CITY DEATHS IN OCTOBER LESS THAN LAST YEAR

Decrease of 10 in Month, Board of Health Told at Meeting

The Saint John sub-district Board of Health at its meeting yesterday afternoon received notification that a man was keeping a cow in the city. An order was issued to have the cow removed. The matter of the hotel, which was before the meeting of the previous month, was referred to a committee to take immediate action in closing the hotel if it was found that the requirements of the regulations had not been carried out. John Kelly, chairman presided. Miss Alice MacPhail, child welfare nurse, was granted six months sick leave and Miss J. M. Sadler was appointed to take over her duties temporarily.

Dr. T. Fred Johnston, reporting as dairy and food inspector, told of supervision of milk plants and the taking of 222 sediment tests of milk; a can of dirty milk was ordered used for pig feed and some sour milk was churned. He gave a list of producers who were selling raw milk and the quantity being sold. Dr. Johnston had inspected the premises of 70 milk and cream producers in King's County and carried out regular inspections of the two slaughter houses at which 2,169 animals were killed, including 190 lambs. The lamb season was now practically over.

ANTI T. B. REPORT

The report of the anti-tuberculosis work, given by Miss A. Hegan, showed 34 patients on the register, of whom 21 were discharged, two to the county hospital, four left the city, 13 as non-tubercular, one having died and one being passed to other care. At the seven clinics the attendance was 63. There were three patients receiving medicine, nine had been X-rayed and 13 fluoroscopes were taken. The nurses made 49 visits to patients, reported two cases to the Board of Health and examined 17 contacts.

Miss M. Wallace reported 28 patients visited the 12 dental clinics where 3 treatments were given, four cases were sent to the General Public Hospital, and seven to private care. She also reported that at five pre-school age clinics 15 children attended and she had made 37 visits to homes besides conducting Little Mothers' League classes at the Health Centre.

Mrs. M. F. Coleman reported having made 401 visits to stores, shops and similar premises and issued 15 permits to sell milk. She told of warning proprietors about the necessity of covering fruit, not keeping canned goods in the open can and proper conditions for refrigerators.

Dr. H. L. Abramson, provincial pathologist, gave satisfactory reports of the city water supply.

Miss L. Richardson's report on the child welfare work showed 629 babies listed at the end of the month. There were visits made to 249 babies and the total of all visits was 350, which included inspection of eight boarding houses and investigations of four deaths. During the month three babies died and 37 new babies were listed. At 14 clinics 141 babies attended 211 times.

The report of T. M. Burns, secretary, showed there had been 62 deaths in October, 1926, as compared with 72 deaths in October, 1925. For that month in the last two years the lists of notifiable diseases was as follows:

	1926	1925
Scarlet fever	35	5
Typhoid	5	7
Measles	2	4
Infantile paralysis	1	..
Tuberculosis	5	5
Chickenpox	..	1
Diphtheria	..	5
Whooping cough	..	1

With reference to the large number of cases of scarlet fever it was said that this disease is quite prevalent this season and at other points in the province many scarlet fever cases have been reported. It was believed the disease was being spread by mild cases which were not recognized for what they actually were.

It was decided to change the date of regular meeting from the first Monday in each month to the first Wednesday.

As Hiram Sees It

"I see two men an' two women on that there craft," says I to the town feller, pintin' to the patch o' moonlight on Long Reach.

"Them," says the town feller, "is the ghosts of Louis an' Mathieu d'Amours an' their wives—goin' down to meet a ship from France. It's a sort of holiday fer them. The wives is sisters. They all come from Quebec to settle on the Saint John river. The' was four o' the d'Amours boys altogether. Louis he got the big grant old Soulanges hed once at Jimsag. Mathieu hed from Jimsag to Nashwaak. Rene hed a great stretch above Fred'icton. Bernard hed about all o' the Kennebecashus. They was alwus a feud between the four d' Amours fellers an' Gove'nor Villebon an' his four brothers—but they took it out in writin' letters to the Gove'nor General at Quebec. I guess what they said about one another couldn't 'ave been all true. Louis an' Mathieu d'Amours seems to hev been good fellers—considerin' the times they lived in. They come to the Saint John River about two hundred an' forty year ago. Them was their ghosts we jist seen in the moonlight on the river."
