BILLIARDS.

Five Tie for Lead.

Cleveland, Nov. 12.—Five of the ten players competing in the national three-cushion billiard championship tournament are tied for first place. By winning today and tonight, E. L. Canelax of New York, Charles McCourt of Cleveland, Otto Reisel of Chicago and Pierre Maupome of Milwaukee are on even terms with Clarence Jackson of Detroit, with three games won and one lost. Jackson was idle today. Reisel defeated Hugh Heal of Toledo tonight, 50 to 37 in fifty-five innings. Maupome won from Byron Gillette of Buffalo, 50 to 25, in sixty-four innings. Reisel's run of seven was high tonight.

ATHLETIC.

Forfeit Amateur Standing?

St. Louis, Mo., Nov. 12.—The amateur athletic world has lost its greatest athlete. He passed out last week without attracting even a ripple of comment. Unless an eleven-hour reversal changes his decision, Robert I. Simpson, the fastest high hurdler the world ever knew and classed among the leading all-round stars of the country, will become a paid professional coach at the University of Missouri.

Automatically Simpson will lose his amateur standing and be barred from all competition in simon-pure events. As there are practically no professional track athletes in this country, it is probable that he will never figure publicly in an athletic competition, unless it should be of an exhibition nature.

THE RING.

Champion Outpointed.

Philadelphia, Nov. 12.—Joe Lynch of New York outpointed Pete Herman, bantamweight champion, in six rounds here tonight.

A Knockout.

McKeesport, Pa., Nov. 12.—Jack Perry, a welterweight of Pittsburgh, knocked out Eddie McAndrews of Philadelphia in the eighth round of a scheduled ten-round bout tonight. Perry outboxed McAndrews in every stage of the game, the latter holding his own in only one round, the sixth.

BASEBALL.

How He Got Scoop.

Here's a rich one from the world's series on how "Tiny" Maxwell, a Philadelphia sport writer, beat the whole country on the petition of the four umpires to the National Commission asking that their fee in the series be raised from \$1,000 to \$2,000. The umpires went about it in a dignified way and kept the matter to themselves. They had a public stenographer in a Cincinnati hotel type-write their request.

Now a couple of days later Mr. Maxwell was in his room at the same hotel, writing his story on his Corona. He had use for a sheet of carbon paper, so sent a bellhop for it.

When the boy returned "Tiny" picked up the black paper to stick between two sheets of copy paper. He noticed that one impression had been made on the carbon.

He was curious enough to scrutinize the inverted typewriting. All newspaper men read writing backwards with facility because they get used to reading type in the form. When he saw the

carbon had reproduced a letter written to the commission he quickly devoured every word of it and had a big beat for his paper.

The Boilermakers and Helpers' Union held a well attended meeting in the Painter's hall, Charlotte street, last night. Routine business was discussed.

A REGULAR HOCKEY SEASON FOR NOVA SCOTIA

According to the Halifax Herald, Haligonians are hockey mad and clamoring for a rink that may be used for hockey this coming winter. According to reports negotiations are under way for the use of the market building and the old buildings at the exhibition grounds this winter and if these are successful, hockey will boom over Nova Scotia, Sydney, Glace Bay, and it is understood New Glasgow are certain to have teams, while the new arena in Amherst will no doubt be ready shortly after the new year, and this will give that town a chance to get back on hockey map once more. Springhill will place a team on the ice, and if Halifax gets the rink they speak of one and possibly two teams will represent the capital city. By the way Halifax will have several hockey leagues, including the collegians, semi pros and amateurs.

ONLY an artist can blend colors to match the beautiful Red Rose.

Blending teas is even more difficult.

It requires expert knowledge and a highly cultivated sense of taste to select teas from many different gardens and produce a uniform blend day after day.

Only the largest companies can afford to employ men who are expert tea tasters and blenders.

Red Rose Tea is an example of the fine art of tea blending, more than a dozen varieties of choice teas being used—principally rich, strong, full-flavored ASSAMS.

Its delightful and distinctive flavor is exclusive to Red Rose. And its rich strength means economy in your tea pot.

Try a sealed package of this expert blend.

Keep the Wheel of Prosperity Spinning

MACHINERY spins and roars in our factories.

Smoke ascends from our foundries and mills. In the fields the threshers hum.

All Canada is alive with the activity of production and distribution.

There's a demand for what we make.

There's a market for what we grow.

The wheel of prosperity is spinning.

But it doesn't turn itself.

We—You and I—must help to keep it turning.

The driving force of the wheel of Prosperity is the Victory Loan.

It will keep up the foreign market for our surplus agriculture and industrial products.

It will help finance our National undertakings and expenditures.

It will keep the Wheel of Prosperity turning.

Do you realize what it would mean to have the Wheel of Prosperity slow up and stop?

It would mean loss of employment and agricultural and industrial stagnation. It would result in loss to you and each and every one of us.

So get behind the Victory Loan.

There is only one way to keep the Wheel of Prosperity turning—that is to
