of the concession at too low a price. But when the holder of the concession asked \$1000 for the entire period, the board refused, and asked for bids. As a result the concession was disposed of at the rate of \$1110 a year for three years. The person who had wanted the three-year concession for \$1000 himself bid \$1100 a year. By advertising for bids, therefore, the Park Board made the concession pay more each year than was offered for the privilege for the entire three years.

"The only way for the public to get what franchises and other privileges of that nature are worth, is to give them to persons who will pay the most for them."

If the Yukon Railway monopoly had been sold by tender it is not improbable that some company would have undertaken the work without a dollar in money or an acre of land. At any rate we know this, that we would not have had a lower bid than that offered by Messrs. McKenzie and Mann. Everything was in our favor in calling for tenders. We could not have lost a cent by such a course, while we might have been millions ahead if we had adopted it.

The installation of refrigerating apparatus, both in storage warehouses on land and in steamships, has received a tremendous impulse during the past year. Cold storage is found of great utility on ships with the most modern frame vessels, and is being used in connection with the preservation and transportation of perishable produce that cold storage is making the greatest headway. The White Star Line has fourteen ships now fitted with refrigerating apparatus; the Hamburg-American, twenty, including the tropical service; the Havre meat-importing combination, fourteen; the English tropical fruit importing line, twenty-four; the

Royal Mail Steam Packet Company

(Central and South America), twenty; the Copenhagen Butter Exporting Company, eight new installations in addition to its previous fleet. The latest built are continually being fitted with modern machinery and are being supplied with commercial sources in Russia, Japan, Africa and Belgium. The Cyprian, Tauric and Nomadic, great cargo carriers, are also supplied. There are many warehouses capable of holding 10,000 tons, while those holding 1000 tons are immensurable. These facts will show what an important influence cold storage and refrigeration has had on the marines of the world. It has brought the products of distant countries to the very doors of France, England, Germany and all the other European countries. The economical possibilities of the effects of refrigeration are unlimited, but one fact is in evidence—advantageous results and industrial progressiveness have brought the ends of the world closer together and opened up every country on this great globe as a market for perishable products.

TORONTO'S MOST PROMISING INDUSTRY.

The outlook for the pork packing industry in Ontario is most promising, particularly so far as Toronto is concerned. A large new packing house is to be erected at the foot of Bathurst-street by Messrs. Park, Blackwell & Co., and we learn on good authority that E. W. Peurman & Sons have about completed arrangements for establishing a branch of their business in this city. Farmers and business men in various parts of Ontario are discussing the packing house industry with enthusiasm, and the present year will no doubt see several factories established throughout the province. It is proposed to build a new round-toe-warm-lined—special Tuesday \$1.25.

CONSERVATIVES, RALLY!

The Conservative candidates for Toronto are: Thomas Crawford, Esq., J. J. Fox, Esq., Q. C., George F. Maister, Esq., and Dr. R. A. Fyne. The committee rooms so far opened are: General Assembly—12 King-street east; North Toronto—510 Yonge-street, 607 Yonge-street, 553 Parliament-street and 318 College-street; East Toronto—225 Yonge-street, 205 Spadina-avenue, 252 Queen-street west and 443 King-street west; West Toronto—1006 Queen-street west. All Conservative candidates are desirous of assisting the forthcoming elections are requested to hand in their names at any of the committee rooms in the Electoral District, or at the Central Room, 12 King-street east.

The immediate important matter for all Conservatives is the Registration of Voters. Chicago and Kansas City Firms Getting Large Orders for Canned Food From Canada and Russia.

San Francisco, Feb. 7.—The officials of the Pacific Mail Steamship Company say that within the past few days there has been an astonishing increase in shipments of food supplies to the Orient, consequent upon the gathering in Chinese waters of the English, German and French warships. They also state that a few days ago the representative of the English Government placed an order in Kansas City for 2000 tons of beef to be sent to the English fleet in Chinese waters. The Russian Government, they also state, has given a big order to two Chicago houses for canned goods and beef, part of which will be sent from this port to the Orient and the remainder by way of Vancouver or Seattle. The agent of the Russian Government has an order for 1200 tons of beef, and an order for 1200 tons of canned goods. This order for canned goods is intended as part of the supplies for the Russian troops now being sent from the Caucasus to the Manchurian frontier. Agents of the French and German Governments have also placed orders for meat supplies both in Omaha and Chicago.
