THE WAR NEWS.

Today's cables say that the Germans admit the failure of their attempt to capture Ypres and crumple up the British left wing. They are retreating from positions northeast of Ypres, and are being hard pressed by British and French troops, who give them no rest. We are also told that they have been using new troops, many of them under fire for the first time, in this battle, and that they have been demoralised by the terrific shell fire.

THE DARDANELLES

The Allies have been successful in landing supporting armies on both sides of the Dardanelles, near the entrance to the straits, and they will co-operate with the powerful fleet which is attempting to force the passage. It is a task of great magnitude, and although the Turks have thus far failed to win any distinction whatever in this war they are stoutly fighting, and in positions where they are strongly entrenched they may be expected to make a very stubborn resistance. Here, however, as elsewhere, artillery will play a most important part in the struggle, and it is probable he found that in due time the Allies will prove their superiority in this respect. If we may judge from many reports that have come from this quarter the Turks have no great military force in which they have thus far gained no glory and have suffered much loss, and apparently they depend a good deal upon German officers and gunners, and of these the supply must be somewhat limited. We need not look for an immediate victory in the region of the Dardanelles, but there is every reason now to anticipate final triumph as a result of the combined operations of the allied fleet and armies.

COL. HAMBROD'S MISSION

The mission on which Col. Hammond of the Salvation Army comes to Canada is one of great importance. As set forth in yesterday's issue of The Times, he is here in connection with a great scheme to avoid unemployment as far as possible at the end of the war, and to do it through the agency of emigration from the Mother Country. There will be a considerable period after the war when everything relating to employment will be in a unsatisfactory condition. Hundreds of thousands of men will return from the war, and while many of them will be able to take up their old work again, many others, because of the unparalleled dislocation of business, will find nothing to do. Many of these will desire to make their homes in some other part of the Empire, and Canada should offer the most inviting field. Of course the problem offers serious financial difficulties, but these can be overcome by co-operation between the governments. The Salvation Army has offered to place its emigration department at the service of the Empire for this purpose. That department was established eleven years ago, and has already distributed nearly 90,000 British people among the Dominions overseas. It is an Empire-wide organization, and has commended itself to those in England who are interested themselves in the great problem which must be solved at the end of the war. The London Standard says:—

"The emigration department of the Salvation Army is quite the most important of the bodies which deal with emigration." The Daily Graphic says: "In the magnitude of its charitable operations throughout the world many people are apt to lose sight of the great work the Salvation Army is doing through its emigration department. It is not merely that by its agency it is safeguarding the immigrant in every possible way, but it is steadily and surely forging link by link a vast chain binding together the British Empire." The London Canadian Gazette adds:—"The emigration department of the Salvation Army is without doubt one of

The motorist stopped, and the conductor looked earnestly up the steps, but no one descended, and at last he stalked up impatiently. "Yes, you," he said to a man on top, "don't you get down?" "Yes," was the reply. "Well," retorted the conductor, "come down here. I can't bring it out on the bus for you."

"Hiram writes that the first day he was in London he lost 213." "Great Canada!" "Ain't they got any health laws in that town?"

More and more evidence is required to prove that German soldiers have been guilty of utterly brutal and inhuman conduct.

Mr. A. DeWitt Foster takes care to say that he does not consider that he was read out of the Conservative party by Premier Borden, and adds that his future is in the hands of his friends. His resignation was voluntary and not in response to a demand from Sir Robert Borden. Neither was the latter asked for the resignation of Mr. Foster. It would be indeed interesting if Mr. Foster and Mr. Garland, as well as Mr. J. K. Fleming, should be candidates for the Conservative party in the next elections.

Rev. Dr. Shearer made it clear to a St. John audience last evening that there are bad housing conditions in some Canadian cities which could hardly be surpassed in European centres.

Rev. Dr. Shearer made it clear to a St. John audience last evening that there are bad housing conditions in some Canadian cities which could hardly be surpassed in European centres. We cannot be too often reminded of the importance, not only of town planning, but of housing reform. There is great need of it in St. John. Occasionally conditions are revealed which shock the community, but they are soon forgotten, and there is still lacking that organized effort which alone can bring about the necessary reform. There are slum conditions in St. John, and they should not be tolerated. Just as soon as the pressure of the war is relaxed the questions of better housing, better care of children, better provision for the old, and other matters must be taken up seriously, and dealt with by the people who are now so nobly responding to the appeal for personal service under war conditions.

PRaise for Canadians.

(Bangor Commercial.) The Canadian newspapers speak with great pride, and they certainly have the right to do so, of the gallantry exhibited by the Canadian troops in the recent great battle near Ypres. In the sharp German assault upon the lines of the Allies the Canadians were left temporarily unsupported and were forced to fall back. The French and Belgians were also forced back, but the Canadians did what their allies did not do—they rallied and charged—regaining the ground that they had lost and doing a vast part toward saving the day for the Allies. There were great losses and the horror of the war is now brought home to our neighbors across the border as it has not been previously, but they have the consolation of knowing that the Canadian contingent did its full duty.

CALAIS TO CELEBRATE THE GLORIOUS FOURTH

Elaborate Programme of Sports Arranged For Border City; Excursions Planned

Calais, April 29—Calais will have an old time celebration of the glorious Fourth of July, under the auspices of the Calais Fire Department.

Another feature in the line of attractions which the committee is considering is a high class vaudeville act. Outside of the celebrations held at the Calais fair grounds, Calais has not had a celebration in a number of years, and the good old fashioned kind which is being arranged by the firemen is sure of considerable support among the business men and citizens generally to guarantee ample funds for a successful carrying out of the same.

Seized With Paralysis Could Not Walk

Most Extraordinary Cure Effected By The Use of Dr. Chase's Nerve Food

To have the nervous system paralyzed, to be unable to walk and scarcely able to talk, and then to be completely cured, is not a usual experience, but Mr. Hyatt tells in this letter what he passed through. Doctors told him his case was hopeless, and when they gave up he turned to Dr. Chase's Nerve Food, and obtained complete cure.

Mr. Avery Hyatt, blacksmith, St. Ann's, Lincoln Co., Ont., writes:—"I am a blacksmith by trade, and ten years ago became afflicted with paralysis. I could not walk or read or write, and could talk with difficulty, so that it was a hard matter to understand anything I would say. Being only a young man, I was nearly discouraged. Two doctors told me it was hopeless. One day my father read about Dr. Chase's Nerve Food, and advised me to try it. I bought twelve boxes, and when

the fifth was used I saw that I was getting better. By the time the twelve boxes were used I was cured. I am well and strong and working every day, thanks to Dr. Chase's Nerve Food."

This statement is certified to by Mr. Elmer J. Hodgkins, J. P.

No ailment is more dreaded than paralysis. And yet how few people realize that paralysis of the nerves is only the natural result of neglected nervous troubles.

At first you do not sleep well, have nervous headaches or indigestion, find yourself easily irritated and annoyed, can hear noises which in good health you would never notice. You do not consider yourself sick, and yet you lack the usual energy and vigor and feel out of sorts.

Restore the nerves by using Dr. Chase's Nerve Food. 50c a box, 6 for \$2.50. All dealers, or Edmanham, Bates Co., Limited, Toronto.
