BIG ELECTRIC MONOPOLY SEEKS INCREASED POWER

Cataract Company is After Another Long Lease Preparatory to Entering Upon an Extensive Merger Deal.

St. Catharines, July 31 .- (Special.)-That Toronto and Hamilton capitalists are manoeuvring to secure a monopoly of the immense water powers in the Niagara District is the belief of many who have been watching the movements of the electric magnates during

a scheme that looked O.K. on the face of it. The services of an organ were secured and some of the water commissioners were drawn into the game without much trouble. The ldea was that the City of Catharines should release its on the irestimable supply of water coming over the Higgins flume from the Welland Canal into the Beaver Dam Creek. The company wanted to construct a dam to give it a greater supply of water for its power house at the escargument near Day Core Flux Day Co

on the investmable supply of water combine year the Highing flume from Dam Creek. The company wanted by the control of the steril and most size it a greater than a forest possible than the control of the steril and the steril of the steril

When the people open their eyes to the present situation it is expected that there will be a tremendous outburst of indignation. It is less than two years since the Cataract Power Company made its last profitable deal Company made its last profitable deal with a St. Catharines elective body, and to return so soon with a second proposition, the import of which few understand, is characterized as most unblushing cheek. The Cataract Power Company is giving absolutely nothing to the city for its proposed extension of the city for its proposed ext to the city for its proposed extension of 43 years of its franchise. True, the Ca-taract Power Company does not ask other companies be excluded. Ha :ing secured all the water falls in the Niagara District, the company does not fear competition, and can afford to be generous; and when the giant concern, with headquarters in Toronto, completes its present work at Niagara Falls, and gets ready to begin operations, the public will not be surprised if they hear that the Cataract Power Company and all the subsidiary companies operating in the relative

What the people are to get in return for this long term franchise is not plain. In the bylaw submitted there is no clause regulating the rates, but a paragraph declares that the company shall supply electricity at "reasonable" rates. Presumably the Cataract Power Company wants the people of St. Catharines to let it say what "reasonable" ried out thru houses having Minne rates are.

London, July 31—Considerable progress is being made with the new Anglo Japanese treaty of alliance, which the foreign office hopes will be concluded at an early date. Some of the details have not yet been fully settled, but it can definitely be stated that the terms will be decidedly more comprehensive than those governing the present alliance.

In reply to a question in the house of the details.

Ceivable kind of pull being applied. When the Argyle is pulled off she is to be taken first to Whitby harbor, when the Argyle is pulled off she is to be taken first to Whitby harbor, when the Argyle is pulled off she is to be taken first to Whitby harbor, where will be found sufficient depth of water for divers to examine the bottom of the hull and effect such temportary repairs—as to make it safe to take her to Kingston for dry docking. It is still very problematical whether she can be got off without much more difficant definitely be stated that the terms will be decidedly more comprehensive than those governing the present alliance.
