

OPINIONS OF LEADING SCIENTISTS

— ON —

Sunlight Soap.

FROM SIR CHARLES A. CAMERON, M.D.,

Ex-President of the Royal College of Surgeons,
Vice-President of the Institute of Chemistry
of Great Britain, etc., etc.

I have carefully analysed specimens of the Sunlight Soap, submitted to me for that purpose by Messrs. Lever Bros., Ltd., and the following are the results at which I have arrived :

The points in the composition of this Soap that are the most valuable, are its freedom from free alkali, the large percentage of fatty acids which it contains, and the purity of the materials employed in its preparation. I employ the soap myself, and from my actual experience of it can strongly recommend it.

(Signed), CHAS. A. CAMERON.

Laboratory, Royal College of Surgeons,
Stephens Green, W. Dublin.
