NAVIES WILL FORCE GREECE TO BEHAVE

DEMONSTRATION BEFORE ATHENS IS POSSIBLE

League Council In Session Over Balkan Crisis

REPORT ACCORD Bulgarian Envoy Declares 48 Casualties Inflicted By Greek Invasion

ATHENS, Oct. 27.—The Greek government today ordered the prompt execution of Bulgarian territory by its forces.

PARIS, Oct. 27.—A naval demonstration before Athens is a possible League of Nations move, should the government of Premier Pangalos decline to bow to the League Council's decision that must cease all hostilities and remove all Greek forces from Bulgarian soil.

AGREEMENT REPORTED Although M. Carapanos, the Greek minister told the council today that both Greece and Bulgaria had reached a direct accord, through the good offices of Rumania to suspended hostilities and retire behind their frontiers, the Bulgarian representatives declared they had no confirmation of this report.

Indeed M. Morloff, speaking for Sofia government, informed the council that a direct entente with Greece was utterly impossible because of Greece's persistent refusal to listen to Bulgaria's repeated offers to appoint a joint commission to inquire into the border trouble.

M. Morloff said the latest despatch from Sofia, showed that up to yesterday the Bulgarian losses were 46 killed or wounded. Of these, 26 were soldiers, and 22 civilians, men and women. There was the probability of other unknown victims.

The conditions of the agreement, he said, were that Bulgarian and Greek officers should proceed this afternoon to the frontier to arrange for the return of the Greek border guards to their original posts.

WITHDRAW IMMEDIATELY The Greek troops in Bulgaria would begin their withdrawal immediately, and the Bulgarian forces would not advance in a manner to hinder the Greeks until the latter had crossed the frontier.

An Athens despatch last night said the Greco-Bulgarian agreement, at the suggestion of Rumania, had been reached prior to yesterday's action of the League of Nations Council in Paris, which ordered Greece and Bulgaria to withdraw their troops behind their respective frontiers.

Whether Rumania acted independently of the League or not, the effect of the agreement is to carry out the conditions laid down by the League Council, which stipulated that the disputing states should issue orders for retirement of their troops within 24 hours, and be in a position within 60 hours to report that the evacuation was complete.

Would Use Canadian Ports More For Flour Shipments

BY A. N. BEDDING Staff representative of The Telegraph-Journal and Evening Times-Star, who is now on an active canvass of Canadian ports, in behalf of the more general use of Canadian ports.

TORONTO, Oct. 26.—If Charles La Ferle, traffic manager for the Maple Leaf Milling Co., Ltd., could have his way, Canadian ports would have more business, and, also, there would be less Canadian grain milled in Buffalo, Mr. La Ferle showed me a file of correspondence which included representations to the Railway Commission, the Governor General and the Colonial Secretary, relative to rates on flour to Newfoundland. He would have all the business done through our own ports, cutting out Boston, and also cutting out American milled flour, which has been getting an entry into the market of the Ancient Colony. He insists that Canadian flour for that market should get the export rate. If a shipment of flour is to be made from Goderich to Hamburg, Germany, the rail rate to Saint John or Halifax is 18 1/2 cents per hundred pounds. If it is for St. John's, Newfoundland, the rate to our ports is 33 1/2 cents. In both cases the flour is handled under the same conditions, but the element of competition does not enter into the Newfoundland business, and so the export rate is denied by the transportation companies. Mr. La Ferle insists that our own ports, including Saint John and Halifax, should get all of this business, and that Canada should command the market, instead of permitting the Americans to strengthen their foothold.

HE insists that it is a short-sighted policy the railways are pursuing, and that it will result in loss of business, whereas they should be increasing their hold on the traffic. He is still carrying on correspondence, and should be deeply interested in this matter. Buffalo can ship flour to Boston for Newfoundland at a rail rate of 16 cents, compared with 33 1/2 cents from Goderich to Maritime ports.

Thousands Hear Mechanist Theory Discussed in Chicago

BISHOP OPPONENT Necessity of Faith Is Stressed by Rt. Rev. F. J. McConnell In Talk

CHICAGO, Oct. 27.—Bishop Francis J. McConnell, of Pittsburg, and Clarence Darrow, Chicago attorney and writer, last night debated the question, "Does the mechanist theory explain man?" before several thousand persons at Emile G. Hirsch center.

COMPARED TO ENGINE Dr. Darrow compared man to an engine; by itself it created nothing, the body returned to the 28 or 29 chemical elements from which it was made, and the individual had gone.

COMPARED TO ENGINE Dr. Darrow compared man to an engine; by itself it created nothing, the body returned to the 28 or 29 chemical elements from which it was made, and the individual had gone.

BISHOP'S REPLY Bishop McConnell replied that the world "acts as if it were governed by foresight." He pointed out that his opponent had not said anything about mind of man and advised: "Maybe Mr. Darrow does not believe in the existence of mind."

PAINLEVE HANDS RESIGNATIONS TO PRESIDENT

Ministers' Decision To Quit Was Unanimous

RULED 6 MONTHS Succeeded Herriot Ministry In April—Caillaux's Plans Are Thwarted

PARIS, Oct. 27.—Premier Painleve's cabinet resigned today. M. Painleve called on President Doumergue shortly after 2 p. m., and presented the collective resignation of the ministers.

DEPENDED ON LEFT Like his predecessor, the cabinet which steps down today, depended for its parliamentary majority largely on the parties of the Left, including the Radical and Radical Socialists. Joseph Caillaux, Painleve's Minister of Finance and one of the outstanding personalities of the government, has steadfastly resisted the Left bloc in its desire to resort to a levy on capital as a means of lifting France out of its financial difficulties. Paris dispatches for the last few days, have made it plain that Premier and Foreign Minister Briand were not in sympathy with M. Caillaux's plans, the details of which have been kept largely in the dark during their consideration by the cabinet.
