DOLLARS FOR ROUGE; PENNIES TO THE CHURCH

Beauty and Mission Expenses of Women as 88 to 1, Says Methodist—Takes Smokers to Task.

Atlantic City, N. J., March 16 — "American women last year spent thirty-eight times as much money for powder puffs, rouge, lipsticks and perfumes as all the Methodists gave to the missionary work of the world," declared the Rev. Luther E. Lovejoy of Chicago, addressing the eighty-sixth annual meeting of the New Jersey Methodist Episcopal Conference in St. Paul's church. He said further: "Though living much higher today than in former times, and the fact is true that the dollar purchases less than it ever did, the lowly copper still remains the standard coin of church giving. That means that we are still giving at the same rate that our grandfathers did. Another thing is that the men of

A less optimistic view was expressed by Titus Lowe of New York, General Secretary of the Board of Foreign Missions of the Methodist Episcopal church. "The unrest in India under the leadership of Gandhi threatens to bring about a serious situation if the anti-white sentiment continues to increase," he declared, addressing the assembly. He added, however, that India is responding to the teachings of Christianity to a degree which was not even dreamed of a quarter of a century ago. Why Hurlbut's Are Correct

The shape of a HURLBUT shoe is the shape of the natural, healthy foot. It cannot crowd or deform the toes, but gives each toe room to grow naturally. The cushion inner-sole—a quarter inch of pure lamb's wool—gives a soft smooth tread and keeps the foot at even temperature.

HURLBUTS are made of the very best materials—oak tanned soles and uppers of selected leather, reinforced where strain comes. They are comfortable, stylish and economical, giving the lowest cost per day of wear.

New Shoes for Old

WHEN A CHILD OUTGROWS HURLBUT SHOES, WE REBUILD THEM ONE-HALF SIZE LARGER AT MODERATE PRICE. WRITE FOR "RE-BUILT" PRICE LIST AND WE WILL ENCLOSE PUSSY-FOOT JINGLE BOOK IN COLORS.

BETTER THAN HARD COAL

Soft coal so free from soot that it does not make whippers on stove covers or pipe and does not mat or cake when burning, is far better than Hard Coal for general household use. Quicker to light, takes less to make a fire, cheaper in price and can also be used for open fires and small heating stoves. Such a coal is Broad Cove soft coal. The main thing is to insist on getting the genuine article. No other soft coal burns just like Broad Cove. You will know it by the above characteristics.
