

If you are troubled with Liver Complaint, or any disease arising from excess of Bile on the Stomach,

USE DR. M'LANE'S Celebrated Liver Pills!

THE increased demand for *Dr. M'Lane's Liver Pills*, since their introduction, has far exceeded the most sanguine expectations of the Proprietors. It is now eighteen years since they were first brought before the public, during which time *thousands of certificates*, from persons of respectability, who have used *Dr. M'Lane's Pills with the most happy results*, have been handed us.

We have also the certificates of a large number of *Regular Physicians*, of good standing, throughout the country, who are using and recommending these Pills in their practice.

Dr. M'Lane's Liver Pills are not, (like most of the popular medicines of the day,) held forth or recommended as universal cures-alls, but simply for LIVER COMPLAINTS, or diseases originating in a deranged state of that organ.

We have lately received letters from many who have used these Pills in

CASES OF AGUE AND FEVER

With the most happy results. Certainly no better cathartic can be used preparatory to or after taking quinine. We would advise all who are afflicted with this disease to give them a fair trial. In cases of Bilious Fever, and indeed

ALL BILIOUS COMPLAINTS,

We unhesitatingly pronounce *Dr. M'Lane's Liver Pills* to be one of the most safe and effectual remedies now before the public.

Symptoms of a Diseased Liver.

Pain in the right side, under the edge of the ribs, increasing on pressure; sometimes the pain is in the left side; the patient is rarely able to lie on the left side; sometimes the pain is felt under the shoulder blade, and it frequently extends to the top of the shoulder, and is sometimes mistaken for a rheumatism in the arm. The stomach is affected with loss of appetite and sickness; the bowels in general are costive, sometimes alternating with lax; the head is troubled with pain, accompanied with a dull, heavy sensation in the back part. There is generally a considerable loss of memory, accompanied with a painful sensation of having left undone something which ought to have been done. A slight dry cough is sometimes an attendant. The patient complains of weariness and debility; he is easily startled; his feet are cold or burning, and he complains of a prickly sensation of the skin; his spirits are low, and although he is satisfied that exercise would be beneficial to him, yet he can scarcely summon up fortitude enough to try it. In fact, he distrusts every remedy. Several of the above symptoms attend the disease; but cases have occurred where few of them existed, yet examination of the body, after death, has shown the Liver to have been extensively deranged.

Dr. M'Lane's Celebrated Liver Pill, also, *Dr. M'Lane's Celebrated Vermifuge*, can now be had at all respectable Drug Stores in the United States.

Agents in Halifax—JOHN NAYLOR and WM. LANGLEY.
